Part 2 Regulated Patient Information – updated entire section</p>

Executive Summary

Health providers in California frequently express concern about the impact complex health information laws have on their practices and ability to provide integrated and coordinated care for patients. This is particularly true for the stringent federal and state laws that provide special protections for the privacy and confidentiality of mental health information and substance use disorder (SUD) patient-identifying information. The State of California developed this State Health Information Guidance (SHIG) document to help clarify federal and state laws (as of December 15, 2017) that impact disclosure and sharing of mental health and SUD patient-identifying information and records within California by providing scenario-based guidance in everyday business language. This guidance incorporates revisions to 42 Code of Federal Regulations (C.F.R.) Part 2 effective March 2017 and July 2020 and Lanterman-Petris-Short (LPS) Act effective January 2018.

The SHIG document provides the State of California's guidance in plain language about how mental health and SUD patient information can be shared in the day-to-day practice of providing patient-centered care. It is designed to clarify existing federal and state laws that impact disclosure and sharing of behavioral health¹ information within California by providing scenario-based guidance in everyday business language. The SHIG includes a variety of common scenarios to answer questions regarding when mental health and SUD patient-identifying information can be appropriately disclosed with and without patient authorization. This guidance will help achieve the objectives of the Institute for Healthcare Improvement's Triple Aim Initiative²: improve patient healthcare experience, improve the health of populations, and reduce the cost of healthcare.

The process of developing the SHIG involved extensive input from private and public healthcare entities. Stakeholders from more than 20 healthcare organizations served on the SHIG Advisory Group, identified common questions and concerns about sharing behavioral health information, and provided periodic feedback as the SHIG was developed. The scenarios included in the SHIG are based on questions and concerns identified by the stakeholders.

The guidance in this document involves five general principles the State of California considers foundational for sharing behavioral health information:

¹ For purposes of this document, behavioral health is defined as encompassing both mental health and SUD patient-identifying information. This excludes psychotherapy notes.

² Institute for Healthcare Improvement, "Triple Aim Initiative," 2017, <http://www.ihl.org/Engage/Initiatives/TripleAim/Pages/default.aspx>

1. **Coordination of Care** - Behavioral health information should be shared to the extent allowed by federal and state law to address patient care needs involving medical, behavioral, and even socioeconomic issues.
2. **Information Blocking** - Intentionally not sharing behavioral health information that can be legally and ethically shared to benefit the patient is strongly discouraged.³
3. **Patient Access** - A patient generally has the right to inspect, review, and obtain copies of his or her behavioral health information, and a provider is responsible to enable such patient access.
4. **Patient Right to Be Informed** - A patient generally has the right to be informed of a provider's practices regarding uses and disclosures of his or her healthcare information.
5. **Patient Right to Authorize Disclosure of Healthcare Information** - A patient has the right to authorize disclosure of his or her behavioral health information.

Based on these principles and relevant federal and state law, the clarifying guidance in this document is organized to move from general to more specific guidance in three levels:

1. **General Guidance** to identify key federal and state laws regarding the disclosure of mental health patient information or SUD patient-identifying information and help behavioral health providers determine whether and when they and their patients' information are regulated by the complex mental health and SUD laws.
2. **Guidance by Category** in six situational categories:
 - a. Treatment and Coordination of Care
 - b. Payment and Determination of Benefits
 - c. Healthcare Operations
 - d. Law Enforcement
 - e. Public Safety and Public Health Policy
 - f. Health Information Exchange
3. **Scenario-Based Guidance** to provide answers and clarifications to stakeholder-identified questions through flow-chart graphics and narrative responses in 22 scenarios.

Federal and state laws regarding the privacy of health information in general, and behavioral health information specifically, clearly allow health information to be shared for many purposes when a patient or patient's representative provides consent or authorization. Therefore, this behavioral health information guidance on exchange of patient information and records focuses on activities involving uses and disclosures of health information that do not require a valid authorization from the patient or their authorized representative.

³ Information blocking is prohibited for health care providers, health IT developers of certified health IT, health information exchanges, and health information networks, as defined in 45 C.F.R. part 171.102 under the Information Blocking Rule of the 21st Century Cures Act. (45 C.F.R. § 171.100 et seq.)

While the guidance is designed to be helpful and authoritative, the SHIG is specifically not designed, nor does the State intend through its publication, to provide legal counsel applicable to all behavioral health circumstances. This guidance is for informational purposes only and should not be construed as legal advice or policy of the State of California. The State makes no warranties, expressed or implied, regarding errors or omissions and assumes no legal liability or responsibility for loss or damage resulting from the use of information contained within. Due to the complexity of laws related to mental health and SUD information and records, readers are encouraged to consult an attorney prior to developing and implementing operational policies and procedures governing the use and disclosure of such patient information.

The SHIG is not intended as a comprehensive solution for all the associated legal, technological, operational, cultural, and financial issues associated with sharing mental health and SUD patient-identifying information. It is, however, intended to encourage the responsible and appropriate sharing of behavioral health information in California and promote a dialog among health providers and interested stakeholders regarding what disclosures and sharing can be done within current federal and state laws. Health providers, patient advocates, coordinators of care, concerned individuals, the courts, local governments, community health centers, state agencies, and the Legislature must collaborate and dialog with one another to fully achieve this document's purpose. To protect patients' rights while promoting whole-person care and better patient health outcomes through improved care coordination and information sharing, this dialog must continue well beyond the SHIG's publication.

The State encourages readers to use the SHIG to take appropriate next steps for their organizations to improve patients' healthcare experiences and health outcomes. Possible next steps for readers might include:

- Sharing the SHIG with appropriate staff and leaders within the readers' healthcare organizations
- Reviewing and possibly updating organization policies and procedures
- Working with local governments, other providers, and patients' groups to develop memoranda of understanding and data-sharing agreements for Whole Person Care pilots and other appropriate patient care efforts involving data sharing
- Actively engaging in industry discussions regarding Triple Aim Initiative objectives and how to best achieve them
- Identifying legislative changes that protect patient privacy while limiting obstacles for patient-centric integrated care

While designed to be helpful, the SHIG clarifications will lead to improvements for California health providers and patients only if there is meaningful follow-up action.

Navigating SHIG

This section is designed to orient the reader to the State Health Information Guidance (SHIG) document. It explains the imbedded hyperlinks, the structure of the guidance, and the approach to legal citations and references.

Definitions, Acronyms and Hyperlinks

Beginning with this section and throughout the rest of the SHIG, key words, phrases, and acronyms are underlined and in blue font the first time they are used in a section or scenario. As an example, note the formatting of [health information](#). Words and phrases formatted in this way are hyperlinks to definitions presented in [Appendix 5 - Definitions](#). All forms of a word are included under one definition (e.g., disclosure, disclose, and disclosures would all be listed under “[disclose](#)” in the definitions). If the reader is using an electronic version of the document, a click on the link will take the reader to the appropriate SHIG definition. Acronyms and the phrase each acronym represents are listed in [Appendix 6 - Acronyms](#).

In addition to words, phrases and acronyms, the titles of specific sections of the SHIG (or of reference documents included in the appendices) may also have the same formatting and are also hyperlinks. A click on the link when using an electronic version of the SHIG will take the reader to the section of the document referenced. As examples, refer to the links to [Appendix 5 - Definitions](#) and [Appendix 6 - Acronyms](#) here and in the paragraph above.

Lastly, the [Table of Contents](#) is also a navigation tool. In electronic versions of the SHIG, the reader may click on a section defined in the [Table of Contents](#) and be taken to the beginning of the section selected.

Structure of Guidance

The guidance in this document is organized to move from general to more specific guidance:

- [General Guidance](#) – This is the most general information on overall healthcare and behavioral health information privacy laws.
- **Guidance by Category** – The design of each guidance by category section is to present with simplicity a few paragraphs of high-level guidance that apply to all the scenarios in a category. There may be exceptions to the high-level guidance and additional detail presented in the specific scenarios within the category. The behavioral health information guidance scenarios are presented in six categories:
 1. [Treatment and Coordination of Care](#)
 2. [Payment and Determination of Benefits](#)
 3. [Healthcare Operations](#)

4. [Law Enforcement](#)
 5. [Public Safety and Public Health Policy](#)
 6. [Health Information Exchange](#)
- **[Scenario-Based Guidance](#)** – This is guidance that addresses specific questions for each of the scenarios within a category. Each scenario answers a specific behavioral health information disclosure question raised by SHIG stakeholders. It is an illustrated questions and answers for common issues regarding disclosure of behavioral health information.

The scenarios focus on the criteria for sharing information without a patient or patient’s representative authorization. However, even when authorizations are not required by law, providers are encouraged to discuss with patients why some forms of sharing are in their patients’ best interests. Informed disclosure decisions by patients are often strongly beneficial in engaging patients in their own healthcare.

Each scenario has four parts:

- a brief description of the scenario
- a graphic illustrating the State’s guidance for the scenario
- a narrative describing the State’s guidance specific to the scenario
- a list of relevant legal citations and references

Role-Based Navigation

For the convenience of the reader, the table on the next page identifies the most common provider and healthcare industry roles included in the scenarios and which scenarios are relevant for each role. Readers viewing an electronic version of the document can click on the “X” within the table and jump to the appropriate scenario.

Table of Navigation Links to Scenarios by Role

	Scenario Name	MH	SUD	PH	SS	Emergency Personnel	Care Coord	LEO	HIE User	BA	Public Health
1	Behavioral Health (BH) to Physical Health (PH)	X	X	X							
2	PH to BH	X	X	X							
3	BH to Other BH	X	X								
4	BH to Social Services (SS)	X	X		X						
5	Mental Health (MH) to Caregiver	X					X				
6	Substance Use Disorder (SUD) to Caregiver		X				X				
7	To Improve Coordination of Care	X	X	X	X	X	X				X
8	In the Event of Emergency	X	X	X		X					
9	BH to SS for Determination of SS Benefits	X	X		X

20	MH Provider to HIO	X							X		
21	SUD Information from HIO to Health Information Exchange (HIE) User		X						X		
22	MH Information from HIO to HIE User	X							X		

Legal Caveat

The SHIG provides the State of California’s non-mandatory guidance regarding [disclosure](#) of patient [health information](#) related to [behavioral healthcare](#). It is designed to clarify existing state and federal laws that impact disclosure and sharing of [behavioral health information](#) within California by providing scenario-based guidance in everyday business language.

While the guidance is designed to be helpful and authoritative, the SHIG is specifically not designed, nor does the State intend through its publication, to provide legal counsel. This is for informational purposes only and should not be construed as legal advice or policy of the State of California. The California Center for Data Insights and Innovation (CDII) makes no warranties, expressed or implied, regarding errors or omissions and assumes no legal liability or responsibility for loss or damage resulting from the use of information contained within. Due to the complexity of laws related to patient [mental health information](#) and [SUD patient-identifying information](#), readers are encouraged to consult legal counsel prior to developing and implementing operational policies and procedures governing the use and disclosure of such patient information.

The SHIG provides non-binding clarification to help readers working with behavioral health information better understand relevant sections of state and federal [privacy](#) laws including, but not limited to, the:

- Health Insurance Portability and Accountability Act (HIPAA)
- 42 Code of Federal Regulations (C.F.R.) Part 2
- Confidentiality of Medical Information Act (CMIA)
- Lanterman-Petris-Short (LPS) Act
- California Civil Code
- California Constitution, Article 1, Section 1
- California Health and Safety Code (HSC)
- California Welfare and Institutions Code
- Patient Access to Health Records Act (PAHRA)

CAUTION! Because most health providers and health information will be covered by HIPAA or the CMIA, the SHIG does not provide guidance on the California Consumer Privacy Act (CCPA) (refer to Civil Code section 1798.100 et seq.). Consult your legal counsel if you have questions on whether the CCPA covers your organization or health information.

Purpose of SHIG

This State Health Information Guidance (SHIG) combines general guidance and field-based scenarios to clarify federal and state [behavioral health](#) laws related to sharing [mental health information](#) and [substance use disorder \(SUD\) patient-identifying information](#). The SHIG offers authoritative guidance to provide legal clarification for sharing patient information while protecting patient [privacy](#). Removing obstacles may result in increased [coordination of care](#) to help patients achieve better health outcomes, but coordination of care requires patient information to be shared in an appropriate, secure, and timely manner between different types of [health providers](#).

This SHIG provides non-mandatory, authoritative guidance from the State of California on the uses, [disclosures](#), and protection of patient information. This guidance document is not designed to address all [behavioral health information](#) sharing challenges that California providers currently experience. Rather, it clarifies California and federal laws and regulations for a non-legal audience. The clarifications help inform health providers and their support entities regarding when, why, and how mental health and SUD patient-identifying information may be shared among care partners.

Federal and state laws and regulations regarding the privacy of health information in general, and behavioral health information specifically; clearly allow patient-identifying information to be shared for a wide variety of purposes when a patient or [patient's representative](#) provides a valid [authorization](#). Therefore, the SHIG focuses on exchange of patient information and records that do not require an authorization from the patient or the patient's representative.

The intended audience of the SHIG is private sector health providers, payers, vendors, healthcare associations, patient and privacy advocacy organizations, county governments, community health centers, and other interested parties. General guidance and field-based scenarios are employed in the SHIG as a means to clarify applicable privacy laws in the context of common obstacles and opportunities currently experienced by providers. Both general guidance and scenarios are used to clarify the State's interpretation of patient legal protections in lay language for a general and broad audience of stakeholders.

This guidance document is not a restatement of current laws. Instead, the SHIG is designed to clarify existing federal and state laws that impact disclosure and sharing of behavioral health information within California by providing scenario-based guidance in everyday business language.

Background of SHIG

The State Health Information Guidance (SHIG) project was initially developed by the former California Health & Human Services Agency's (CalHHS) Office of Health Information Integrity (CalOHII) and funded by the California Health Care Foundation (CHCF). CalOHII is now the CalHHS Center for Data Insights and Innovation (CDII).

CDII and CHCF collaborated on this important initiative in order to clarify the federal and state laws that address how and when patient information related to mental health and substance use disorders (SUD) can be exchanged with or without express patient [authorization](#) between behavioral [health providers](#) and other providers involved in patient care.

CDII's primary mission is to assist State departments to protect and secure [access](#) to [health information](#). CDII created this non-binding guidance because of its statutory authority to interpret and clarify state law, and because it produced the Statewide Health Information Policy Manual (SHIPM)⁴. The SHIPM provides similar mandatory guidance for California State departments covered by the Health Insurance Portability and Accountability Act (HIPAA). The SHIPM, originally published in 2015, is updated annually and in use today.

This SHIG was developed to promote greater care integration and coordination through secure information sharing between providers of mental health [treatment](#), SUD treatment, and other healthcare. The goal of this document is to address stakeholder challenges in interpreting federal and state privacy laws protecting a patient's [behavioral health information](#). Clarifying and providing the State's guidance regarding such laws will improve patient health, improve quality of care, and lower costs in California.

The process for developing the SHIG was initiated when CDII invited stakeholders from across the California healthcare industry to participate in the launch of the project in September 2016. Feedback was solicited about current obstacles to sharing behavioral health information. Below are samples of stakeholder comments at the meeting that reflect the wide range of perspectives the SHIG addresses:

- ✓ "The laws are nebulous on what can and can't be shared."
- ✓ "Top level funding through the State requires integrated sharing of patient information. On the other hand, we have a legal system saying you can't do that!"
- ✓ "Trust levels between providers, patients, payers, and vendors are low."
- ✓ "We are missing the patient's voice. The patients say they want providers to share information."

⁴ The SHIPM can be found on the CDII website: <https://www.cdii.ca.gov/policy-and-governance/compliance-and-policy/statewide-health-information-policy-manual-shipm/>

Stakeholder recommendations for SHIG content and approach included:

- ✓ Stakeholders believe that data sharing is essential to achieving the Triple Aim Initiative⁵ (better health, better care, lower costs) and supporting the shift toward holistic, proactive care that is central in current health reform efforts in California and nationally.
- ✓ Stakeholders hope that the SHIG will address key questions and gray areas that currently impede data sharing at both the practice and systems levels.
- ✓ Stakeholders recommended that the SHIG include real life examples of what is currently allowable when sharing behavioral health patient information.

Advisory Group members were selected from the more than 20 participating organizations to assist and provide feedback to the project. Refer to [Appendix 1 – SHIG Participants](#) for a list of participants. CDII convened the first Advisory Group meeting in Sacramento in November 2016. The Advisory Group members developed almost 50 user stories based on their professional experiences with the issues, obstacles, and opportunities associated with sharing patient information and coordinating care. The user stories helped inform the development of field-based scenarios to clarify federal and state laws.

CDII sought additional input to guide the SHIG project by initiating discussions with a number of statewide and national advocacy organizations. A list of participants who provided additional input is included [Appendix 1 – SHIG Participants](#) of this document. Their comments included:

PATIENT RIGHTS AND PRIVACY

- ✓ “There is pressure to move sensitive patient information around the healthcare super highway.”
- ✓ “The patient’s dignity must be at the core of all decisions.”
- ✓ “Can we really know what happens to the patient data after it has been shared?”

PATIENT ACCESS TO CARE

- ✓ “The caregiver’s attempt to coordinate with physicians and law enforcement is hampered because of the lack of information sharing. The other entities are reluctant to share patient information with caregivers who are responsible for their daily care.”
- ✓ “(Some) mental health providers are very resistant to share any information. In our opinion, they are sometimes not in alignment with the patient’s rights.”

To help meet the objective of clarifying statutes, regulations and laws relating to the sharing of mental health and SUD patient-identifying information, attorneys from the State and Advisory Group organizations reviewed draft content periodically throughout the development of the

⁵ Institute for Healthcare Improvement, “Triple Aim Initiative,” 2017, <http://www.ihl.org/Engage/Initiatives/TripleAim/Pages/default.aspx>

SHIG. They provided essential legal feedback at various review milestones and during the final review of the completed document.

Conclusion

One of the main objectives of the SHIG is to promote better care integration and better health outcomes for mental health and SUD patients while protecting their privacy. Through feedback received via its “grass roots” stakeholder engagement method, CDII believes the greatest value of the SHIG is its clarification of federal and state laws regarding exchange of mental health and SUD patient-identifying information by translating the complex laws into non-legal and non-technical language for a general audience. The intention is that clarity will lead to more integrated care and better [whole person care](#) outcomes.

General Guidance

The State of California encourages multi-disciplinary [coordination of care](#) for people receiving [treatment](#) and services in California. There is a growing consensus in the healthcare community that such integrated [whole person care](#) improves treatment outcomes, reduces inefficient use of healthcare resources, and increases patient satisfaction and safety.

At the same time, the State acknowledges the importance of protecting the [privacy](#)⁶ of patients and the [confidentiality](#) of healthcare information. Many patients have needlessly experienced the pain of ostracization or discrimination due to the inappropriate [disclosure](#) of [health information](#) regarding their mental health or substance use disorder (SUD) treatments. Protecting patients from this type of violation of their privacy rights is the driving force behind the special regulatory protections for mental health and SUD patients' healthcare records and information⁷.

A dynamic tension exists between the needs to effectively care for patients and to protect the [behavioral health information](#) from inappropriate disclosure. This tension led directly to the State's use of the principles articulated in the following section to develop this behavioral health information guidance.

Principles for Sharing Behavioral Health Information

The following general principles are considered foundational by the State of California for sharing behavioral health information and records.

1. *Coordination of Care*

Principle - Behavioral health information should be shared to the extent allowed by federal and state laws to address patient care needs involving medical, behavioral and even socioeconomic issues.

People with behavioral health needs frequently require treatment through a variety of professional disciplines. A multi-disciplinary approach may be required to fully address the patient's care needs. Such an approach (e.g., State of California Whole Person Care pilots⁸) is likely to require the exchange of legally permitted behavioral health information and such sharing is encouraged. The goal of this type of information exchange is to provide collaborative integrated care that leads to "improving the patient experience of care (including quality and

⁶ Cal. Const. Art. 1, § 1.

⁷ 42 C.F.R. § 2.2(b)(2).

⁸ Authorized by the Medi-Cal 2020 Demonstration [*Cal. Welf. & Inst. Code § 14184.60(c)(5).*]

satisfaction); improving the health of populations; and reducing the per capita cost of healthcare.”⁹

2. Information Blocking

*Principle – Intentionally not sharing behavioral health information that can be legally and ethically shared to benefit the patient is strongly discouraged.*¹⁰

Blocking exchange of, or choosing not to disclose information when doing so is clearly in the best interests of the patient and allowed by law is generally discouraged. Providers of behavioral healthcare services generally have a responsibility to develop a therapeutic relationship with a patient and that may appropriately lead to limiting the disclosure of patient information, such as information protected by the psychotherapist/patient privilege. Within the scope of this responsibility, however, providers are encouraged to discuss with patients why some forms of sharing might be in the patients’ best interests. Informed disclosure decisions by patients are often strongly beneficial. If the sharing of patient information is legally permissible, beneficial to, and unopposed by the patient, blocking such disclosures for purposes of a provider’s financial gain, leverage in negotiations, or to otherwise achieve competitive advantage in the healthcare marketplace is inappropriate and increases the risk of unethically elevating the provider’s interests above the best interests of the patient.

3. Patient Access

Principle – A patient generally has the right to inspect, review, and obtain copies of his or her behavioral health information, and a provider is responsible to enable such patient access.

A patient’s right to be informed generally holds whether the healthcare information is held by mental [health providers](#), SUD treatment providers, or other covered entities and [business associates](#) regulated by the Health Insurance Portability and Accountability Act (HIPAA) and Patient Access to Health Records Act (PAHRA). In certain circumstances involving behavioral health records, however, [access](#) to information may be denied after review by a licensed healthcare professional. An example of such an appropriate denial of access would be if the requested access is likely to endanger the life or physical safety of the patient or another person.

⁹ Institute for Healthcare Improvement, “Triple Aim Initiative,” 2017, <http://www.ihc.org/Engage/Initiatives/TripleAim/Pages/default.aspx>.

¹⁰ Information blocking is prohibited for health care providers, health IT developers of certified health IT, health information exchanges, and health information networks, as defined in 45 C.F.R. part 171.102 under the Information Blocking Rule of the 21st Century Cures Act. (45 C.F.R. § 171.100 et seq.)

4. Patient Right to Be Informed

Principle – A patient generally has the right to be informed of a provider’s practices regarding uses and disclosures of his or her healthcare information.

A patient has a general right to receive notifications regarding how a health provider or organization plans to use and disclose patient health information, even when not specifically addressed in state laws. HIPAA privacy regulations provide guidance on how to accomplish this, including through the Notice of Privacy Practices.

5. Patient Right to Authorize Disclosure of Healthcare Information

Principle – A patient has the right to authorize disclosure of his or her behavioral health information.

An adult patient generally may provide permission for a health provider or organization to share his or her personal healthcare information, including behavioral health records, for a wide variety of purposes. When in the best interests of the patient and allowed by law, the State strongly encourages the exchange or disclosure of information. Even when federal and state statutes and regulations prohibit disclosure of health information unless [authorized](#), behavioral health providers are encouraged to discuss with patients why authorizing a disclosure or the sharing of information may be in the patients’ best interests. Examples might include situations where a patient can authorize disclosure and sharing of information to encourage collaboration and integrated care between [SUD treatment programs](#), behavioral health providers, physical health entities, and providers of social services. Refer to [Appendix 2 – Patient Authorization for Use or Disclosure](#) for more information.

Introduction to Behavioral Health Information Guidance

The State believes appropriate exchange of [behavioral health](#) information can be achieved to effectively provide a patient with coordinated and integrated care while still protecting the patient’s right to privacy. The State also understands many behavioral health providers choose not to share patient information that is legally permitted to be disclosed and exchanged due to the complexity and lack of clarity of current federal and state law and fear of non-compliance.

The purposes of this section are to:

1. Clarify how and when patient behavioral health information can be shared
2. Increase willingness to appropriately exchange patient information in the behavioral health professional community

For purposes of the State Health Information Guidance (SHIG), “behavioral health” is defined as the assessment, diagnosis, or treatment of:

- Mental Health
- Substance Use Disorders (SUD)

The sharing of health information means the access to, use, disclosure and exchange of patient information and records between two or more individuals or organizations. There are five types of information that this document covers:

1. Information regulated by 42 Code of Federal Regulations (C.F.R.) Part 2 (as revised July 2020) – to be referred to as 42 C.F.R. Part 2 throughout this document
2. Information regulated by the HIPAA
3. Information regulated by the Lanterman-Petris-Short (LPS) Act
4. Information regulated by the Confidentiality of Medical Information Act (CMIA)
5. Information regulated by the Health and Safety Code (HSC), Chapter 12 – Registration of Narcotic, Alcohol, and Other Drug Programs (§ 11845.5)

Federal and state statutes and regulations regarding the privacy of medical information in general, and behavioral health specifically, clearly allow health information to be shared for many purposes when a patient or patient’s representative provides a valid authorization. Therefore, this behavioral health information guidance on exchange of patient information and records will focus on activities involving uses and disclosures of health information that do not require an authorization from the patient or the patient’s representative. Additional information regarding authorization is found in [Appendix 2 – Patient Authorization for Use or Disclosure](#) of this document.

Generally Applicable Guidance

There are numerous federal and state regulatory factors to consider when sharing patient health information. The [Guidance for Specific Scenarios](#) section of this document provides guidance specific to the circumstances of each scenario. Some guidance, however, applies quite broadly to a variety of situations. The following five subsections provide broad guidance that generally applies to all the scenarios. Since these five areas of guidance apply broadly, the topics are not repeated in individual scenarios to avoid duplication for the reader.

Minimum Necessary

When health information is requested, used, or disclosed, steps must be taken to limit the information to only what is relevant and necessary to accomplish the intended purpose. HIPAA requires disclosure of health information to be limited to the [minimum necessary](#) in many circumstances. While the minimum necessary requirement only applies to HIPAA regulated health information, other laws operate in a similar way to limit disclosures. For example, disclosure of 42 C.F.R. Part 2 regulated [SUD patient-identifying information](#) must be limited to

the information that is necessary to carry out the purpose of the disclosure. The minimum necessary requirement in HIPAA does not apply to the following exceptions; other laws do:

- Disclosures to or requests by a health provider for treatment purposes
- Disclosures made to the patient who is the subject of the record, when requested or required
- Uses or disclosures made pursuant to a valid patient authorization
- Disclosures to the Secretary of the U.S. Department of Health and Human Services
- Uses or disclosures required by state or federal law

[42 C.F.R. §§ 2.13(a), 2.31(a)(5), 2.51(a); 45 C.F.R. § 164.502(b); Cal. Civ. Code § 56.10(c)(2); Cal. Health & Safety Code § 11845.5(a) and (b); Cal. Welf. & Inst. Code § 5328(a)(3).]

Documentation Requirements for Authorized Disclosures

Specific documentation must be created and maintained for disclosures of patient health information regulated by 42 C.F.R. Part 2 or LPS, even when authorized by the patient with a general designation. This section covers documenting disclosures that are in response to an authorization. Note that HIPAA does not require an accounting of disclosures that are pursuant to an authorization. For information about an accounting of disclosures as required by HIPAA, refer to 45 C.F.R. § 164.528.

Disclosures of SUD patient-identifying information made under the general designation must be documented. Upon patient request, the discloser of the information must provide a list of entities to whom the information was disclosed.

When LPS-regulated health information is shared for treatment and provision of services, the disclosure must be documented in the patient's medical record. The documentation must include the date, circumstance, names of recipient, relationship to patient, and what information was disclosed.

[42 C.F.R. §§ 2.13(d), 2.31(a), 2.51(c); Cal. Welf. & Inst. Code §§ 5328(a)(1), 5328.6.]

Refer to [Appendix 2 – Patient Authorization for Use or Disclosure](#) for more detailed documentation requirements for authorized disclosures.

Re-Disclosure of 42 C.F.R. Part 2, CMIA, and LPS Patient Information

Health and SUD patient-identifying information regulated by 42 C.F.R. Part 2 or CMIA is specially protected and, once received, may only be re-disclosed under specific conditions. Patient information regulated by 42 C.F.R. Part 2 that identifies a patient directly or indirectly as having been diagnosed, treated, or referred for treatment for a SUD requires each disclosure be made with written consent from the patient or [patient's representative](#) unless disclosure meets an exception in the law. In addition, the recipient of the SUD patient-identifying information

cannot further disclose the information unless the further disclosure is expressly permitted by an authorization or as otherwise permitted by 42 C.F.R. Part 2.

While the LPS is silent on re-disclosure, the privacy protections contained within the LPS continue with the information even once the information has been disclosed. Further disclosure of LPS-regulated information must meet an exception within the LPS or be with patient authorization.

[42 C.F.R. § 2.32; Cal. Civ. Code § 56.13; Cal. Welf. & Inst. § 5328; State Department of Public Health v. Superior Court (2015) 60 Cal.4th 940, 954.]

Psychotherapy Notes

While [psychotherapy notes](#) are referenced in HIPAA, they are not referenced in California law. Based on HIPAA, psychotherapy notes may generally not be released without patient authorization.

[45 C.F.R. §§ 164.501, 164.508(a)(2).]

De-identified Information and Limited Data Set

To protect patient privacy while providing useful healthcare data, alternative approaches are permitted by current federal and state statutes and regulations. Alternative approaches include the use of [de-identified information](#) or a [limited data set](#).

The HIPAA Privacy Rule specifies two methodologies to adequately de-identify health information:

1. A written determination by a qualified expert, or
2. The removal of specified individual identifiers as well as absence of actual knowledge by the [covered entity](#) that the remaining information could be used alone or in combination with other information to identify the individual

A covered entity meets the HIPAA de-identification standard by satisfying one of the two de-identification methodologies. De-identified health information created following one of these methods does not fall within the definition of health information.

Working with a limited data set rather than de-identified information may have more value to a HIPAA covered entity, depending on the intended use of the data. A limited data set is health information that excludes the following direct identifiers of the [individual](#) or of relatives, employers, or household members of the individual:

- Names
- Street address
- Telephone and fax numbers
- Electronic mail addresses
- Social Security Numbers
- Medical record numbers
- Health plan beneficiary numbers
- Account numbers

- License / certification numbers
- Vehicle identifiers and serial numbers, including license plate numbers
- Device identifiers and serial numbers
- Web Universal Resource Locators (URLs)
- Internet Protocol (IP) addresses
- Biometric identifiers
- Full face photographic images

A covered entity may use or disclose a limited data set for the purposes of public health, [research](#), or [healthcare operations](#) if the covered entity enters into a [data use agreement](#) (DUA) with recipient of the limited data set.

[45 C.F.R. § 164.514(b) and (e).]

Summary of Primary Laws

Mental health information and SUD patient-identifying information are specially protected types of health information. There are a number of federal and state laws specifically pertaining to these types of health information.

The primary federal regulations affecting the uses and disclosures of behavioral health information include:

- 42 C.F.R. Part 2 (as revised July 2020)
- Parts 160 through 164 of 45 C.F.R. – HIPAA

The primary State of California statutes pertaining to the uses and disclosures of behavioral health information include:

- Civil Code sections 56 et seq. - CMIA
- Welfare and Institutions Code various sections, including LPS at sections 5328 et seq.
- Health and Safety Code including sections 1280.18, 11845.5, 123110, and 123115

Following is the State's interpretation of these regulations and laws related to the access, use and disclosure of behavioral health patient information. The [Guidance for Specific Scenarios](#) section provides additional details and examples.

General Health Information Privacy and Security Laws

Federal

HIPAA Privacy Rule (45 C.F.R. § 164.500 et seq.)

The HIPAA Privacy Rule establishes national standards to protect patients' medical records and other patient-identifying health information and applies to [health plans](#), healthcare clearinghouses, and those health providers that conduct certain healthcare transactions electronically. The Privacy Rule requires appropriate safeguards to protect the privacy of patient-identifying health information and sets limits and conditions on the uses and disclosures of such information without patient authorization. Generally, exceptions are allowed for treatment, [payment](#) and healthcare operations. The Privacy Rule also gives patients' rights over their health information, including rights to access and to request corrections.

HIPAA Security Rule (45 C.F.R. § 164.300 et seq.)

The HIPAA [Security](#) Rule establishes national standards to protect individuals' electronic patient-identifying information that is created, received, used, or maintained by a covered entity or its business associate(s). The Security Rule requires appropriate administrative, physical, and technical safeguards to ensure the confidentiality, [integrity](#), and [availability](#) of electronic health information.

State of California Statutes

CMIA – Cal. Civ. Code § 56 et seq.¹¹

This law protects the privacy of medical information by limiting disclosures by health providers, health plans, and contractors. Disclosure of limited health information including location, general condition or death may be released to family members, other relatives, domestic partners, close personal friend, or other person identified by the patient.

Cal. Health & Safety Code § 1280.18

This law requires health providers to establish and implement administrative, technical, and physical safeguards to protect the privacy of patient's medical information. Every health provider shall reasonably safeguard confidential health information from any unauthorized access, use, or disclosure.

¹¹ Note, while the CMIA covers privacy of most health information, it does not cover all. Health information covered by the LPS, 42 C.F.R. Part 2, and Cal. Health & Safety § 11845.5 are not covered by CMIA.

California Consumer Protection Act (CCPA) – Cal. Civ. Code § 1798.100 et seq.

This law protects the privacy of consumers' personal information collected by for-profit businesses that meet certain threshold requirements for annual revenue or number of consumers of whom they receive, buy, sell, or share personal information. Health providers and information covered by either HIPAA or the CMIA is exempted from the CCPA requirements. (Cal. Civ. Code § 1798.145(c)(1)(A-B).) All scenarios in this SHIG assume that the CCPA does not apply.

Mental Health Information Privacy Laws

State of California

Cal. Civil Code § 56.104

Civil Code section 56.104 contains special documentation requirements related to requests for outpatient mental health records. Except when the request for outpatient treatment records is for treatment purposes, most requests for information for a patient's outpatient psychotherapy treatment information must comply with certain requirements. Refer to [Appendix 3 – Special Documentation Requirements](#).

LPS – Cal. Welf. & Inst. Code § 5328 et seq.

Information and records obtained in the course of providing services to involuntarily and some voluntary recipients of services are confidential and specially protected under LPS. Patient information obtained by county or city mental health departments, state hospitals, regional centers (under contract with the California Department of Developmental Services), or other public or private entities (such as community mental health clinics) are also protected under LPS. In general, information and records may be disclosed as provided in LPS. The CMIA regulates most of what is not regulated by LPS. If a facility is not regulated by LPS, it is likely regulated by CMIA.

Substance Use Disorder Information Privacy Laws

Federal

42 C.F.R. Part 2

42 C.F.R. Part 2 applies to federally assisted SUD treatment programs that meet the definition of a [program](#). These regulations apply to information that would identify a patient as having a SUD and allow very limited disclosures of information without patient authorization.

State of California

Cal. Health & Safety Code § 11845.5

This statute protects information and records maintained by entities that are licensed by the California Department of Health Care Services (DHCS) in connection with SUD diagnosis and treatment is confidential and specially protected under this code section. Information and records may be disclosed only as provided in this code section. CMIA does not regulate these SUD information and records.

Who is Subject to 42 C.F.R. Part 2 - Confidentiality of SUD Patient Records?

In order to be subject to 42 C.F.R. Part 2 an entity or provider must be both [federally assisted](#) and meet the definition of a ‘program.’ The provider is a ‘program’ if it promotes itself as offering SUD services and provides or makes referrals for SUD services.

For-profit programs and private practitioners who only accept private insurance or self-pay patients are not subject to 42 C.F.R. Part 2 regulations except when licensed by the State of California as described in the next paragraph.

In California under Section 10568(c) of Title 9 of the California Code of Regulations, all information and records obtained from or regarding residents in Residential or Drug Abuse Recovery and Treatment facilities licensed by the DHCS shall be confidential and maintained in compliance with 42 C.F.R. Part 2.

[Federally Qualified Health Centers \(FQHC\)](#) licensed by the DHCS as an Alcoholism or Drug Abuse Recovery or Treatment Facility are also subject to 42 C.F.R. Part 2.

Am I Federally Assisted?

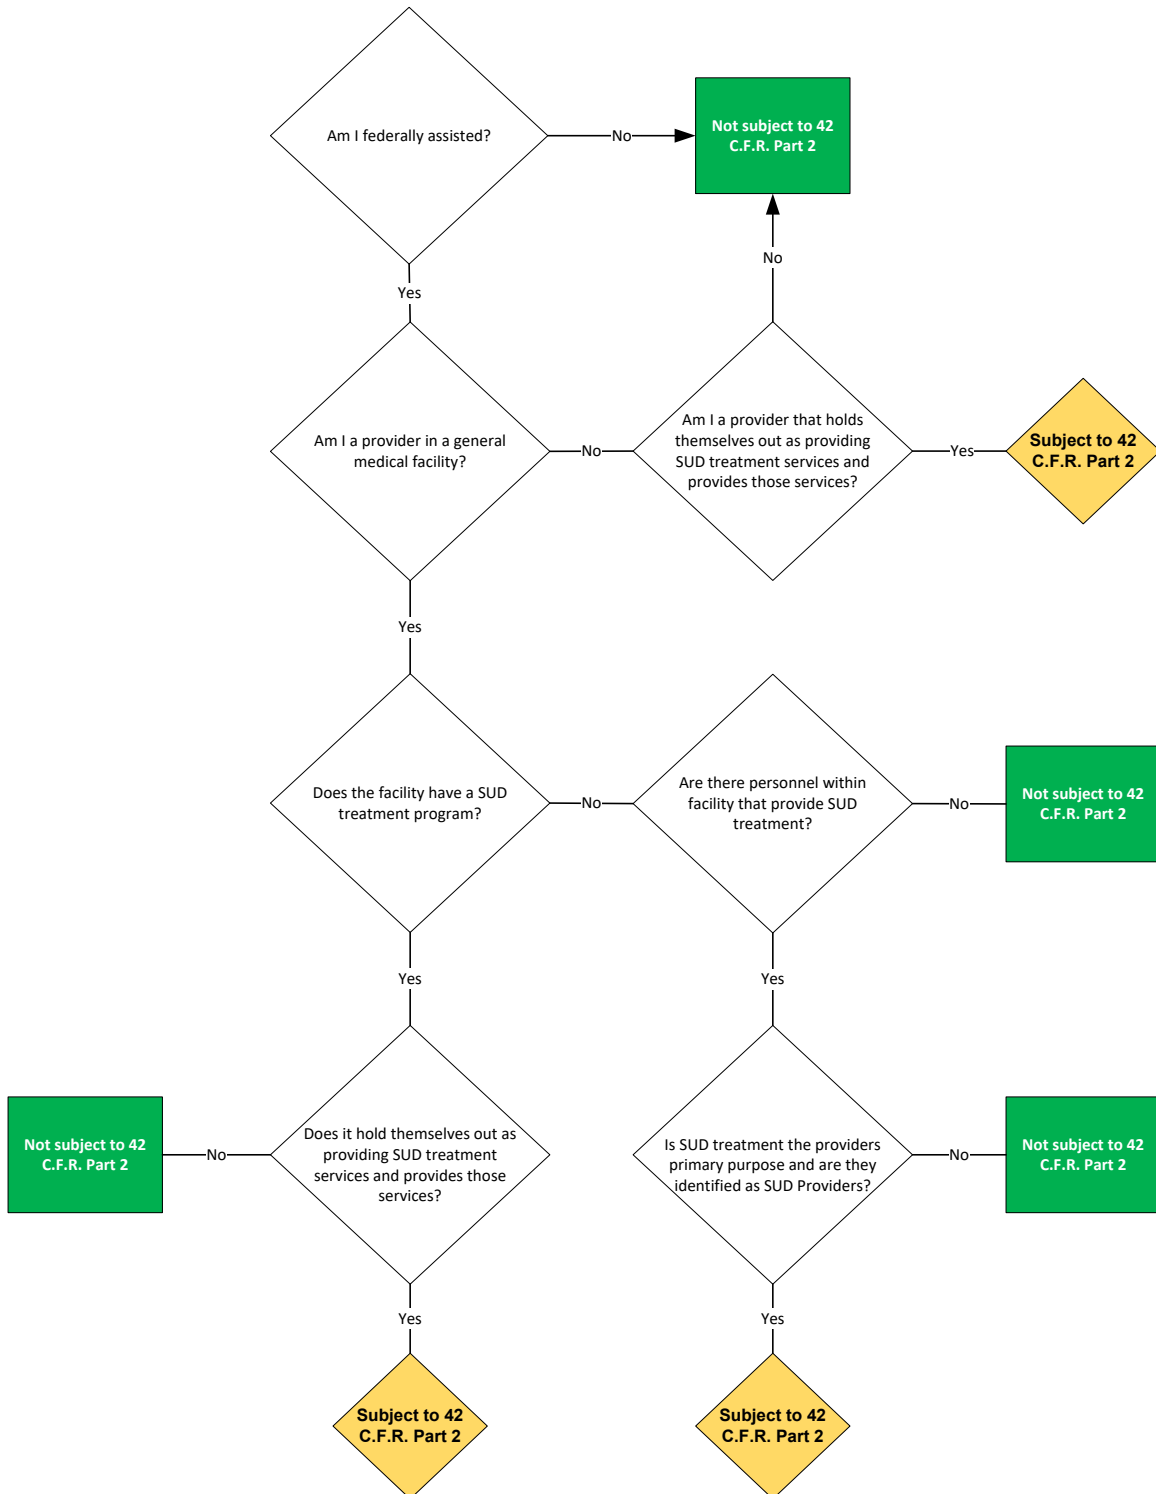

42 C.F.R. Part 2 regulations cover SUD treatment programs that are federally assisted in any of the following ways:

- The program is authorized to conduct business by any agency or department of the federal government of the United States.
- The program is licensed, certified, registered, or authorized by any department or agency of the United States including but not limited to:
 - Participating as a provider in the Medicare or Medicaid (Medi-Cal)¹² program;
 - Authorized to conduct maintenance treatment or withdrawal management; or
 - Registered with the Drug Enforcement Agency (DEA) to dispense a substance under the Controlled Substances Act to the extent the controlled substance is used in the treatment of SUD.
- The program is supported by funds provided by any agency or department of the United States by being:
 - A recipient of federal financial assistance in any form, including financial assistance which does not directly pay for the SUD diagnosis, treatment, or referral for treatment; or
 - Conducted by a state or local government unit through revenue sharing or other forms of assistance, receives federal funds which could be but not necessarily spent for the SUD treatment program.
- The program is assisted by the Internal Revenue Service (IRS) by being:
 - Allowed income tax deductions for contributions to the program; or
 - Granted tax exempt status.

[42 C.F.R. § 2.12(b).]

¹² Medi-Cal is the State of California's Medicaid program.

Am I a 'Program' Under 42 C.F.R. Part 2

Who is Subject to the Lanterman-Petris-Short Act?

The Lanterman-Petris-Short (LPS) Act provides guidelines for some voluntary admissions and all involuntary civil commitments of individuals to mental health facilities in the State of California. The Act was intended to protect the civil rights of individuals by eliminating the inappropriate and indefinite commitment of individuals “with mental health disorders, developmental disabilities, and chronic alcoholism.”¹³ The passing of LPS instituted legal safeguards on civil rights through judicial review. If the provider is subject to the LPS, it must comply with the Act’s privacy protections. The table below is designed to help the reader determine if a provider is subject to LPS and if not, which law would apply.

Entity	Subject to LPS	Subject to CMIA
Do you treat behavioral health patients that have been committed involuntarily? <i>[Chapter 2 of Part 1 of Division 5 of the Cal. Welf. & Inst. Code.]</i>	Yes	
Are you a California Department of State Hospitals facility?	Yes	
Are you a community program (refer to your legal counsel)?	Yes	
Are you a community program? <i>[Cal. Welf. & Inst. Code §§ 4000-4390, 6000-6008.]</i>	Yes	
Are you a county psychiatric unit, facility, or hospital?	Yes	
Are you a mental health rehabilitation center? <i>[Cal. Welf. & Inst. Code § 5675.]</i>	Yes	
Are you a private institution, hospital, or clinic conducting care and treatment of persons who have mental illnesses or disorders?	Yes	
Are you a psychiatric health facility? <i>[Cal. Health & Safety Code § 1250.2.]</i>	Yes	
Are you a skilled nursing facility with a special treatment program service unit for patients with chronic psychiatric impairments?	Yes	
Are you a private acute psychiatric hospital that treats patients who are voluntarily admitted?	Yes	
Are you a private general acute care hospital that treats patients who are voluntarily admitted to a designated psychiatric unit?	Yes	
Are you a private general acute care hospital treating voluntary patients in a treatment area not dedicated for mental health (e.g., general medical/surgical floor, obstetrics unit, pediatrics ward)?	No	Yes

¹³ Cal. Welf. & Inst. Code § 5001.

Resolving Differences in Statutes and Regulations

There are situations when statutes and regulations differ in their requirements regarding when, where, and how disclosure of specially protected health information is allowed or required. In such cases, the SHIG presents a preemption analysis within the guidance. Generally, the statute or regulation providing greater protection of patients' health information or greater patient access to their own health information takes precedence.

Although there are exceptions, the Summary Table of Key Laws (below) illustrates at a high-level which law generally applies to which type of behavioral health information. Even if patient health information is not covered by the LPS or 42 C.F.R. Part 2, providers are still responsible for complying with HIPAA and either CMIA or HSC § 11845.5.

Summary Table of Key Laws

This section presents the State's general interpretation regarding the disclosure of behavioral health information for specific purposes. The following table that begins on the next page provides:

- Category/Purpose – The categories loosely tie to the [Guidance for Specific Scenarios](#) section and describes the high-level purpose of the disclosure or sharing of the information.
- Substance Use Disorder/Mental Health Patient-Identifying Information – These columns present the State's summary key healthcare privacy laws (along with legal references on which the State's guidance is based) that apply to substance use disorder and mental health information.

Note that the tables summarize what is stated in the key statutes and regulations for each category, and provides some considerations regarding preemption (meaning, which law takes priority). As part of the preemption considerations it refers to "listed above" – this phrase indicates the reader should reference information in the applicable Substance Use Disorder or Mental Health columns above the specific column's analysis. The results of the preemption analyses are presented in the more detailed State guidance provided in the [Guidance for Specific Scenarios](#) section.

Category/ Purpose	Substance Use Disorder Patient-Identifying Information		Mental Health Patient-Identifying Information		
	Regulated by 42 C.F.R. Part 2	Regulated by Cal. Health & Safety Code <i>(if licensed by Cal. DHCS)</i>	Regulated by Lanterman-Petris-Short (LPS) Act	Regulated by Cal. Civil Code (CMIA)	
Health Care Operations	Without patient consent, certain administrative, financial, legal, and quality improvement activities of a covered entity that are necessary to run its business and to support the core functions of treatment and payment, are permitted. <i>42 C.F.R. §§ 2.12, 2.53.</i>	AND	Without patient written consent, health information may be disclosed to qualified personnel for the purpose of: 1. management audits, 2. financial and compliance audits, or 3. program evaluation. <i>Cal. Health & Safety Code § 11845.5(c)(1) and (3).</i>	OR	Without a patient authorization, a health care provider or a health care service plan may disclose health information to a person or entity that provides billing, claims management, medical data processing, or other administrative services for providers of health care or health care service plans. <i>Cal. Civ. Code §§ 56.10(c)(3), (4), and (16), 56.104.</i>
	<p>HIPAA: Without a patient authorization, certain administrative, financial, legal, and quality improvement activities of a covered entity that are necessary to run its business and to support the core functions of treatment and payment, are permitted. <i>45 C.F.R. §§ 164.501, 164.506.</i></p> <p>Preemption consideration: 42 C.F.R. Guidance for Specific Scenarios

Guidance for specific scenarios is based on scenario descriptions and assumptions. Readers should thoroughly review them, as the laws discussed in the guidance for an individual scenario will vary based on the specifics of the scenario's description and assumptions.

Each scenario contains the following subsections:

1. Description – provides a brief description of the scenario, the question to be addressed by the scenario and assumptions made when developing the guidance
2. Graphic(s) – presents one or more decision flow diagrams illustrating the State's guidance for the scenario
3. Scenario Guidance – provides a narrative describing the State's guidance specific to the scenario
4. Citations and Related Guidance – presents a list of the relevant legal citations and references used in developing the guidance

Treatment and Coordination of Care

[Coordination of care](#) involves planning and organizing a patient's [treatment](#) activities and sharing [health information](#) with providers for a patient's care to achieve improved health outcomes and more effective care. To effectively integrate and coordinate treatment and other care, patient information must be securely and appropriately shared by and between [health providers](#), (e.g., physical health providers, substance use disorder (SUD) treatment providers, mental health providers) as well as various delivery systems (e.g. [Federally Qualified Health Centers](#), county mental health programs). Health information can generally be shared for treatment and diagnosis purposes. While [behavioral health information](#) can be health information, other federal and state laws act to restrict disclosure of patient-identifying behavioral health information. The extent that behavioral health information can be shared for treatment and coordination of care is regulated by the Health Insurance Portability and Accountability Act (HIPAA), the California Confidentiality of Medical Information Act (CMIA), the Lanterman-Petris-Short (LPS) Act, California Health and Safety Code § 11845.5 (HSC § 11845.5), and 42 C.F.R. Part 2.

Scenario 1 - Behavioral Health to Physical Health

Description

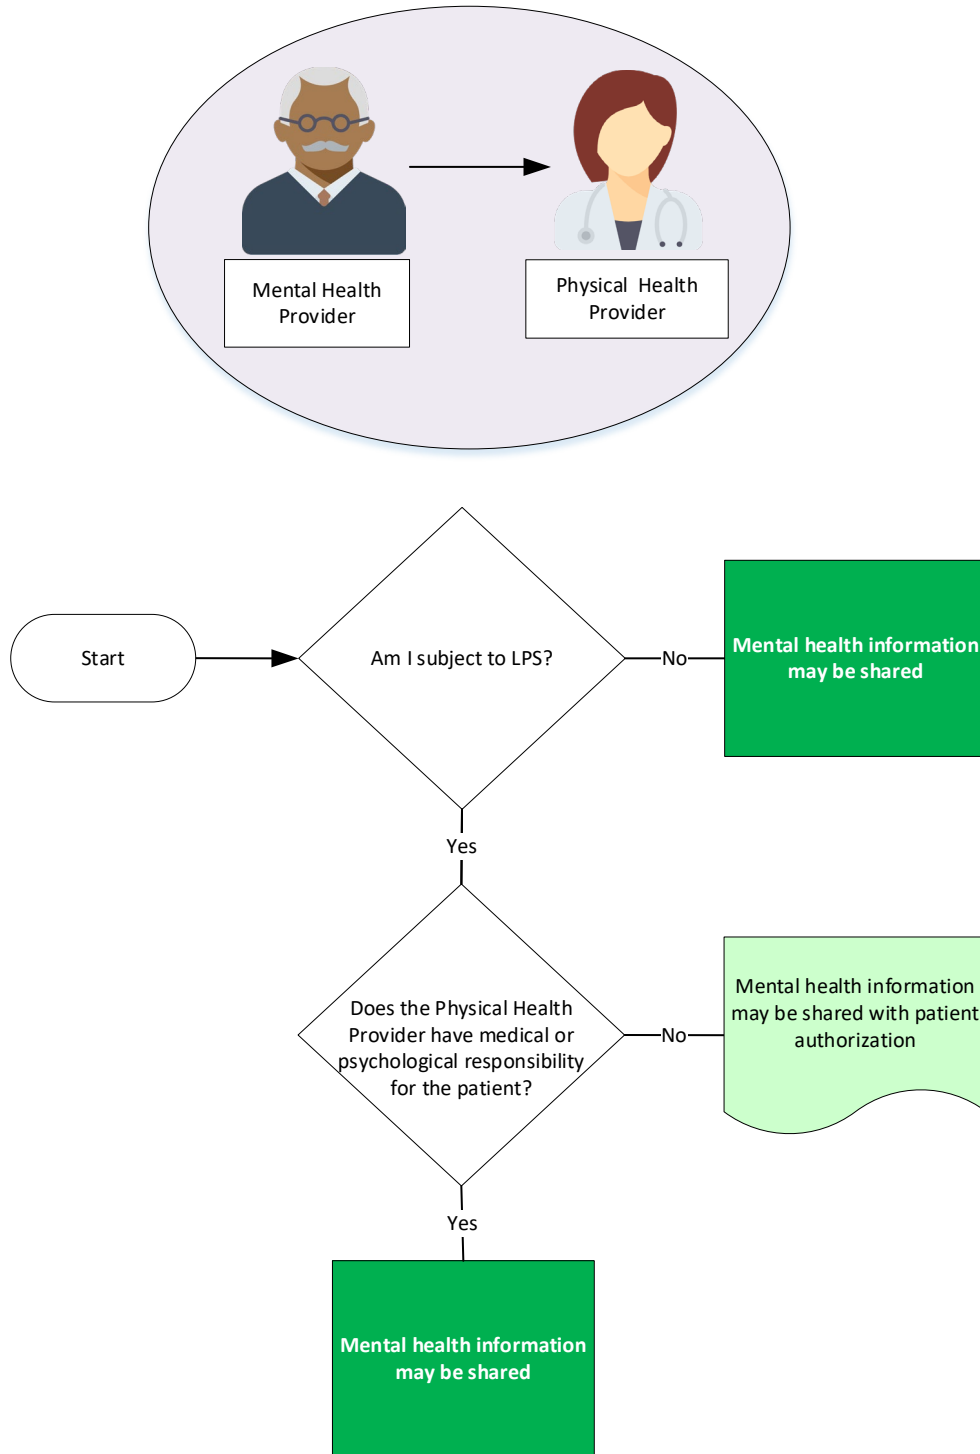

To provide effective [treatment](#) and coordinated care, a [physical health provider](#) needs patient [health information](#) from a behavioral health provider, such as [substance use disorder \(SUD\)](#) [patient-identifying information](#) or [mental health information](#).

What patient health information can a behavioral health provider share with a physical health provider to provide treatment to the patient?

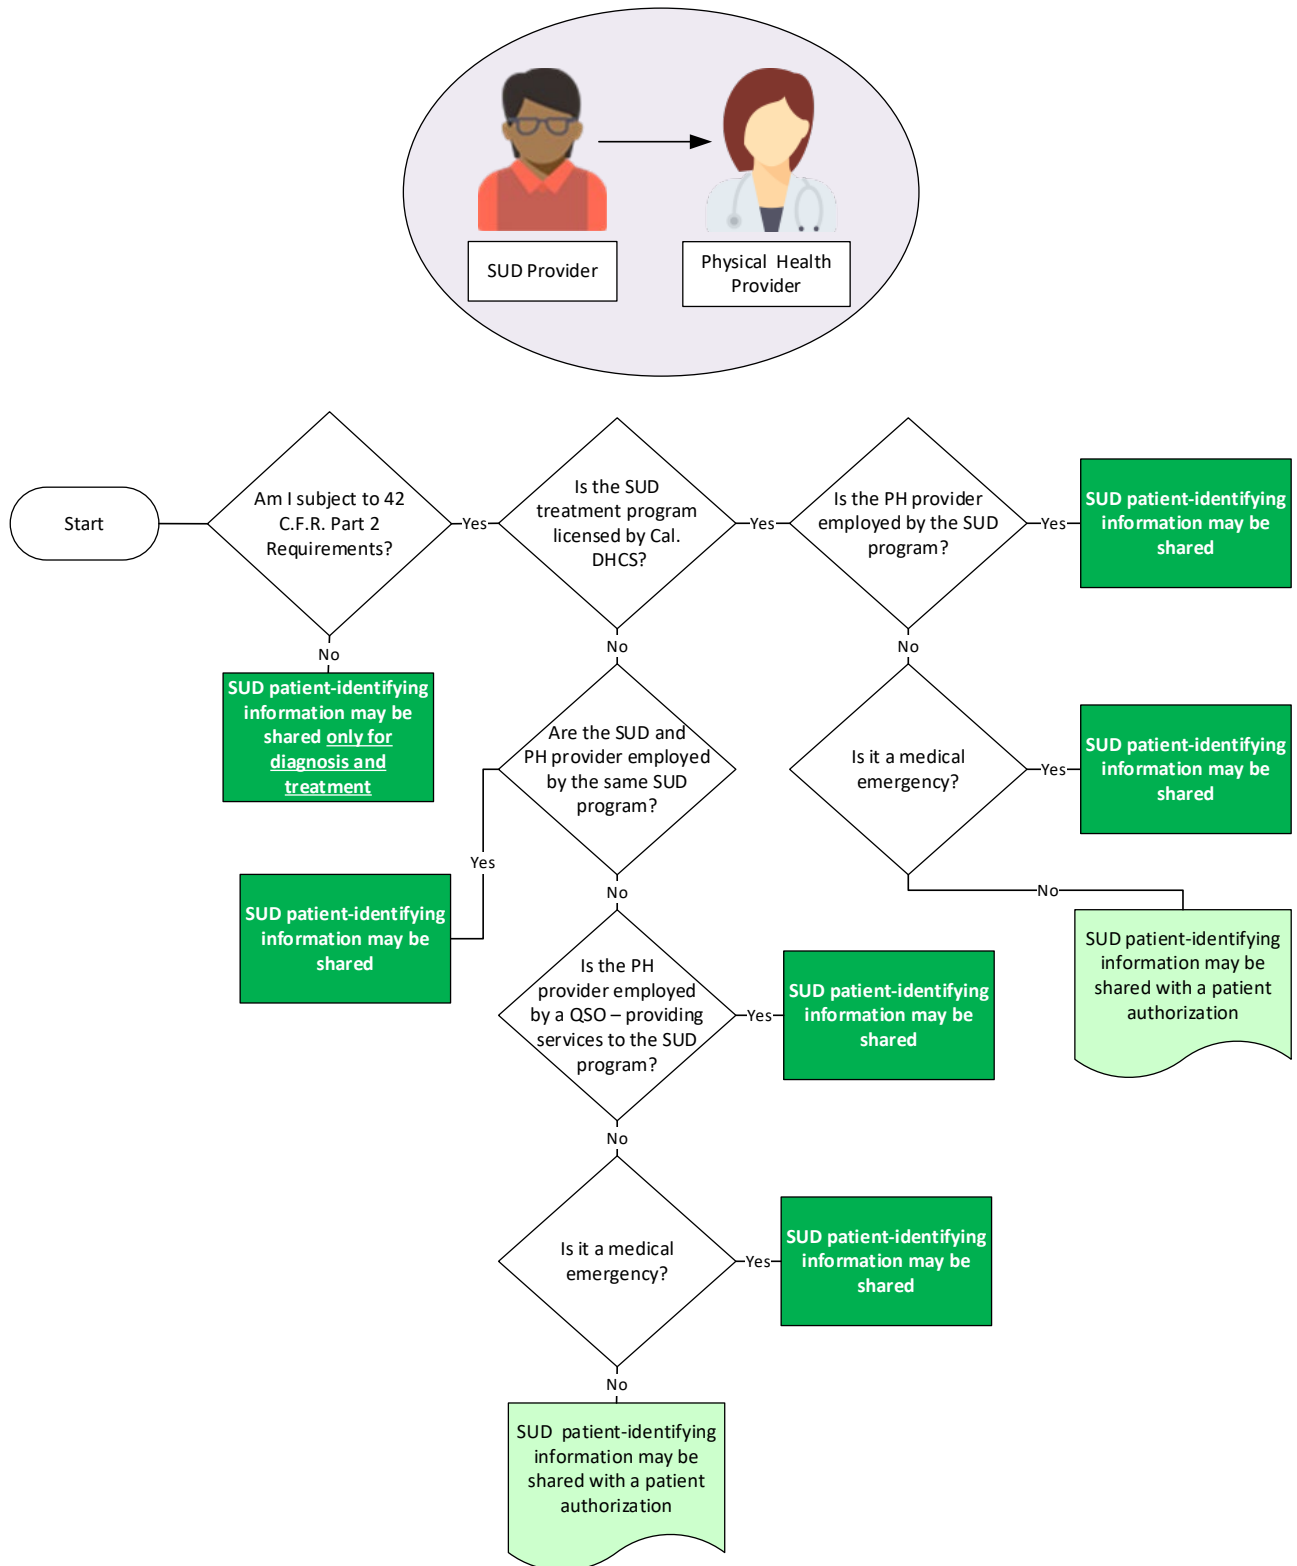

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no medical emergency
- There is no court order

Graphic - Behavioral Health to Physical Health - Mental Health

Graphic - Behavioral Health to Physical Health - Substance Use Disorder

Scenario Guidance - Behavioral Health to Physical Health

Health information can generally be shared for diagnosis and treatment purposes without a patient authorization. Health information includes mental health treatment, SUD treatment, and general medical information. The extent to which sharing of mental health and SUD treatment information is permitted without a patient authorization, however, depends on whether the provider is regulated by 42 C.F.R. Part 2 or California Health and Safety Code (HSC) § 11845.5 and therefore subject to stricter restrictions.

[45 C.F.R. § 164.506; Cal. Civ. Code § 56.10(c).]

A mental health provider may [disclose](#) Lanterman-Petris-Short (LPS)-regulated [mental health information](#) to a physical health provider without a patient authorization as long as the physical health provider has responsibility for the patient’s medical or psychological care. The information may include prescribed psychotropic medications, diagnosis and treatment information, and programs/services utilized (such as discharge plans for the physical health provider). If the physical health provider does not have medical or psychiatric responsibilities for the patient, then LPS-regulated mental health information can be shared with a valid patient or patient’s representative authorization.

[45 C.F.R. § 164.506; Cal. Welf. & Inst. Code §§ 5328(a)(1) and (2).]

A SUD treatment provider may disclose patient demographics, diagnosis, prognosis, and treatment information without a patient authorization if one of the following conditions is met:

- When the patient health information is regulated by 42 C.F.R. Part 2 and HSC § 11845.5, the physical health provider may receive health information when:
 - The physical health provider is a treatment/prevention program professional *in the same facility/treatment program* as the SUD treatment provider, or
 - The patient’s health information is needed to respond to a medical emergency (refer to [Scenario 8 - In the Event of Emergency](#))
- When the patient health information is regulated by 42 C.F.R. Part 2 and the SUD treatment program is not licensed by California Department of Health Care Services (DHCS) (meaning, not regulated by HSC § 11845.5), the physical health provider may receive health information when the physical health provider is employed by a [qualified service organization](#) (QSO) that provides services to the [SUD treatment program](#).

[42 C.F.R. §§ 2.12(c)(3), 2.51(a); 45 C.F.R. § 164.506; Cal. Civ. Code § 56.10(c); Cal. Health & Safety Code § 11845.5(c)(1).]

If none of the above conditions are met, then mental health/SUD patient-identifying information can be shared with a valid patient or patient’s representative authorization.

[42 C.F.R. § 2.31; Cal. Health & Safety Code § 11845.5; Cal. Welf. & Inst. Code § 5328(a)(2).]

Citations and Related Guidance

- 42 C.F.R. § 2.12(c)(3).
- 42 C.F.R. § 2.31.
- 42 C.F.R. § 2.51(a).

- [Scenario 8 - In the Event of Emergency](#)
- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Scenario 2 - Physical Health to Behavioral Health

Description

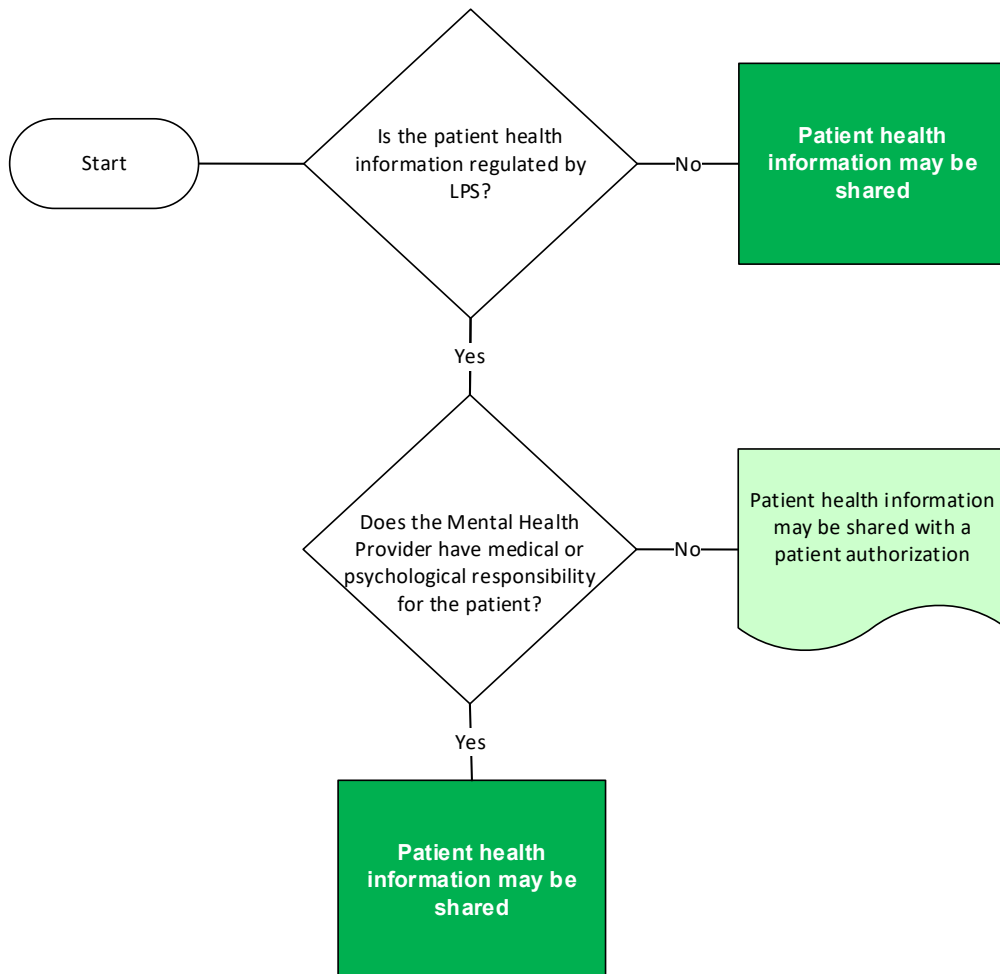

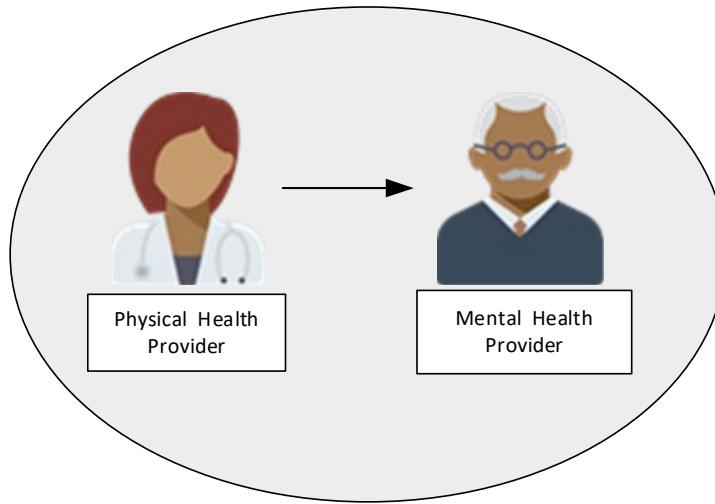

To provide effective [treatment](#) and coordinated care, a behavioral health provider needs patient information from a [physical health provider](#), such as prescribed medications, known allergies, illnesses, or conditions that may negatively interact with psychotropic medications, treatments, and medications that are contraindicated, [health information](#) or [substance use disorder \(SUD\) patient-identifying information](#).

What patient health information can a physical health provider share with a behavioral health provider to provide treatment to the patient?

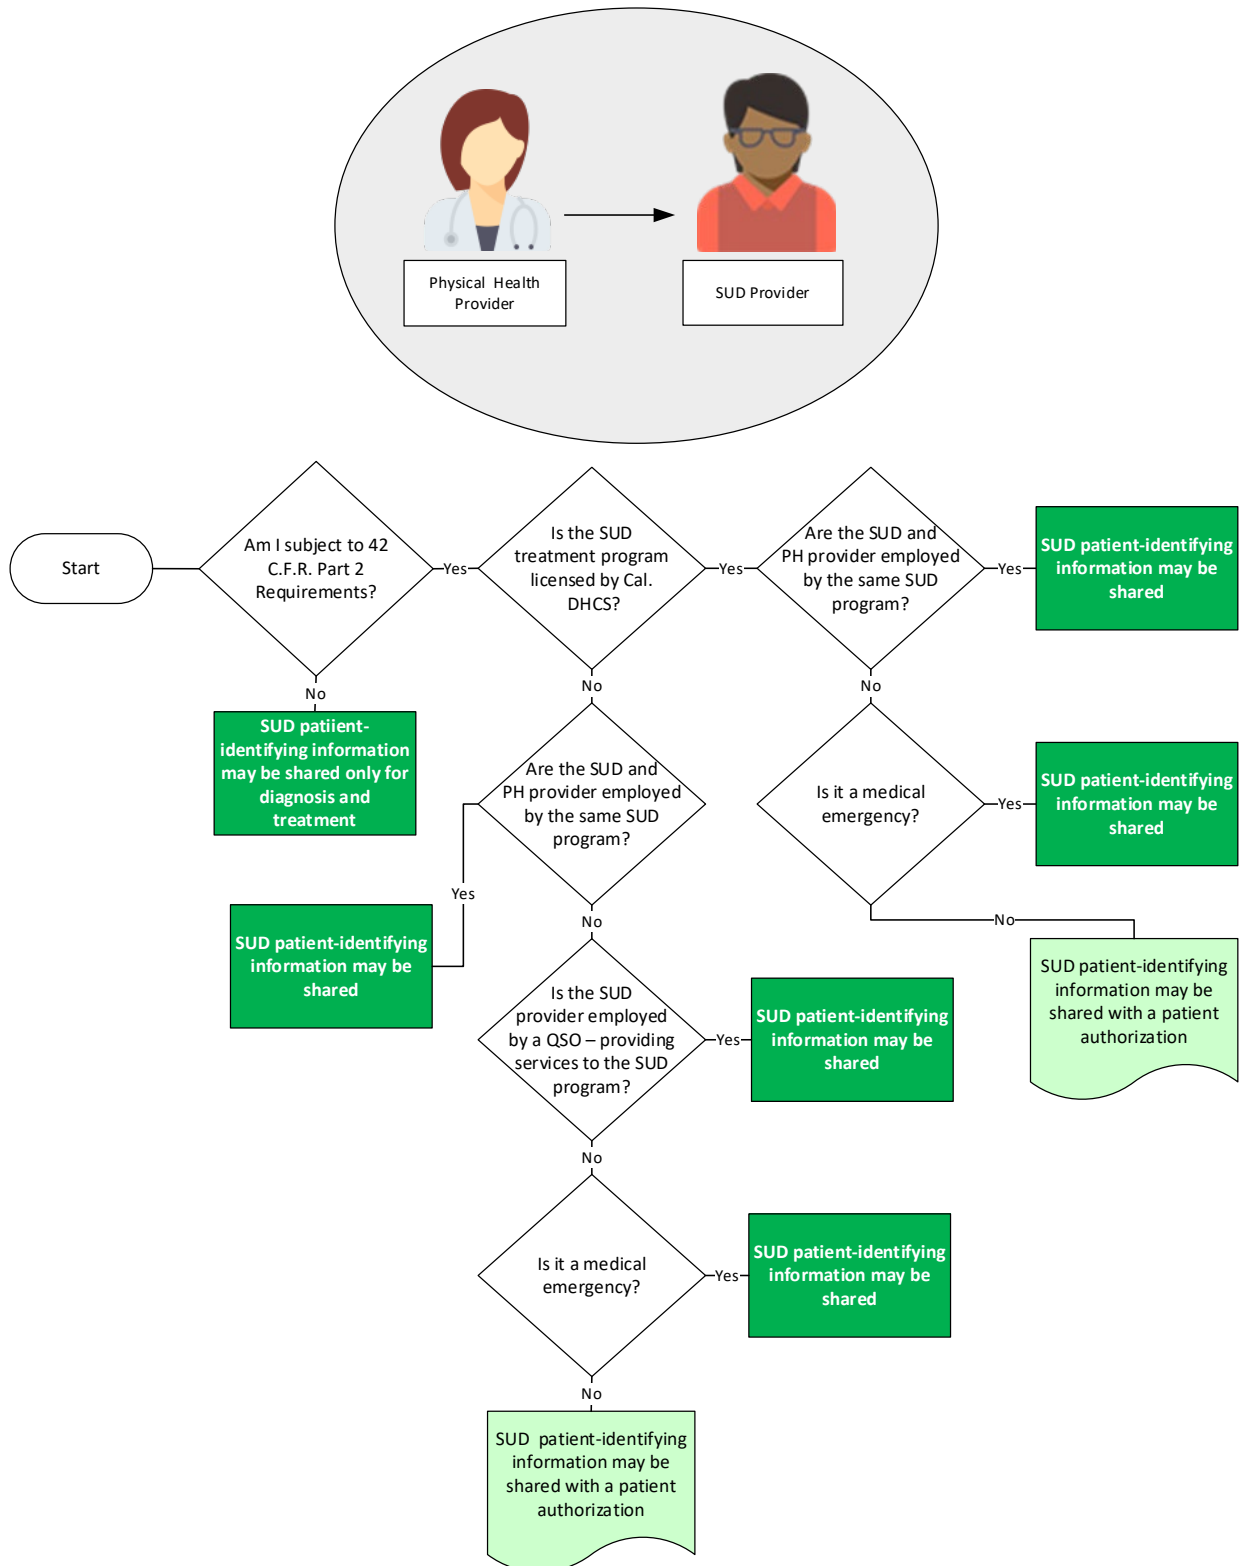

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no medical emergency
- There is no court order

Graphic - Physical Health to Behavioral Health - Mental Health

Graphic - Physical Health to Behavioral Health - Substance Use Disorder

Scenario Guidance - Physical Health to Behavioral Health

Health information can generally be shared for treatment and diagnosis purposes without a patient authorization. Health information includes mental health treatment, SUD treatment, and general medical information. The extent to which sharing of mental health and SUD treatment information is permitted without a patient authorization, however, depends on whether the provider is regulated by 42 C.F.R. Part 2 and/or California Health and Safety Code (HSC) § 11845.5. SUD patient-identifying information protected by these laws is subject to stricter restrictions.

[45 C.F.R. § 164.506; Cal. Civ. Code § 56.10]

In general, a physical health provider may [disclose](#) Lanterman-Petris-Short (LPS)-regulated patient health information without a patient authorization to a behavioral health provider who has any responsibility for the patient's healthcare. The information may include any patient information, such as prescribed psychotropic medications, diagnosis and treatment information, and programs/services utilized if relevant to treatment. If the behavioral health provider does not have medical or psychological responsibility for the patient's care, LPS-regulated mental health information can be shared with a valid patient or patient's representative authorization.

[45 C.F.R. § 164.506; Cal. Welf. & Inst. Code §§ 5328(a)(1) and (2).]

A physical health provider may disclose SUD patient demographics, diagnosis, prognosis, and treatment information without patient authorization if one of the following conditions is met:

- When the patient health information is regulated by 42 C.F.R. Part 2 and HSC § 11845.5, the SUD treatment provider may receive health information when:
 - The SUD treatment provider is an employee and is a treatment/prevention program professional *in the same facility/treatment program* as the physical health provider, or
 - The patient's health information is needed to respond to a medical emergency (refer to [Scenario 8 - In the Event of Emergency](#))
- When the patient health information is regulated by 42 C.F.R. Part 2 and the physical health provider works for a program/facility that is not licensed by California Department of Health Care Services (DHCS) (meaning, not regulated by HSC § 11845.5), the SUD treatment provider may receive health information when the SUD treatment provider is employed by a [qualified service organization](#) (QSO) that provides services to the [SUD treatment program](#)

[42 C.F.R. §§ 2.12(c)(3), 2.51(a); 45 C.F.R. § 164.506; Cal. Civ. Code § 56.10; Cal. Health & Safety Code §§ 11845.5(c)(1) and (2).]

If none of the above conditions are met, then mental health/SUD patient-identifying information can be shared with a valid patient or patient’s representative authorization.

[42 C.F.R. § 2.12; Cal. Health & Safety Code § 11845.5; Cal. Welf. & Inst. Code § 5328(a)(2).]

- [Scenario 8 - In the Event of Emergency](#)
- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Scenario 3 - Behavioral Health to Other Behavioral Health

Description

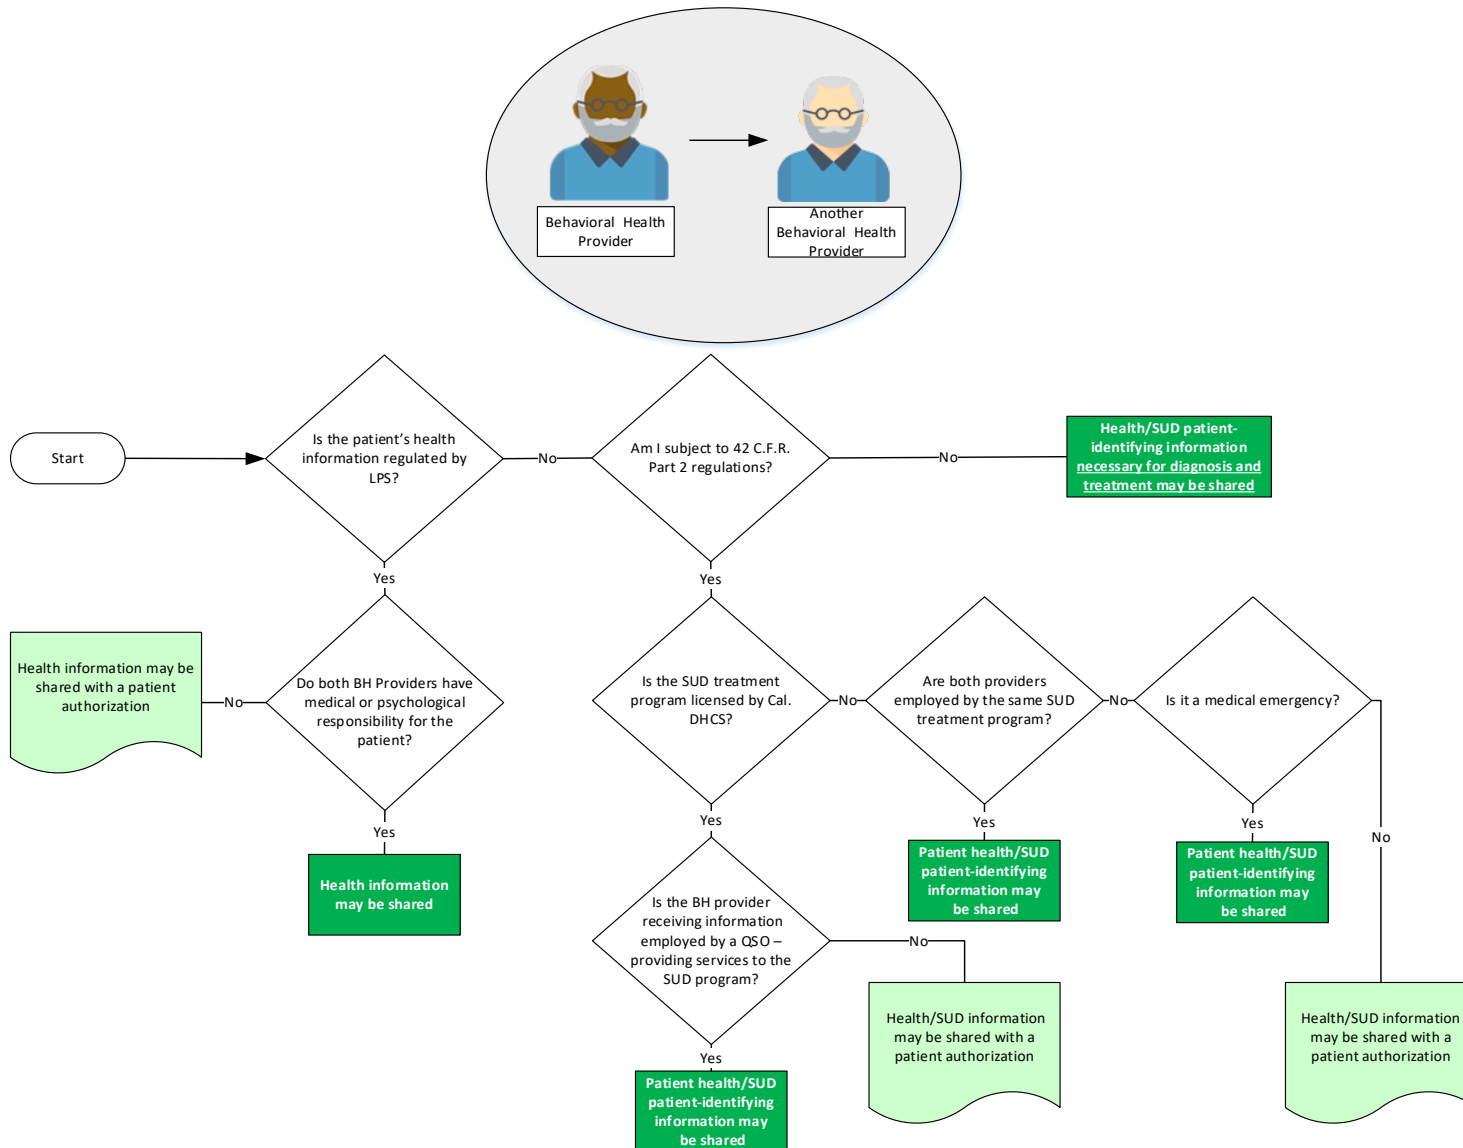

A [behavioral health](#) provider needs patient [health information](#) from a hospital to transition a patient to appropriate behavioral health providers upon discharge. Health information may include mental health or [substance use disorder \(SUD\) patient-identifying information](#).

What patient health information can a behavioral health provider share with another behavioral health provider for transition and discharge planning?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no medical emergency
- There is no court order

Graphic - Behavioral Health to Other Behavioral Health

Scenario Guidance – Behavioral Health to Other Behavioral Health

Health information can generally be shared for diagnosis and [treatment](#) purposes. Health information includes mental health treatment, SUD treatment, and general medical information. The extent to which sharing of mental health and SUD treatment information is permitted, however, depends on whether the provider is regulated by 42 C.F.R. Part 2 and/or California Health and Safety Code (HSC) § 11845.5. SUD patient-identifying information protected by these laws is subject to stricter restrictions.

[42 C.F.R. § 2.12(a)(1); 45 C.F.R. § 164.506; Cal. Civ. Code § 56.10(c); Cal. Health & Safety Code § 11845.5; Cal. Welf. & Inst. Code §§ 5328(a)(1) and (3).]

Recognizing the importance of effective follow-up care, the State of California requires a written aftercare plan upon a patient’s discharge from most inpatient mental health treatment. A mental health provider may [disclose](#) Lanterman-Petris-Short (LPS)-regulated [mental health information](#) to another behavioral health provider without a patient authorization as long as each provider has any responsibility for the patient’s care. The information may include prescribed psychotropic medications, diagnosis and treatment information, and programs/services utilized (discharge plans for the [physical health provider](#)).

[45 C.F.R. § 164.506; Cal. Health & Safety Code § 1262; Cal. Welf. & Inst. Code §§ 5328(a)(1) and (2), 5768.5.]

A SUD treatment provider may disclose patient demographics, diagnosis, prognosis, and treatment information without a patient authorization if one of the following conditions is met:

- When the SUD patient-identifying health information is regulated by 42 C.F.R. Part 2 and HSC § 11845.5, the other behavioral health provider may receive health information when:
 - The other behavioral health provider is an employee and is a treatment/prevention program professional *in the same facility/treatment program* as the SUD treatment provider, or
 - The patient’s health information is needed to respond to a medical emergency (refer to [Scenario 8 - In the Event of Emergency](#))
- When the SUD patient-identifying health information is regulated by 42 C.F.R. Part 2 and the SUD treatment program is not licensed by California Department of Health Services (DHCS) (meaning, not regulated by HSC § 11845.5), the other behavioral health provider may receive health information when that provider is employed by a [qualified service organization](#) (QSO) that provides services to the [SUD treatment program](#)

[42 C.F.R. §§ 2.12(c)(3), 2.51(a); 45 C.F.R. § 164.506; Cal. Civ. Code § 56.10(c); Cal. Health & Safety Code § 11845.5(c)(1).]

If none of the above conditions are met, then mental health/SUD patient-identifying information can be shared with a valid patient or patient’s representative authorization.

[42 C.F.R. § 2.12.]

Citations and Related Guidance

- [Scenario 8 - In the Event of Emergency](#)
- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Scenario 4 - Behavioral Health to Social Services

Description

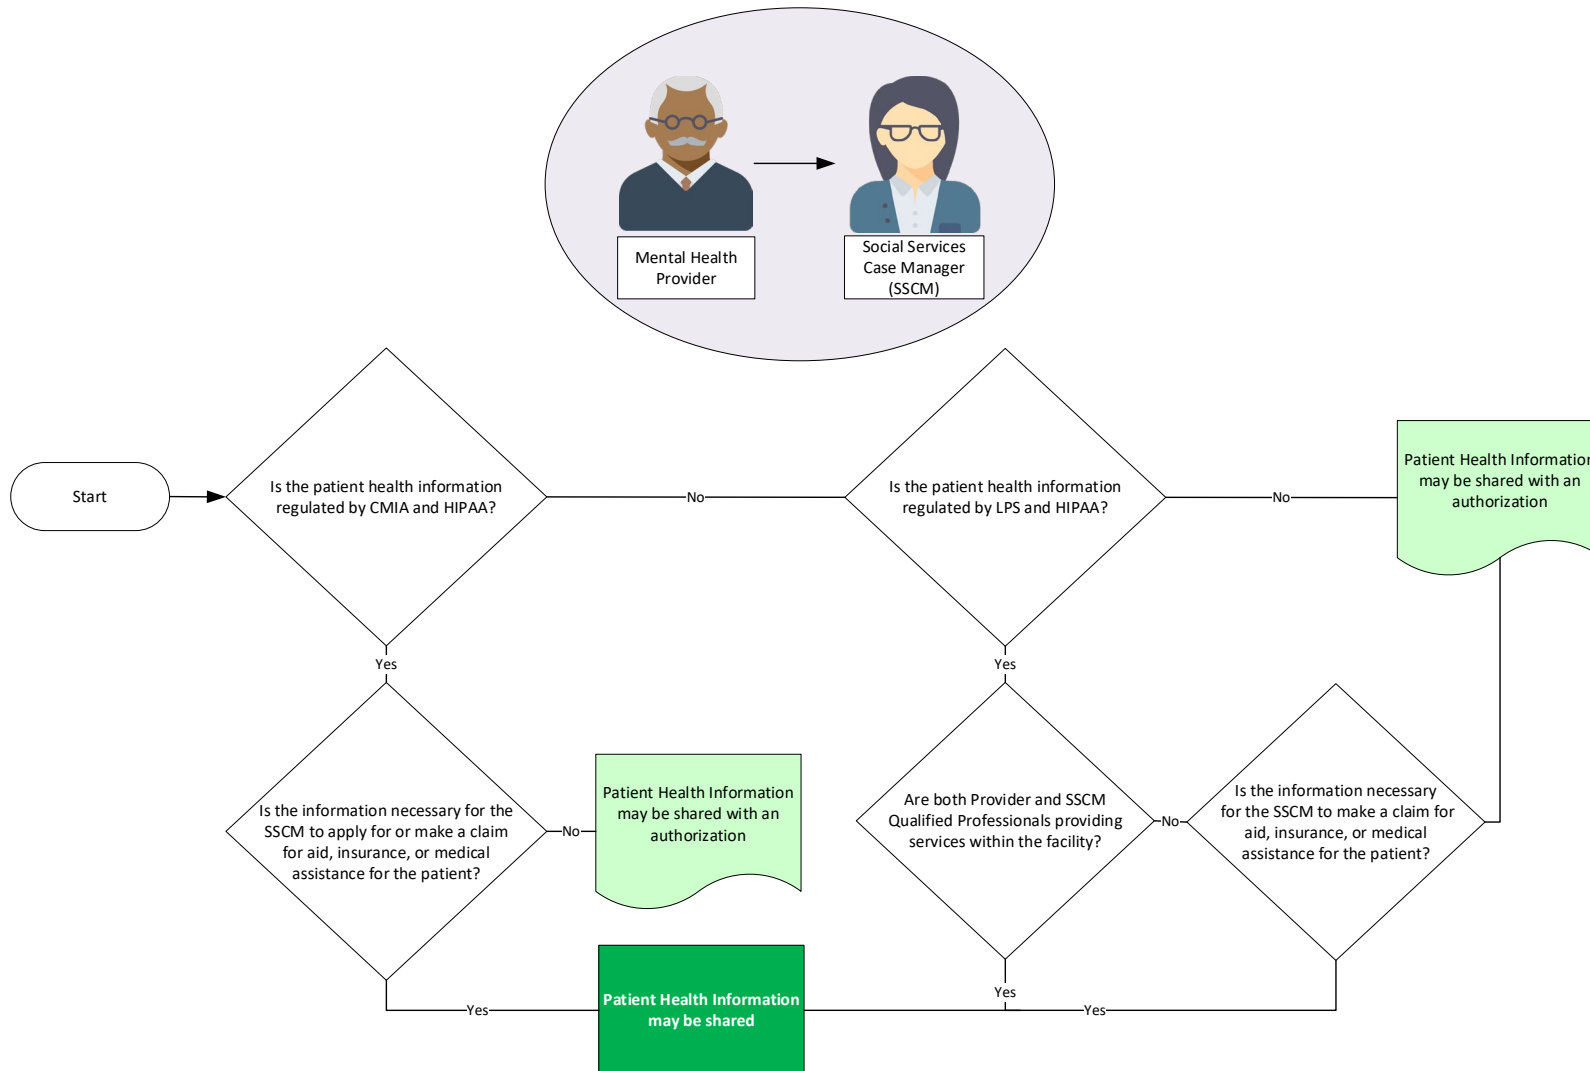

Social services organizations often serve individuals with mental health or substance use disorder (SUD) issues. For example, discharge planning, multi-disciplinary [coordination of care](#), or applying for or making a claim for medical assistance or health benefits on behalf of a patient, a [social services case manager](#) (SSCM) may request a [behavioral health](#) provider to share patient [health information](#). For purposes of this scenario, a SSCM is a licensed clinical social worker or other similar health provider.

What patient health information can a behavioral health provider share with a social services case manager?

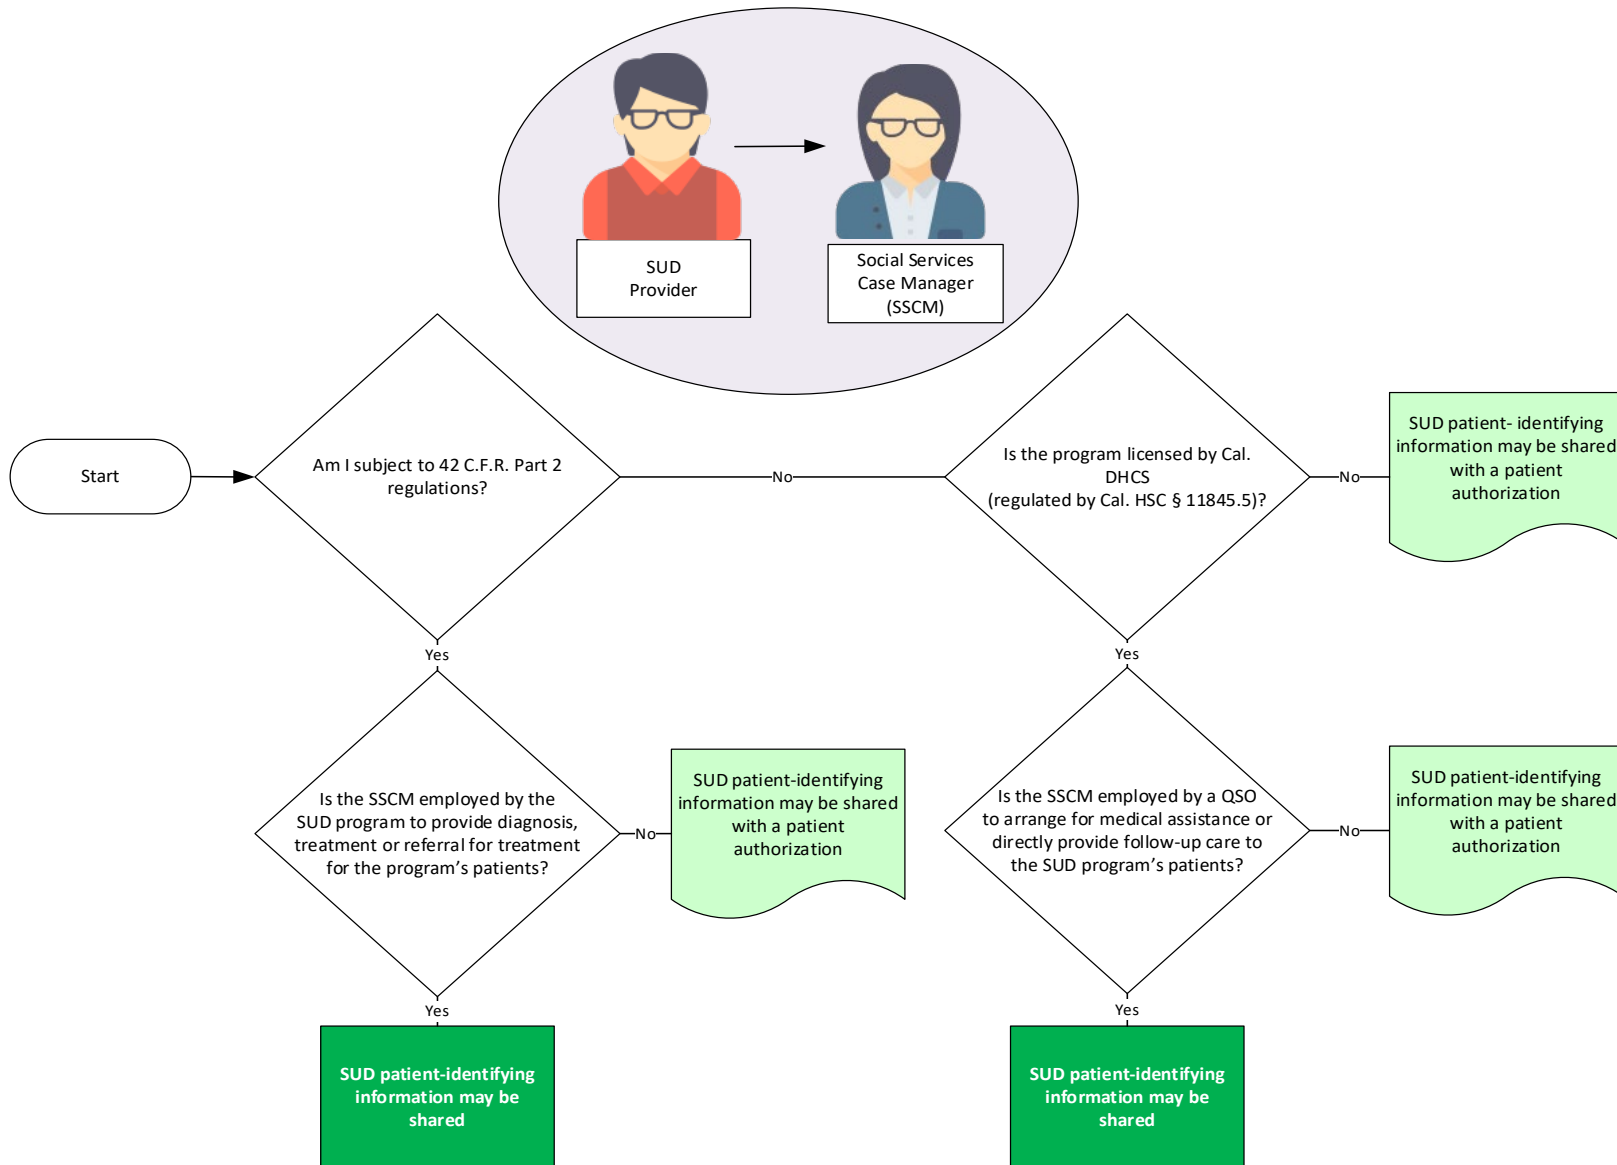

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no medical emergency
- There is no court order

Graphic - Behavioral Health to Social Services - Mental Health

Graphic - Behavioral Health to Social Services - Substance Use Disorder

Scenario Guidance - Behavioral Health to Social Services

The health information that may be [disclosed](#) by a behavioral health provider varies depending on whether the behavioral health information is regulated by the Lanterman–Petris–Short (LPS) Act, 42 C.F.R. Part 2, the Health Insurance Portability and Accountability Act (HIPAA), Health and Safety Code (HSC) § 11845.5, and/or the Confidentiality of Medical Information Act (CMIA).

For purposes such as discharge planning, multi-disciplinary coordination of care, or for applying for or making a claim for medical assistance or health benefits on behalf of a patient, behavioral health providers and SCCM or other health providers may have a need to share information for the benefit of the patient. If the purpose of sharing behavioral health information with a SSCM is specifically to make a claim for medical assistance or health benefits on behalf of the patient, the health information may be shared under the conditions described in the following paragraphs.

A mental health provider may disclose patient health information to a SSCM if any of the following criteria is met:

- When the patient health information is regulated by CMIA and HIPAA - the SSCM may receive [mental health information](#) to make a claim for medical assistance or health benefits on behalf of the patient.

[45 C.F.R. § 164.506; Cal. Civ. Code §§ 56.10(c)(2) and (3).]

CAUTION! For information from a patient’s outpatient treatment with a psychotherapist, the requestor must comply with the written request requirements of Cal. Civil Code § 56.104. Refer to [Appendix 3 – Special Documentation Requirements](#).

[Cal. Civ. Code §§ 56.10(c)(2), 56.104.]

- When the patient health information is regulated by LPS and HIPAA, the SSCM may receive mental health information when:
 - The SSCM receiving the information and mental health provider disclosing the information are [qualified professional persons](#) providing services within the same treatment facility, or
 - The SSCM receiving the information and mental health provider disclosing the information are qualified professional persons with responsibility for the patient's [treatment](#) external to the treatment facility.

[45 C.F.R. § 164.506; Cal. Welf. & Inst. Code § 5328(a)(1).]

If none of the above conditions are met, the mental health information can be shared with a SSCM with a valid patient or patient’s representative authorization (e.g., to locate supportive housing in proximity to the patient’s healthcare access needs, or other social services).

[Cal. Welf. & Inst. Code § 5328.]

[Substance use disorder \(SUD\) patient-identifying information](#) is specially protected under federal and state law. Without patient authorization, disclosure is strictly regulated for any patient information that identifies an individual directly or indirectly as having a current or past drug or alcohol problem.

Despite the restrictions, a SUD treatment provider may disclose SUD patient-identifying information to a SSCM without a patient authorization if either of the following criteria are met:

- The SSCM is employed by the program that is licensed by California Department of Health Care Services (DHCS) to provide diagnosis, treatment or referral for treatment for the program’s patients. Treatment may include care coordination after inpatient services. As long as the SUD patient-identifying information is shared within the same program, the sharing of information is allowed.

[42 C.F.R. § 2.12(c)(3); Cal. Health & Safety § 11845.5(c)(1).]

- The SUD treatment provider works for a program/facility that is not licensed by DHCS and the SSCM is employed by a [qualified service organization \(QSO\)](#) to arrange for medical assistance, or directly provide follow-up care to the SUD program’s patient. The QSO must have an appropriate written agreement in effect with the program as defined in the 42 C.F.R. Part 2 regulations. A QSO may not re-disclose SUD patient-identifying information without an authorization.

[42 C.F.R. §§ 2.11, 2.12(c)(4), 2.32; Cal. Civ. Code § 56.10(c).]

If neither of the above conditions are met, the SUD patient-identifying information can be shared with a SSCM with a valid patient or patient’s representative authorization.

[42 C.F.R. § 2.12; Cal. Health & Safety § 11845.5.]

Scenario 5 - Mental Health to Caregiver

Description

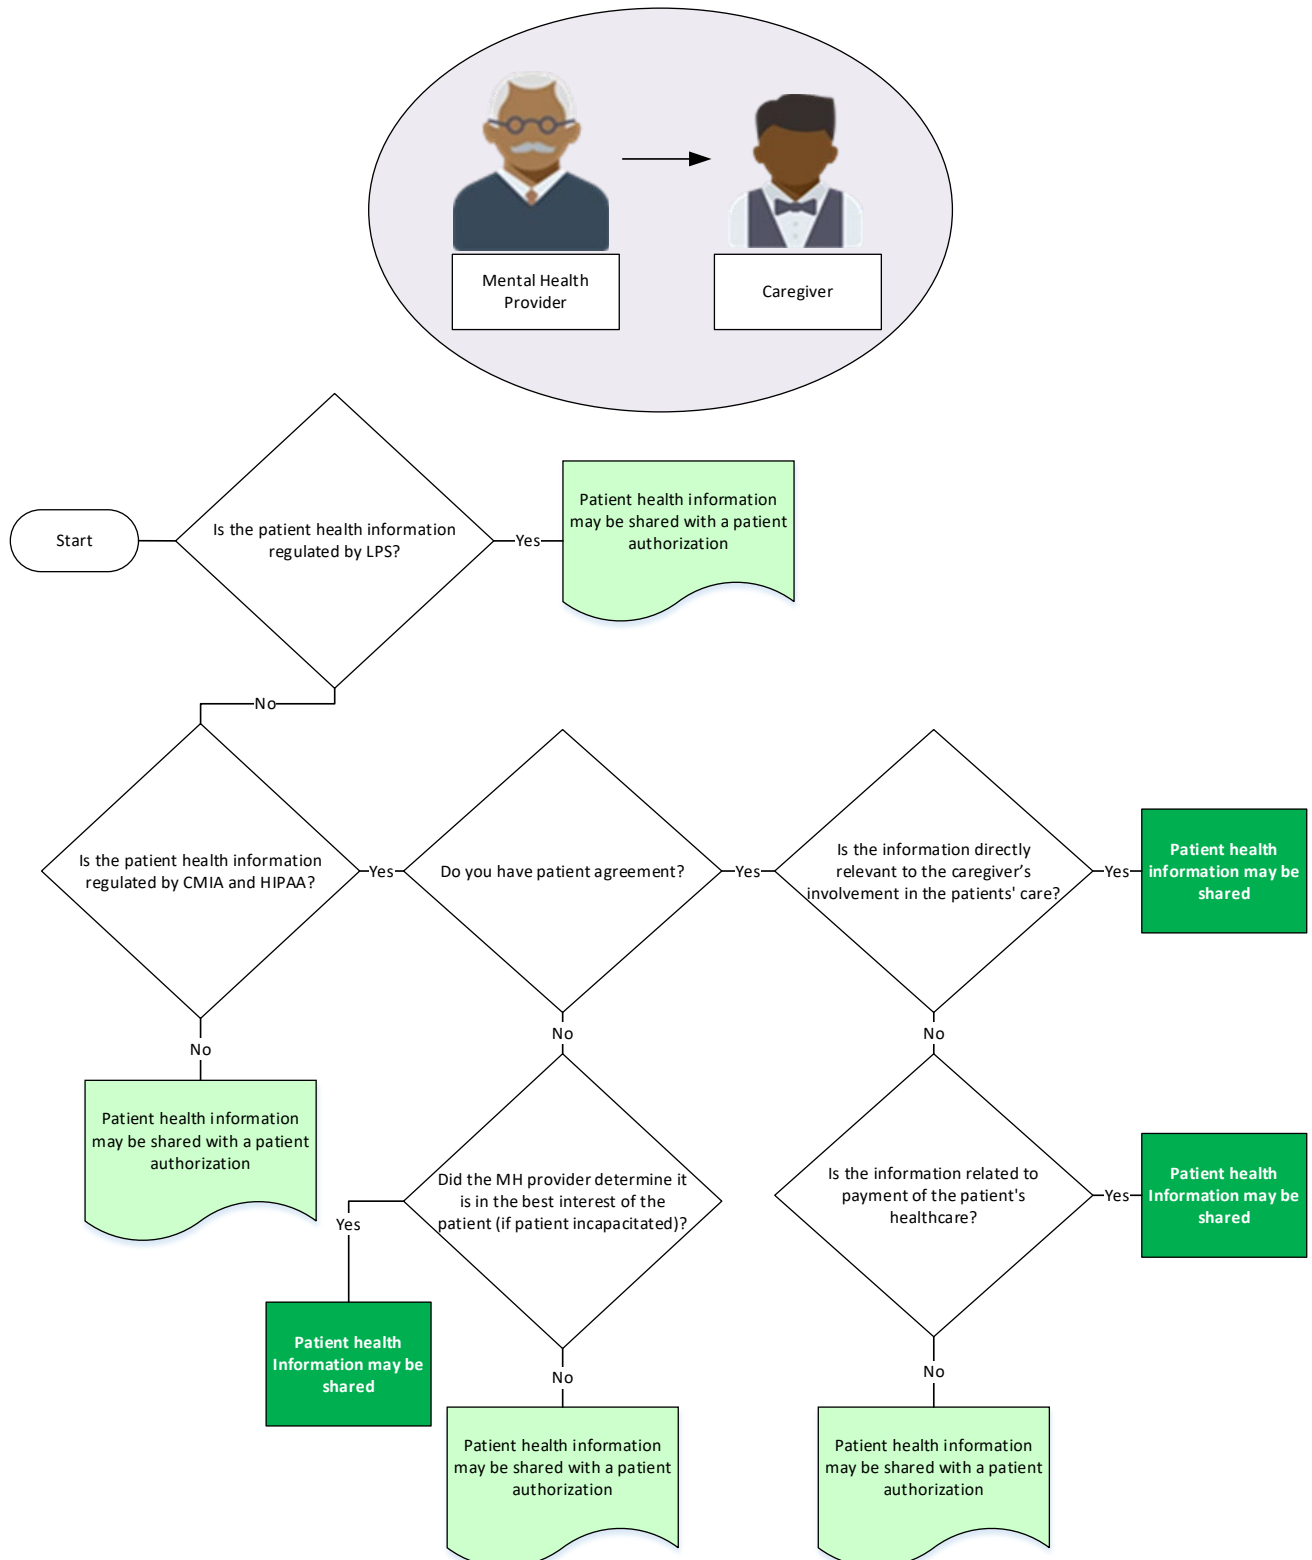

A mental health provider wants to share a patient's [mental health information](#) with a non-provider caregiver to arrange medical assistance for or directly provide follow-up care to the patient outside of the provider's outpatient or inpatient facility. Such information might include directions regarding follow-up care instructions, medications, in-home care guidelines, and related patient care services.

What patient health information can a mental health provider share with a person who has caregiver responsibilities?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order

Graphic - Mental Health to Caregiver

Scenario Guidance – Mental Health to Caregiver

Mental health information is specially protected. In most circumstances, in California mental health information may only be shared with the authorization of the patient or patient’s representative.

Recognizing the importance of effective follow-up care, the State of California requires a written aftercare plan upon a patient’s discharge from most inpatient mental health treatment. A variety of individuals (such as family members, domestic partner, neighbors) may be involved as caregivers to help with the aftercare. Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Medical Information Act (CMIA) permit sharing of [health information](#) with caregivers without an authorization, but with the patient’s agreement, when the information is:

- Directly relevant to the caregiver’s involvement in the patient's care, or
- Related to [payment](#) of the patient's healthcare

If patient agreement cannot be obtained (for example, the patient is incapacitated), the above health information can be shared with the caregiver, if the mental health provider in the exercise of professional judgment determines the [disclosure](#) is in the best interest of the patient.

[45 C.F.R. § 164.510(b); Cal. Civ. Code § 56.1007; Cal. Health & Safety Code § 1262.]

CAUTION! For information on a patient’s outpatient treatment with a psychotherapist, the requestor must comply with the written request requirements of Cal. Civil Code § 56.104, refer to [Appendix 3 – Special Documentation Requirements](#).

[Cal. Civ. Code §§ 56.10(c)(2), 56.104.]

Mental health information regulated by Lanterman-Petris-Short (LPS) can be shared with a caregiver with a valid patient or patient’s representative authorization.

[Cal. Welf. & Inst. Code §§ 5328(a)(1), 5328.1.]

Citations and Related Guidance

- [Appendix 3 – Special Documentation Requirements](#)

Scenario 6 - Substance Use Disorder to Caregiver

Description

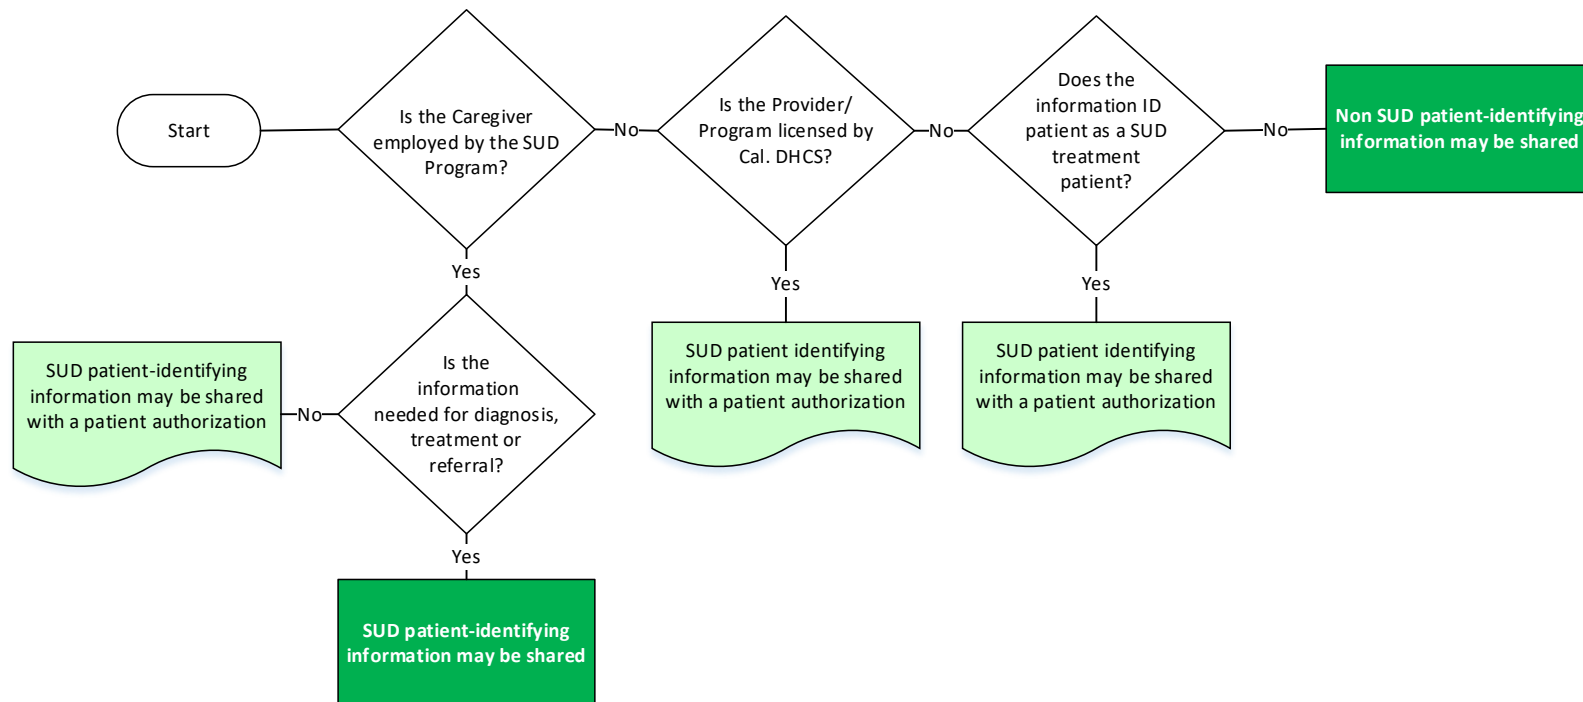

A substance use disorder (SUD) health provider wants to share a patient's SUD [health information](#) with a non-provider caregiver determining benefit eligibility for support services, arranging medical assistance for, or directly providing follow-up care to the patient outside of the provider's office or facility. Such information might include general direction regarding follow-up care instructions, medications, in-home care guidelines, and related patient care services.

What patient health information can a substance use disorder provider share with a person who has caregiver responsibilities?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- SUD information is regulated by 42 C.F.R. Part 2

Graphic - Substance Use Disorder to Caregiver

Scenario Guidance - Substance Use Disorder to Caregiver

[Substance use disorder \(SUD\) patient-identifying information](#) is specially protected. [Disclosure](#) without patient authorization of any patient health information that identifies an individual directly or indirectly as having a current or past drug or alcohol problem, or as a participant in a covered program, is strictly regulated for any federally-assisted [SUD treatment program](#). Since [federal assistance](#) is broadly defined in regulations and includes Medicare and Medicaid (Medi-Cal)¹⁴ [payments](#), a significant percentage of SUD patient-identifying information falls under the strict federal regulations (42 C.F.R. Part 2).

The Health Insurance Portability and Accountability Act (HIPAA) permits sharing of health information without an authorization, but with the patient's agreement, with family members and other individuals acting as caregivers when the health information is directly relevant to the person's involvement with the patient's healthcare (or payment related to the patient's healthcare). Under 42 C.F.R. Part 2 regulations, however, these types of disclosures are not permissible for SUD patient-identifying information without an authorization.

[42 C.F.R. §§ 2.1(a) and (b); 45 C.F.R. § 164.510(b)(1)(i).]

Despite the 42 C.F.R. Part 2 restrictions, a SUD treatment provider may share information without a patient authorization with a person acting as a caregiver to arrange medical assistance for, or directly providing care to, the patient outside of the program provider's office or facility if any of the following conditions are met:

- The caregiver is employed by the program to provide diagnosis, [treatment](#) or referral for treatment of the program's patients. As long as the SUD patient-identifying information is shared within the program, the sharing of information is internal and therefore allowed.

[42 C.F.R. § 2.12(c)(3); 45 C.F.R. § 164.506; Cal. Health & Safety Code § 11845.5(c)(1).]

- The SUD treatment provider not licensed by California Department of Health Services (DHCS) can share patient information in such a way that the caregiver can perform his or her responsibilities and the patient cannot be identified as a SUD patient directly, by reference to other publicly available information, or by verification as a SUD patient by another person.

[42 C.F.R. § 2.12(a)(1); 45 C.F.R. §§ 164.501, 164.506; Cal. Civil Code § 56.1007.]

If none of the above conditions are met, then the SUD patient-identifying information can be shared with a caregiver with a valid patient or patient's representative authorization.

[42 C.F.R. § 2.31.]

¹⁴ Medi-Cal is the State of California's Medicaid program.

Scenario 7 - To Improve Coordination of Care

Description

Many healthcare policy makers are increasingly interested in determining if improved [coordination of care](#) between physical health, [behavioral health](#) and social services providers results in better health outcomes. Such collaborative patient-centric care across multiple service providers often requires sharing protected [behavioral health information](#) in innovative ways for mental health and substance use disorder (SUD) [treatment](#). To determine if better integration and coordination of care can lead to the desired outcomes, the State of California and the federal government have implemented several initiatives that provide funding to programs piloting alternative approaches to complex care to help meet medical, behavioral, and even socioeconomic needs.

The following initiatives explored a more holistic approach, however these initiative ended in 2021. :

- **[Whole Person Care \(WPC\) Pilots](#)** – The initiative (authorized by the Medi-Cal¹⁵ 2020 Demonstration) tests county-based approaches that coordinate physical health, behavioral health and social services for high-risk, high-utilizing Medi-Cal patients who receive help from multiple systems with poor outcomes. Some of the goals of the pilots are to improve care access and coordination, achieve better health outcomes for WPC populations, increase access to appropriate housing and support services, and reduce inappropriate emergency room and inpatient utilization.
- **Coordinated Care Initiative** – The demonstration project (authorized by the Medi-Cal 2020 Demonstration) promotes coordinated care to seniors and disabled persons with Medicare and Medi-Cal eligibility through specialized managed care plans.
- **Health Homes Program** – The initiative (authorized by the Affordable Care Act) allows providers to integrate and coordinate all primary, acute, behavioral health, and long-term services and related support for high-risk patients with Medicaid who have chronic conditions.¹⁶

As a result, the state of California introduced the California Advancing and Innovating Medi-Cal (CalAIM). CalAIM is a far-reaching, multi-year plan to transform California’s Medi-Cal program and to make it integrate more seamlessly with other social services.¹⁷

¹⁵ Medi-Cal is the State of California’s Medicaid program.

¹⁶ Refer to the Medicaid.gov website for more information: <https://www.medicaid.gov/medicaid/ltss/health-homes/index.html>¹⁷ Refer to the CalAIM website for more information: <https://www.dhcs.ca.gov/CalAIM/Pages/CalAIM.aspx>

¹⁷ Refer to the CalAIM website for more information: <https://www.dhcs.ca.gov/CalAIM/Pages/CalAIM.aspx>

Scenario 8 - In the Event of Emergency

Description

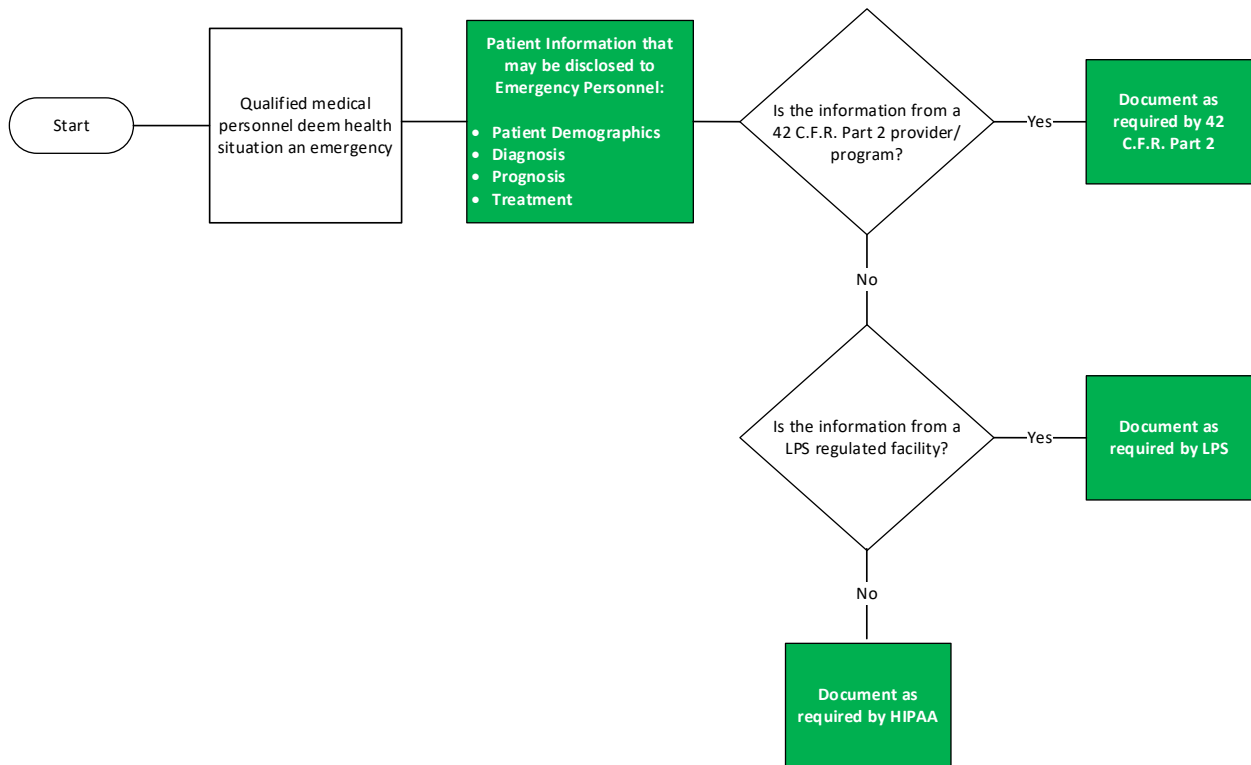

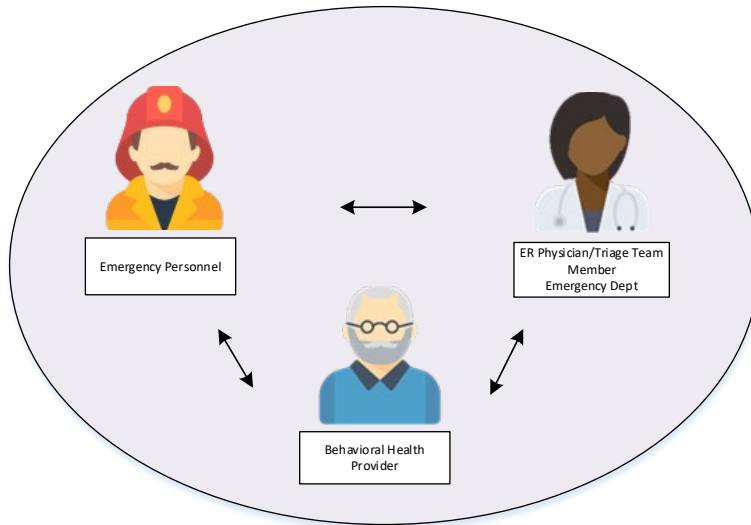

An individual with mental health or substance use disorder (SUD) issues is being treated by an Emergency Medical Services (EMS) provider, emergency room physician, hospital emergency department, or a triage team member.

What patient health information can be shared in a medical emergency?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Must be a medical emergency
- Patient is unable to provide health information to healthcare professionals
- There is no patient or [patient's representative authorization](#)

Graphic - In the Event of Emergency

Scenario Guidance – In Event of Emergency

Every [health information privacy](#) law, including Lanterman-Petris-Short (LPS), allows [behavioral health information](#) to be shared in the event of a medical emergency for [treatment](#). Mental health providers, SUD treatment providers (subject to 42 C.F.R. Part 2 regulations), contractors, and other healthcare professionals and facilities can share the following for the purpose of diagnosis or treatment of the patient in the event of a medical emergency (where the prior consent of the patient could not be obtained):

- Patient demographics
- Diagnosis
- Prognosis
- Treatment

[42 C.F.R. § 2.51(a); 45 C.F.R. § 164.506; Cal. Civ. Code § 56.10(c)(1); Cal. Health & Safety Code § 11845.5(c)(2); Cal. Welf. & Inst. Code § 5328(a)(1).]

In July 2020, 42 C.F.R. Part 2 expanded “medical emergency” to include when “a Part 2 program is closed and unable to provide services or obtain the prior written consent of the patient, during a temporary state of emergency declared by a state or federal authority as the result of a natural or major disaster, until ... the Part 2 program resumes operations.” However, behavioral health providers regulated by the California Department of Health Services (DHCS) must continue to follow California Health and Safety Code § 11845.5, which has not expanded its definition of a medical emergency.

[42 C.F.R. § 2.51(a)(2); Cal. Health & Safety Code § 11845.5(c)(2).]

Documentation Requirements When Provider is Regulated by HIPAA

Patient health information shared for emergency medical treatment purposes is generally not required to be documented outside of the medical record (e.g., for accounting of disclosure purposes), unless the entity is making the disclosure through an electronic health record.

[42 U.S.C. § 17935(c)(1)(A); 45 C.F.R. § 164.528(a)(1)(i).]

Documentation Requirements When Provider is Regulated by 42 C.F.R. Part 2

Immediately following [disclosure](#) of [SUD patient-identifying information](#) the entity providing the information must document the following in the patient’s medical record:

- Name and affiliation with any healthcare facility of the medical personnel to whom disclosure was made
- Name of the individual making the disclosure
- Date and time of the disclosure
- Nature of the emergency

[42 C.F.R. § 2.51(c).]

Documentation Requirements When Provider is Regulated by LPS

If [mental health information](#) regulated by LPS is shared for emergency medical treatment, the provider must document the disclosure to emergency medical personnel in the patient's medical record. Documentation must include:

- Date
- Circumstance
- Name of recipient or organization
- Relationship to patient
- What information was disclosed

[Cal. Welf. & Inst. Code § 5328.6.]

Citations and Related Guidance

- 42 U.S.C. § 17935(c)(1)(A).
- 42 C.F.R. §§ 2.51(a) and (c).
- 45 C.F.R. § 164.506.
- 45 C.F.R. § 164.528(a)(1)(i).
- Cal. Civ. Code § 56.10(c)(1).
- Cal. Health & Safety Code § 11845.5(c)(2).
- Cal. Welf. & Inst. Code § 5328(a)(1).
- Cal. Welf. & Inst. Code § 5328.6.
- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Payment and Determination of Benefits

When allowed by law, the [minimally necessary health information](#) can be shared for purposes of applying for or making a claim for medical assistance or benefits on behalf of a patient. Benefits or assistance may include [payment](#) of medical claims, medical assistance, aid insurance, and government healthcare benefits. Applying or making a claim for non-medical assistance or benefits on behalf of the patient generally requires patient [authorization](#). Health information includes patient-specific information about mental health, substance use disorder (SUD) and general healthcare.

[45 C.F.R. §§ 164.502(b), 164.514(d); Cal. Civ. Code § 56.10(c)(2).]

CAUTION! For information from a patient’s outpatient treatment with a psychotherapist, the requestor must comply with the written request requirements of Cal. Civil Code § 56.104, refer to [Appendix 3 – Special Documentation Requirements](#).

[Cal. Civ. Code §§ 56.10(c)(2), 56.104.]

Within their respective centers, programs, or care facilities/networks, [behavioral health](#) providers may share patient health information without patient authorization for purposes of applying for or making a claim for medical assistance or benefits on behalf of a patient. The ability to share health information for the above purposes outside a provider’s center, program, or care facility/network varies depends on whether the patient information is regulated by 42 C.F.R. Part 2. For SUD, 42 C.F.R. Part 2 establishes stringent standards for use and [disclosure](#) of [SUD patient-identifying information](#). Patient authorization is required when SUD patient-identifying information is disclosed for purposes of applying for or making a claim for benefits or assistance unless specific criteria (explained in more detail in the following scenario) are met.

Scenario 9 - Behavioral Health to Social Services for Determination of Social Services Benefits

Description

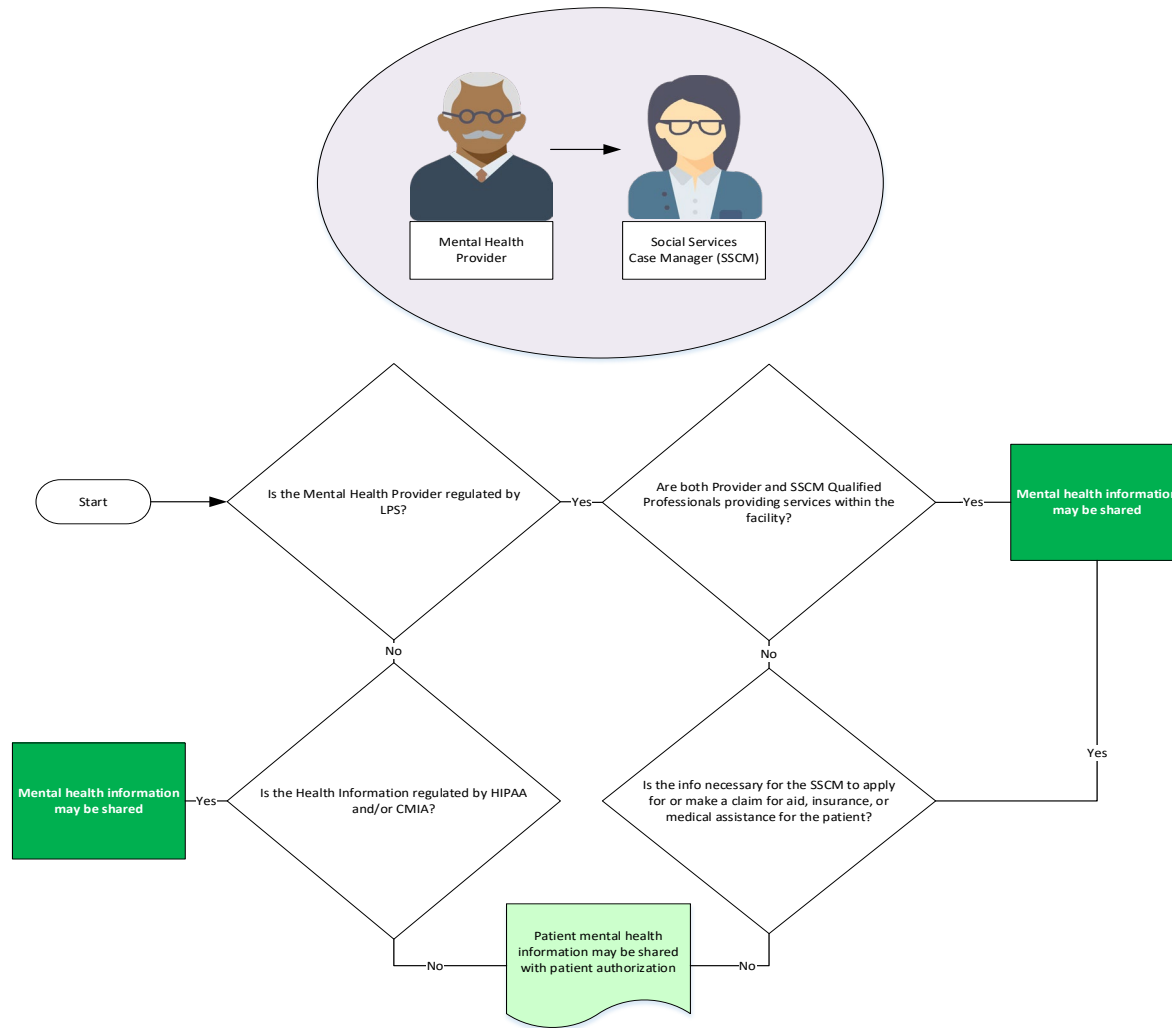

A [behavioral health](#) provider wants to share a patient's [behavioral health information](#) with a [social services case manager](#) (SSCM) to apply for or arrange social services benefits on behalf of the patient. Such information might include [substance use disorder \(SUD\) patient-identifying information](#) or Lanterman-Petris-Short (LPS) regulated [mental health information](#). For purposes of this scenario, a SSCM a licensed clinical social worker or other similar provider.

What patient health information can a behavioral health provider share with the social services case manager?

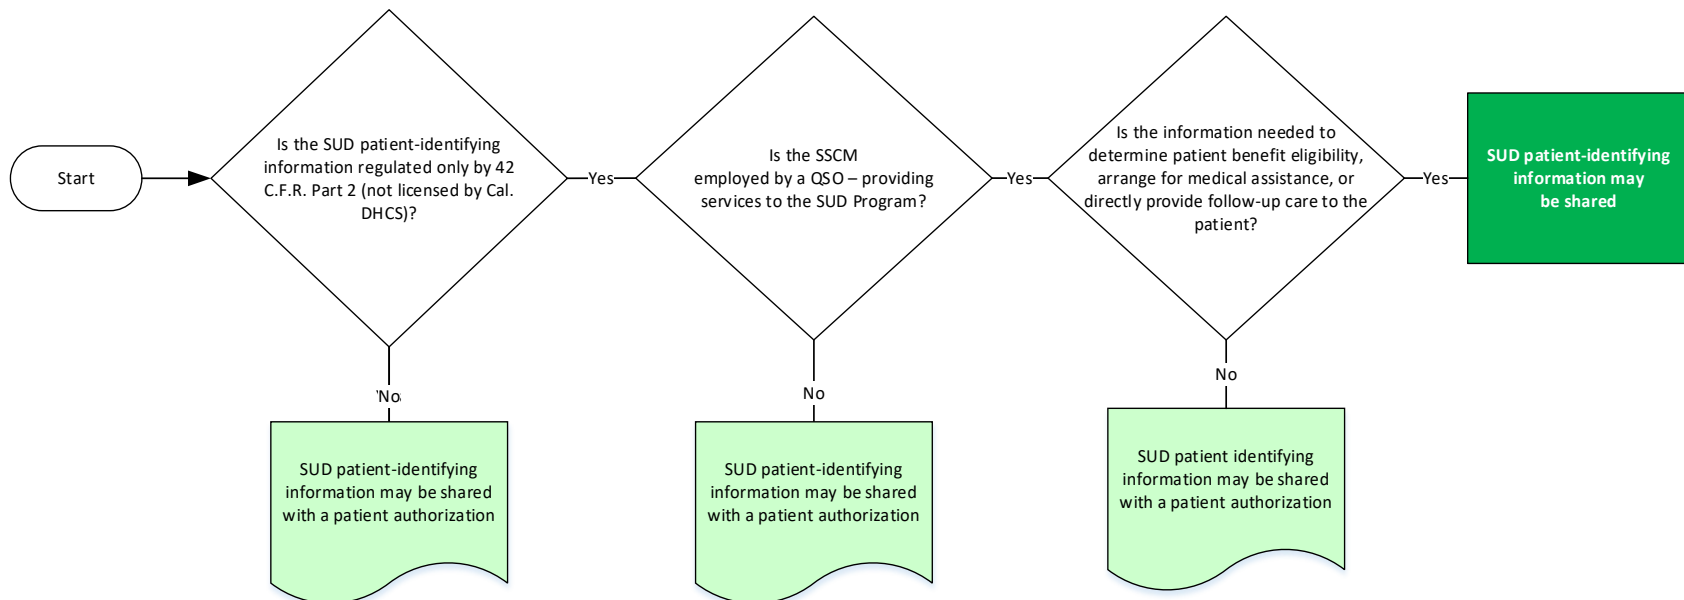

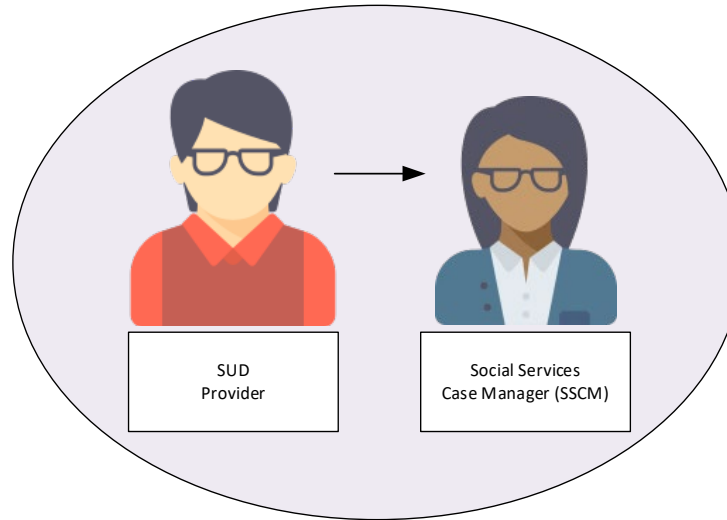

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- There is no medical emergency
- Mental health information is regulated by LPS
- SUD health information is regulated by 42 C.F.R. Part 2

Graphic - Behavioral Health to Social Services for Determination of Social Services Benefits - Mental Health

Graphic - Behavioral Health to Social Services for Determination of Social Services Benefits - Substance Use Disorder

Scenario Guidance – Behavioral Health to Social Services for Determination of Social Services Benefits

Social services case managers may be involved with behavioral health patients for purposes of determining social services benefits. Generally, the Health Insurance Portability and Accountability Act (HIPAA) and Confidentiality of Medical Information Act (CMIA) permit sharing health information for determining payment and when government entities are determining benefits for enrollment.

[45 C.F.R. §§ 164.506(c), 164.512(k)(6); Cal. Civ. Code §§ 56.10(c)(2), 56.104.]

For purposes of applying for or making a claim for social services assistance or benefits, current laws limit [disclosure](#) and vary depending on whether the behavioral health information is regulated by LPS (mental health) or 42 C.F.R. Part 2 (SUD patient-identifying information). If the purpose of sharing behavioral health information with a SSCM is specifically to make a claim for social services assistance or benefits on behalf of the patient, the [health information](#) may be shared without a patient authorization only under the conditions described in the following paragraphs.

A mental health provider regulated by LPS may disclose health information to a SSCM if either of the following criteria is met:

- The SSCM receiving the information and person providing the information are [qualified professional persons](#) providing services within the same treatment facility.

[Cal. Welf. & Inst. Code § 5328(a)(1).]

- The mental health information is necessary to make a claim or application for aid, insurance, or medical assistance on the patient's behalf.

[Cal. Welf. & Inst. Code § 5328(a)(3).]

If none of the above conditions are met, the mental health information can be shared with a SSCM only with a valid patient or patient's representative authorization.

[Cal. Welf. & Inst. Code § 5328(a)(2).]

CAUTION! For information from a patient's outpatient treatment with a psychotherapist not regulated by LPS, the requestor must comply with the written request requirements of Cal. Civil Code § 56.104, refer to [Appendix 3 – Special Documentation Requirements](#).

[Cal. Civ. Code §§ 56.10(c)(2), 56.104.]

SUD patient-identifying information is specially protected under federal and state law. Without patient authorization, disclosure is strictly regulated for any patient information that identifies an individual directly or indirectly as having a current or past drug or alcohol problem, or as a participant in a [SUD treatment program](#) that receives [federal assistance](#). Since federal

assistance is broadly defined in regulations and includes Medicare and Medicaid (Medi-Cal)¹⁸ [payments](#), a significant percentage of SUD patient-identifying information falls under the strict federal regulations such as 42 C.F.R. Part 2.

Despite the restrictions, a SUD treatment provider only regulated by 42 C.F.R. Part 2 (and not licensed by the Department of Health Care Services) may disclose health information to a SSCM without a patient authorization if the SSCM is employed by a [qualified service organization \(QSO\)](#) to determine patient benefit eligibility, arrange for medical assistance, or directly provide follow-up care to the program's SUD patient. The QSO must have an appropriate written agreement in effect with the program as defined in the 42 C.F.R. Part 2 regulations.

[42 C.F.R. §§ 2.11, 2.12(c)(4); Cal. Civ. Code § 56.10(c).]

If none of the above conditions are met, the SUD patient-identifying information can be shared with a SSCM with a valid SUD patient authorization. In the case of a SSCM, the patient authorization for a disclosure of SUD patient-identifying information must specify the name of the individual or the entity to whom disclosure will be made.

[42 C.F.R. § 2.31; 45 C.F.R. § 164.508; Cal. Health & Safety Code § 11845.5.]

¹⁸ Medi-Cal is the State of California's Medicaid program.

Healthcare Operations

[Healthcare operations](#) are certain administrative, financial, legal, and quality improvement activities that are necessary for a Health Insurance Portability and Accountability Act (HIPAA) [covered entity](#) to run its business. Even within the context of these activities, entities are required to ensure patient [mental health information](#) and [substance use disorder \(SUD\) patient-identifying information](#) is protected in accordance with HIPAA, California Medical Information Act (CMIA), California Health and Safety Code § 11845.5, Lanterman-Petris-Short (LPS) Act, and 42 C.F.R. Part 2.

Scenario 10 - Quality Improvement

Description

The [disclosure](#) and use of [health information](#) is a key requirement to support quality improvement activities, which are in turn essential to the Triple Aim Initiative of “improving the patient experience of care, improving the health of populations, and reducing per capita costs of healthcare.”¹⁹

[Healthcare operations](#) activities, which include quality improvement activities, may require the exchange of [behavioral health information](#) between [health providers](#), [health plans](#), [business associates \(BA\)](#), [qualified service organizations \(QSO\)](#), and accountable care organization (ACO) participants. The extent that behavioral health information can be shared for the above-mentioned purpose depends on the state or federal law by which the patient information is regulated.

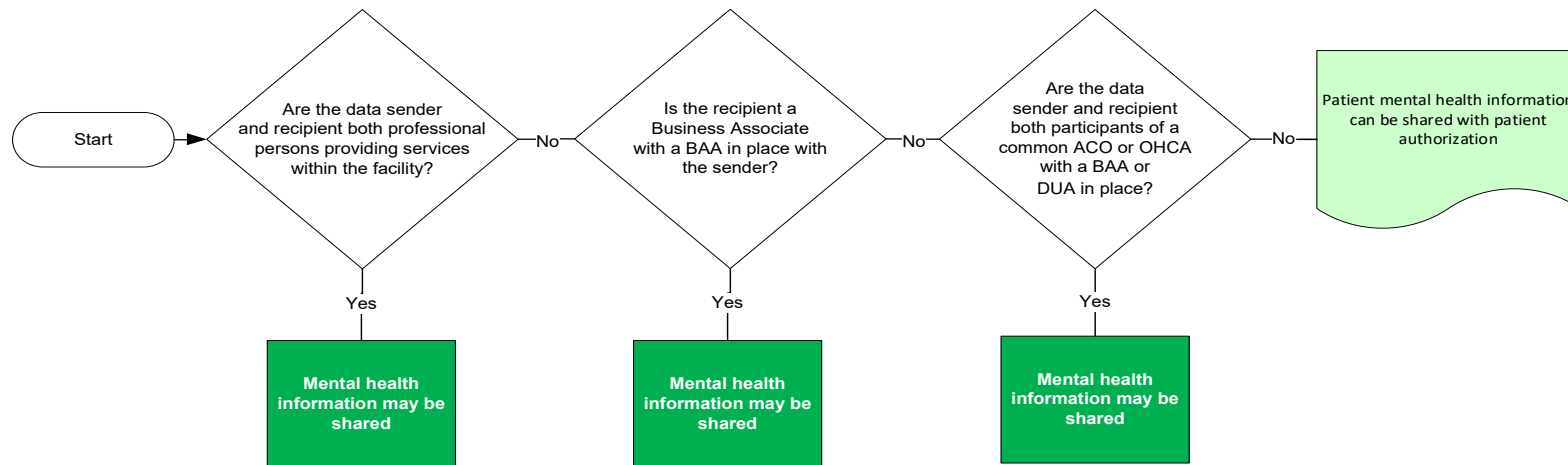

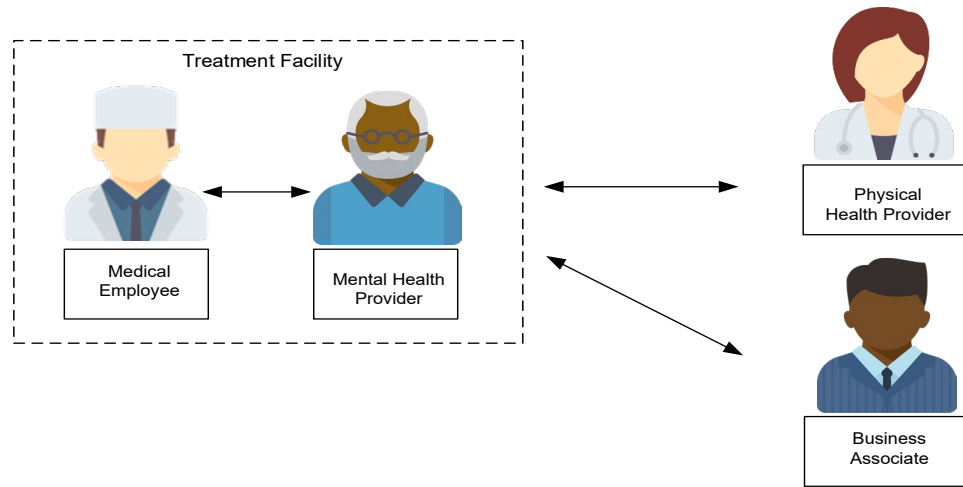

Under what circumstances can behavioral health information be shared for quality assessment and improvement activities?

Important Scenario Guidance Assumptions:

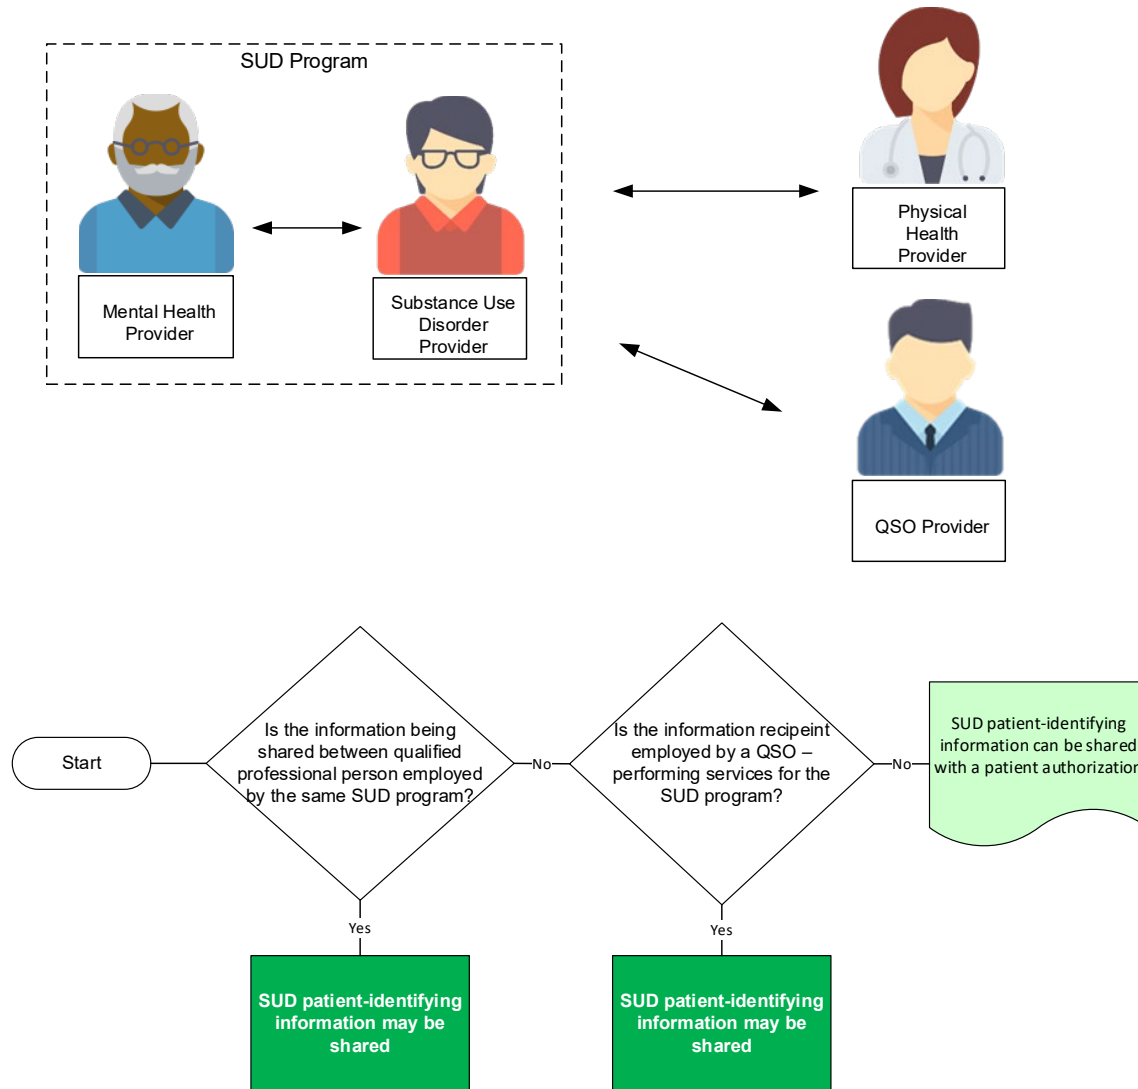

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- There is no patient or [patient’s representative authorization](#)
- There is no court order
- [Mental health information](#) is regulated by Lanterman-Petris-Short (LPS)
- Substance Use Disorder (SUD) information is regulated by 42 C.F.R. Part 2

¹⁹ Institute for Healthcare Improvement, “Triple Aim Initiative,” 2017, <http://www.ihl.org/Engage/Initiatives/TripleAim/Pages/default.aspx>

Graphic - Quality Improvement - Mental Health

Graphic - Quality Improvement - Substance Use Disorder

Scenario Guidance – Quality Improvement

Mental Health Information

For quality improvement activities performed within a mental health facility, LPS-regulated mental health information may be [disclosed](#) without patient authorization by a [qualified professional person](#) to another qualified professional person in the same treatment facility. Disclosures for purposes of quality improvement must be limited to the [minimum necessary](#) to achieve the purpose.

[45 C.F.R. § 164.502(b)(1); Cal. Welf. & Inst. Code § 5328(a)(1).]

A mental health provider may disclose patient mental health information externally for quality improvement purposes if one of the following criteria are met:

- The recipient of the information has executed a valid [business associate agreement \(BAA\)](#) with the provider to use and protect health information for quality improvement activities of the provider in the manner specified in the agreement and in compliance with other relevant regulations and statutes related to quality improvement.
[45 C.F.R. §§ 160.103, 164.308(b)(1) – (b)(3), 164.504; Cal. Welf. & Inst. Code § 5328(a)(25).]
- The recipient of the information is a [covered entity](#) and has a need for the information for its own quality improvement purposes and the quality improvement activities are related to a direct [treatment](#) relationship the two entities have or had with the same patient.
[45 C.F.R. § 164.506(c)(4); Cal. Welf. & Inst. Code § 5328(a)(25).]
- The recipient of the information and the mental health provider both participate in an [organized health care arrangement](#) (OHCA) such as an ACO with appropriate agreements (e.g., BAA) in place to disclose health information to other OHCA participants for OHCA healthcare operations activities, including quality assessment and improvement activities, and comply with other relevant regulations and statutes related to quality improvement.
[45 C.F.R. § 164.308(b); Cal. Welf. & Inst. Code § 5328(a)(25).]

If none of the above conditions are met, the mental health information can be shared externally for quality improvement purposes with a valid patient or patient’s representative authorization.

[45 C.F.R. § 164.508; Cal. Welf. & Inst. Code § 5328(a)(2).]

Substance Use Disorder Information

[SUD patient-identifying information](#) regulated by 42 C.F.R. Part 2 and Health & Safety Code § 11845.5 is specially protected under federal and state law. Disclosures for purposes of quality improvement must be limited to the minimum necessary to achieve the purpose.

[42 C.F.R. § 2.12; 45 C.F.R. § 164.502(b); Cal. Health & Safety Code § 11845.5.]

Despite the restrictions, a SUD treatment provider may disclose health information without a patient authorization for quality improvement purposes if any of the following conditions are met:

- The SUD patient-identifying information is shared with [qualified professional persons](#) employed by the SUD treatment provider's facility or program.
[42 C.F.R. § 2.12(c)(3); Cal. Health & Safety Code § 11845.5(c)(1).]
- The SUD patient-identifying information is shared externally with the QSO (with a QSOA and BAA in place) for the purpose of performing management audits, financial and compliance audits, or program evaluation services to the program.
[42 C.F.R. §§ 2.12(c)(4), 2.53; Cal. Health & Safety Code § 11845.5(c)(3).]

If none of the above conditions are met, the SUD patient-identifying information can be shared with a valid patient or patient's representative authorization.

[42 C.F.R. § 2.31.]

Scenario 11 - Audits

Description

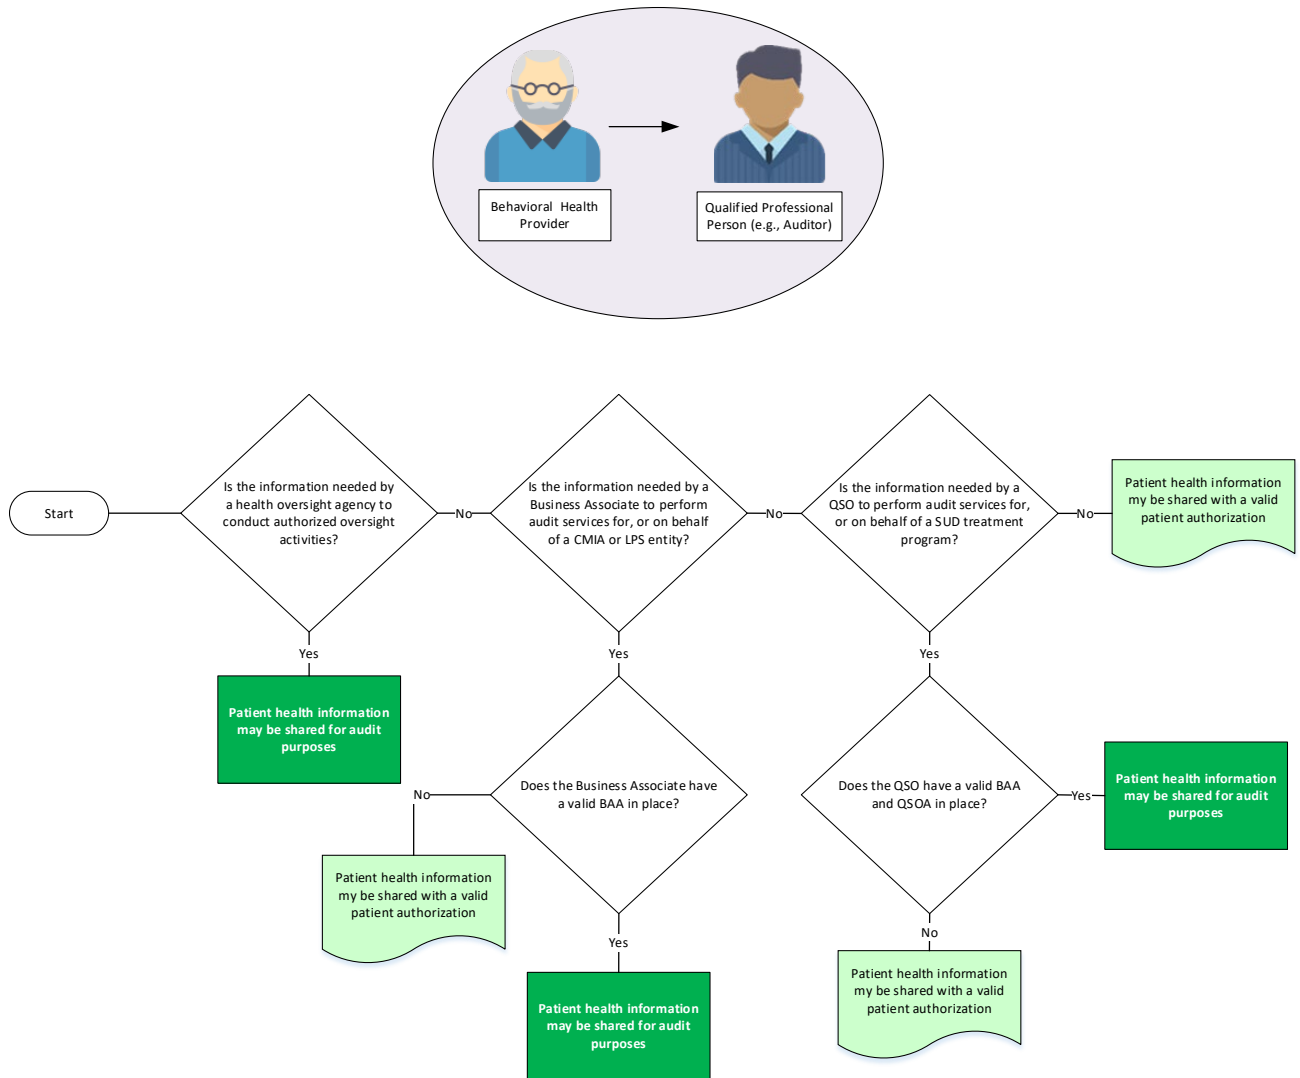

Auditors in the performance of their duties may ask for [health information](#) that includes patient health information or [substance use disorder \(SUD\) patient-identifying information](#) that is protected by 42 C.F.R. Part 2, Health Insurance Portability and Accountability Act (HIPAA), Lanterman-Petris-Short (LPS) Act, Confidentiality of Medical Information Act (CMIA), and/or Health and Safety Code (HSC) § 11845.5.

What patient health information can a provider share with an auditor during an audit?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- There is no patient or [patient's representative authorization](#)
- There is no court order
- [Mental health information](#) is regulated by LPS or CMIA
- SUD health information is regulated by 42 C.F.R. Part 2

Graphic – Audits

Scenario Guidance – Audits

Auditing is an important part of an entity’s quality management system to ensure compliance of requirements for the management of quality standards and practices. Health information that is [minimally necessary](#) to accomplish the purpose, including mental health and SUD information, can be shared for [healthcare operations](#) and [health oversight activities](#).

[45 C.F.R. §§ 164.506, 164.512(d); Cal. Civ. Code § 56.10(c).]

All health information [privacy](#) laws allow organizations to conduct their own medical review, legal services, and auditing functions, including financial audits, fraud and abuse detection, and compliance programs. These functions are considered healthcare operations and patient authorization is not required.

[42 C.F.R. § 2.12(c)(3); 45 C.F.R. § 164.506; Cal. Civ. Code § 56.10(c); Cal. Health & Safety Code § 11845.5(c)(3); Cal. Welf. & Inst. Code § 5328(a)(1).]

Mental Health Information

[Mental health information](#) regulated by HIPAA and either CMIA or LPS may be shared by organizations with a [business associate](#) (BA) for external audit purposes with a valid [business associate agreement](#) (BAA).

[45 C.F.R. § 164.508(b); Cal. Civ. Code § 56.10(c); Cal. Welf. & Inst. Code § 5328(a)(25).]

Mental health information regulated by HIPAA and CMIA may be [disclosed](#) to a [health oversight agency](#), without an authorization, for authorized oversight activities (examples include, but are not limited to, audits, licensure or disciplinary actions).

[45 C.F.R. §§ 164.501, 164.512(d); Cal. Civ. Code § 56.10(b) and (c).]

CAUTION! For information from a patient’s outpatient treatment with a psychotherapist, the requestor must comply with the written request requirements of Cal. Civil Code § 56.104, refer to [Appendix 3 – Special Documentation Requirements](#).

[Cal. Civ. Code §§ 56.10(b) and (c), 56.104.]

Mental health information regulated by HIPAA and LPS may be disclosed to the California Department of Public Health, California Department of Social Services, professional licensing boards, or as otherwise required by law.

[45 C.F.R. § 164.512(d); Cal. Welf. & Inst. Code § 5328.15; State Department of Public Health v. Superior Court (2015) 60 Cal.4th 940, 954.]

Substance Use Disorder Information

When conducting management or financial audits, or [program evaluation](#) for [SUD treatment programs](#), health information can be disclosed to [qualified professional persons](#), as long as any report on such activities does not identify patients in any way.

[42 C.F.R. § 2.53; Cal. Health & Safety Code § 11845.5(c)(3).]

[Qualified service organizations \(QSO\)](#) provide services to a program and are granted [access](#) to SUD patient-identifying information in the performance of their responsibilities without a patient authorization but with a [qualified service organization agreement](#) (QSOA) and BAA. The QSOA and BAA must acknowledge being fully bound by these regulations and provides services to the program (e.g., legal, accounting, or other professional services).

[42 C.F.R. §§ 2.11, 2.12(c)(4).]

A SUD treatment provider may disclose information to a health oversight agency as long as any report does not identify the patient in any way.

[42 C.F.R. § 2.53; 45 C.F.R. § 164.512(d); Cal. Health & Safety Code § 11845.5(c)(3).]

If none of the above conditions are met, the health information can be shared for auditing purposes with a valid patient or patient's representative authorization.

[42 C.F.R. § 2.31; Cal. Health & Safety Code § 11845.5(b); Cal. Welf. & Inst. Code § 5328(a)(2).]

Scenario 12 - Business Associates

Description

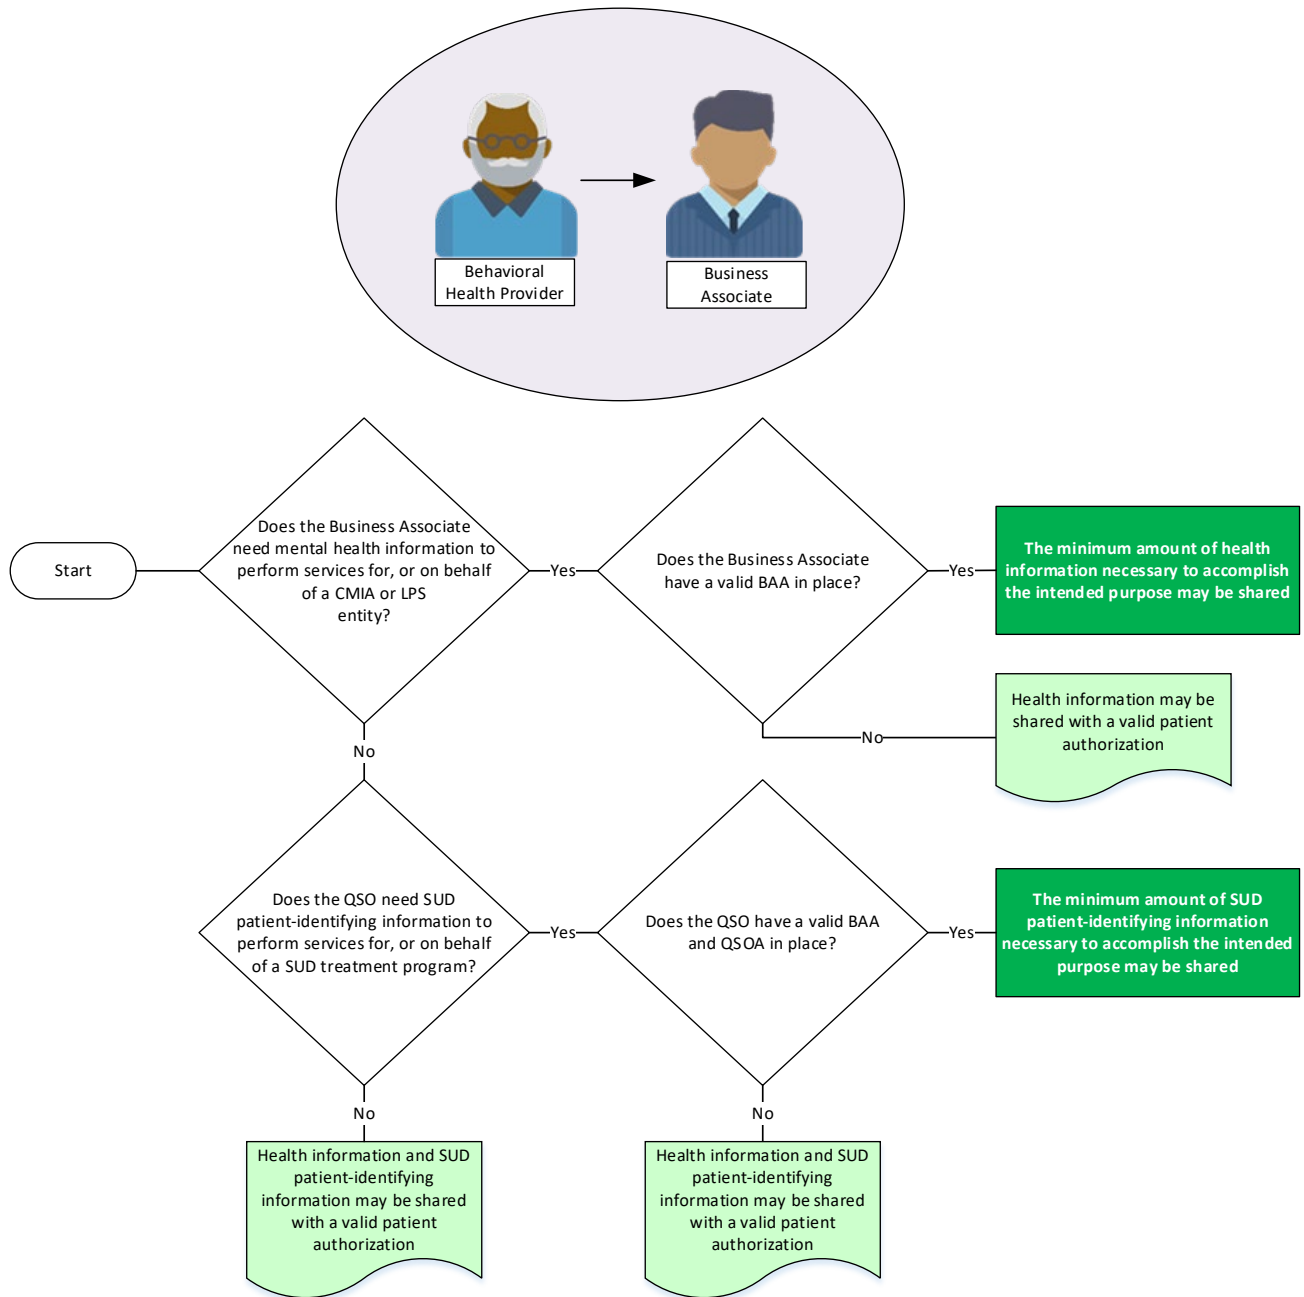

A [business associate \(BA\)](#) in the performance of its duties needs access to health information including [mental health information](#) or [substance use disorder \(SUD\) patient-identifying information](#) protected by 42 C.F.R. Part 2, Lanterman-Petris-Short (LPS) Act, Confidentiality of Medical Information Act (CMIA), California Health and Safety Code (HSC) § 11845.5, or Health Insurance Portability and Accountability Act (HIPAA).

What patient health information can a behavioral health provider share with their business associates?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- There is no patient or [patient's representative authorization](#)
- There is no court order

Graphic - Business Associates

Scenario Guidance – Business Associates

A [business associate agreement \(BAA\)](#) is required to protect health information in accordance with HIPAA guidelines. A BA can use or [disclose](#) health information only in the manner specified in the BAA. Each entity may have specific program requirements that need to be incorporated into the BAA. The BAA must state the BA will comply with all applicable legal requirements.

[45 C.F.R. § 164.314.]

Mental Health Information

While HIPAA and CMIA allow for sharing with BAs, other federal and state laws are more restrictive. Mental health information regulated by CMIA or LPS may be shared with BAs provided a current signed BAA is in place. When sharing health information or when requesting health information from another [covered entity](#) or BA, a covered entity or BA must make reasonable efforts to limit health information to the [minimum necessary](#) to accomplish the intended purpose of the use, disclosure, or request.

[45 C.F.R. §§ 164.308(b), 164.502(b), 164.514(d); Cal. Civ. Code § 56.10(c); Cal. Welf. & Inst. Code § 5328(a)(25).]

CAUTION! For information from a patient’s outpatient treatment with a psychotherapist, the requestor must comply with the written request requirements of Cal. Civil Code § 56.104, refer [Appendix 3 – Special Documentation Requirements](#).

[Cal. Civ. Code §§ 56.10(c), 56.104.]

Substance Use Disorder Information

SUD patient-identifying information may be shared with a [qualified service organization](#) (QSO) to provide services to the program. QSOs performing services for or on behalf of [SUD treatment programs](#) regulated by 42 C.F.R. Part 2 require a BAA and a [qualified service organization agreement \(QSOA\)](#) be executed prior to the disclosure or sharing of health information that is SUD patient-identifying information. Any information identifying a patient as being or having been diagnosed with or treated for SUD either directly or indirectly should be limited to the minimum necessary to accomplish the intended purpose of the use, disclosure, or request.

[42 C.F.R. §§ 2.12(c)(4), 2.32; 45 C.F.R. §§ 164.308(b), 164.314(a), 164.502, 164.502(b), 164.504(e); Cal. Health & Safety Code § 11845.5(c)(1) and (3).]

A QSO may re-disclose SUD patient-identifying information only with a valid patient or patient’s representative authorization.

[42 C.F.R. § 2.12(c)(4).]

Scenario 13 - Behavioral Health Organization Policy and Strategy Development

Description

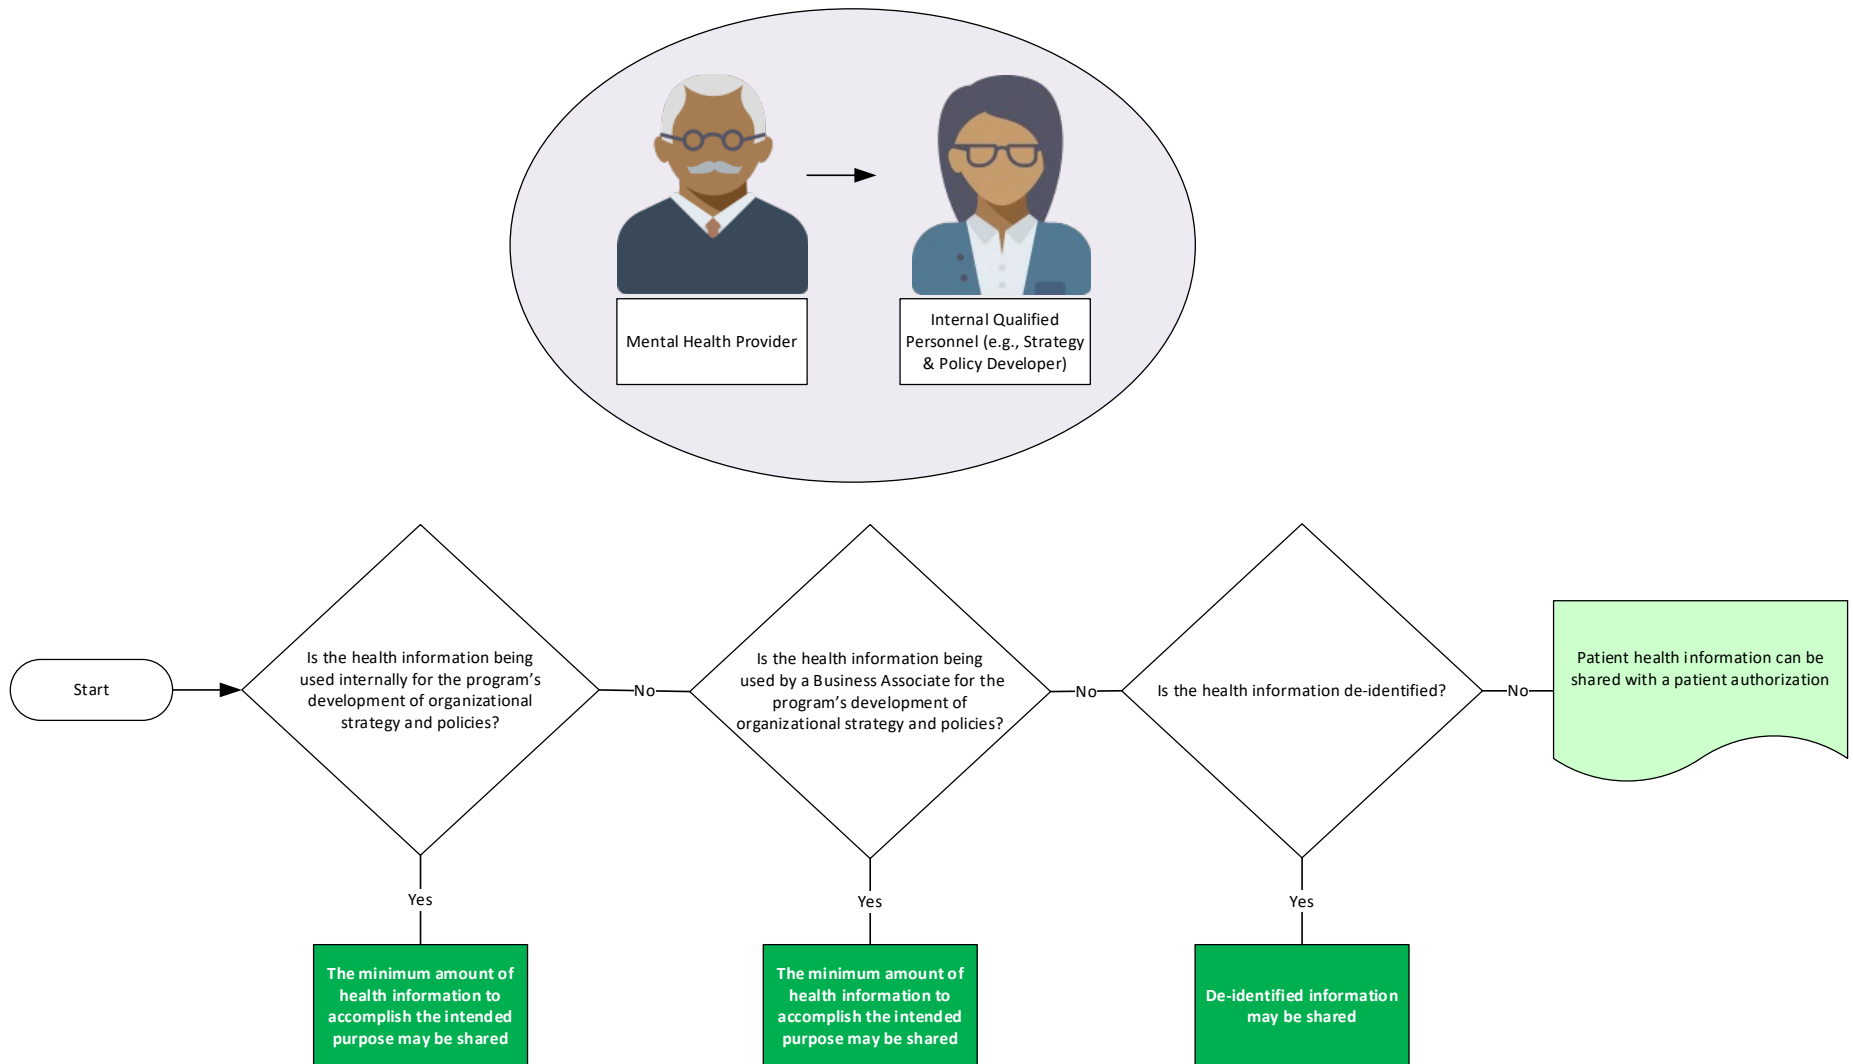

Like all organizations, a healthcare entity needs to develop strategies and policies to improve the effectiveness of the organization. In most cases strategic planning is performed by leadership and consulting teams, often using data that includes summarized patient information, public health, and industry trends, and changing regulations. When summarized, patient [health information](#) is used to inform development of organizational strategy and policy, it can provide distinct insights into opportunities and risks.

What patient health information can a behavioral health provider share with a team developing strategy and policy for an organization?

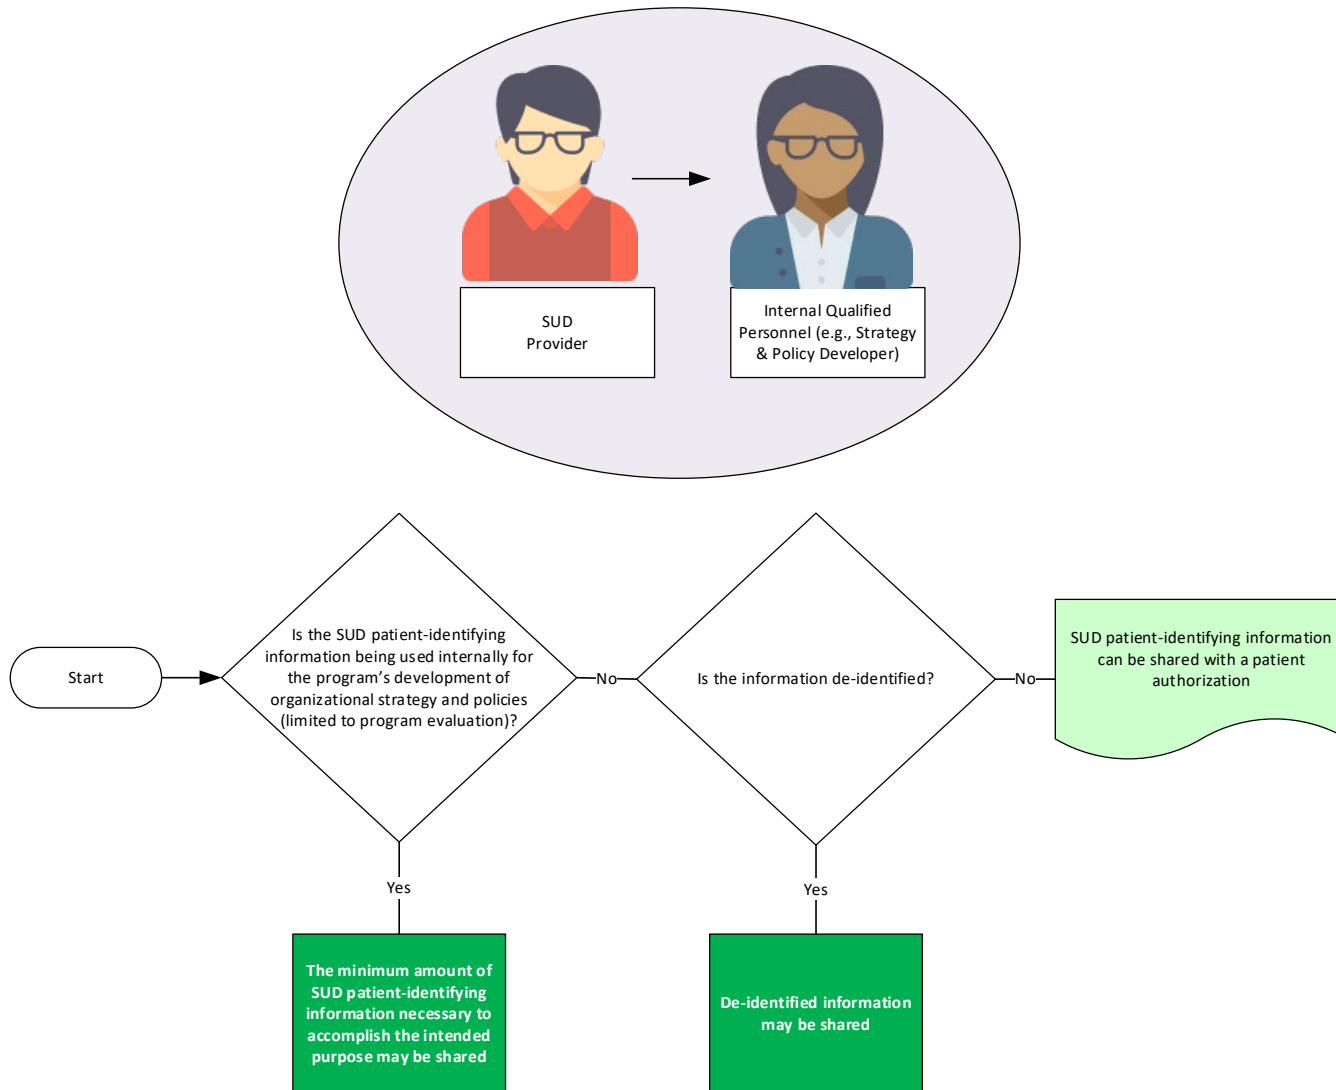

Important Scenario Guidance Assumptions:

- There is no patient or [patient's representative authorization](#)
- There is no court order
- [Mental health information](#) is regulated by Confidentiality of Medical Information Act (CMIA) or Lanterman-Petris-Short (LPS)
- Substance Use Disorder (SUD) information is regulated by 42 C.F.R. Part 2

Graphic - Behavioral Health Organization Policy and Strategy Development - Mental Health

Graphic - Behavioral Health Organization Policy and Strategy Development - Substance Use Disorder

Scenario Guidance – Behavioral Health Organization Policy and Strategy Development

[Behavioral health information](#) that identifies the patient is specially protected under federal and state laws. For purposes of developing organizational strategy and policy, behavioral health information can be shared with strategic planning teams, without a patient authorization, limited to the [minimum necessary](#) health information to accomplish the intended purpose, in the following ways:

[45 C.F.R. §§ 164.502(b)(1), 164.506(c).]

- When the mental health information is regulated by the Health Insurance Portability and Accountability Act (HIPAA) and either CMIA or LPS (but not regulated by California Health and Safety Code [HSC] § 11845.5 or 42 C.F.R. Part 2), it can be shared as part of the organization’s own [healthcare operations](#) (including [business associates](#)).

[45 C.F.R. §§ 164.501, 164.502(b)(1), 164.506; Cal. Civ. Code § 56.10(c)(3); Cal. Welf. & Inst. Code § 5328(a)(25).]

- The [SUD patient-identifying information](#) is regulated by 42 C.F.R. Part 2 and HIPAA, but the SUD treatment provider is not licensed by Department of Health Care Services (DHCS). The SUD treatment provider may disclose SUD patient-identifying information only for [program evaluation](#) to an internal team of qualified personnel developing organizational strategy or policy.

[42 C.F.R. § 2.12(c)(3) and (4); 45 C.F.R. §§ 164.501, 164.502(b)(1), 164.506; Cal. Civ. Code § 56.10(c)(3).]

If neither of the above conditions is met, the behavioral health information can be shared:

- If the health information has been [de-identified](#) according to HIPAA’s guidelines, or
- With a valid patient or patient’s representative authorization.

[42 C.F.R. §§ 2.31, 2.33.]

- 42 C.F.R. § 2.31.
- 42 C.F.R. § 2.33.
- 45 C.F.R. § 164.501.
- 45 C.F.R. § 164.502(b)(1).

- 45 C.F.R. § 164.506.
- 45 C.F.R. § 164.514(a) and (b).
- Cal. Civ. Code § 56.10.
- Cal. Welf. & Inst. Code § 5328(a)(25).
- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Law Enforcement

The sharing of patient [health information](#) at a [behavioral health](#) facility is limited, when requested by a [law enforcement official](#) (LEO). The specific information that can be shared depends on whether the facility is a substance use disorder (SUD) provider or facility (regulated by 42 C.F.R. Part 2 and California Health and Safety Code § 11845.5).

Scenario 14 - Law Enforcement Official Requesting Information from a Substance Use Disorder Treatment Facility

Description

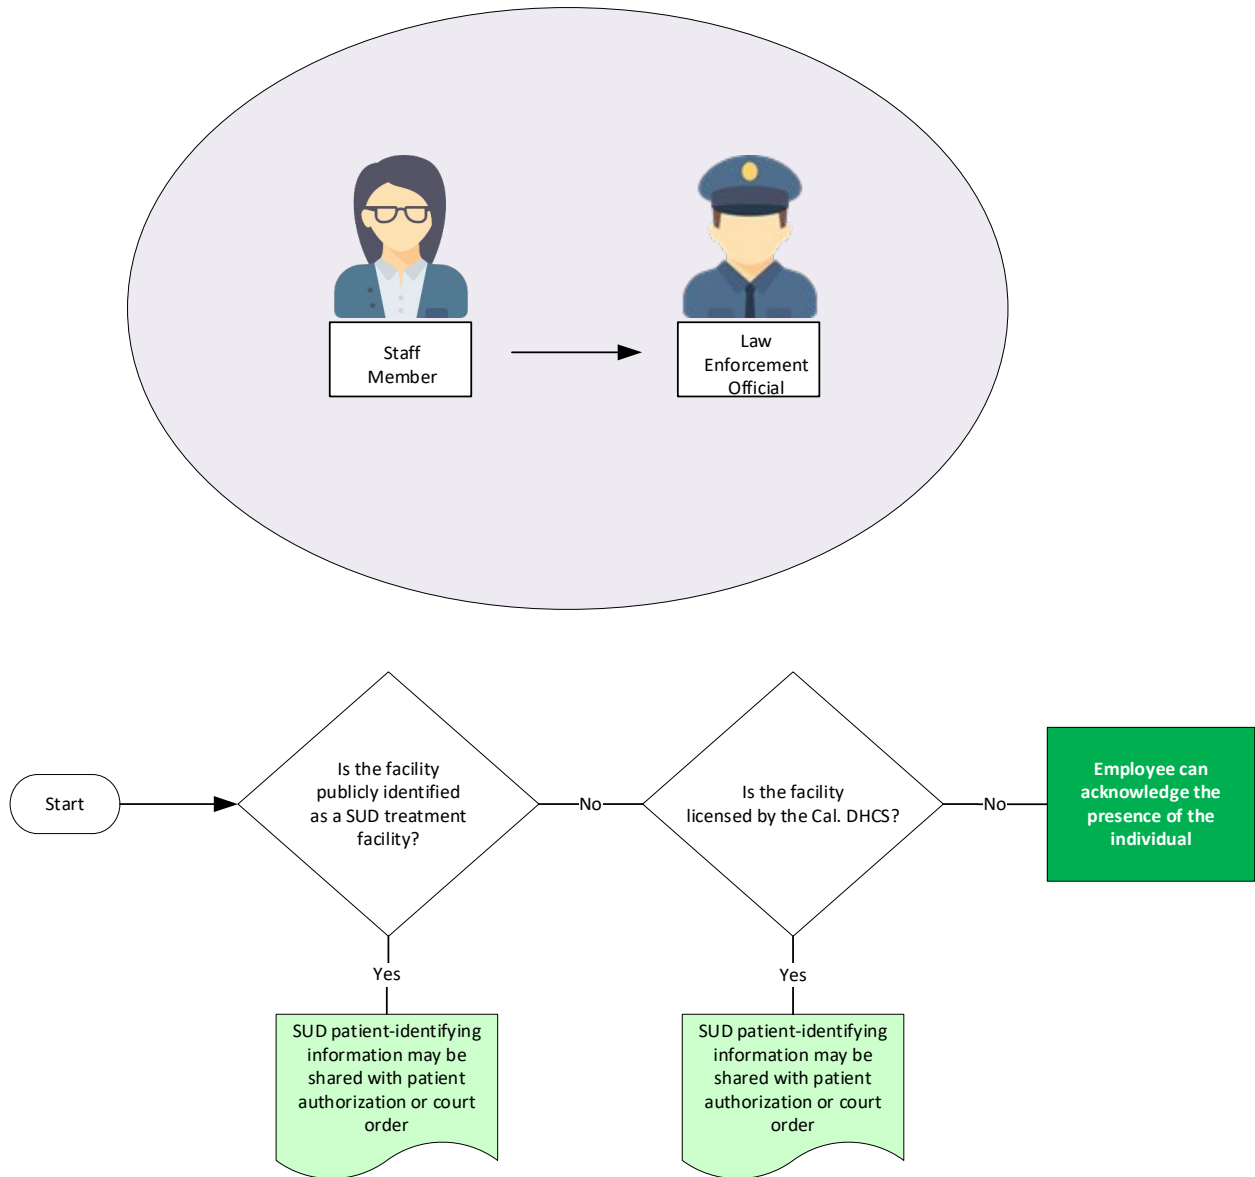

A [law enforcement official](#) (LEO) investigating a crime asks for information from an employee in the reception area of a substance use disorder (SUD) treatment facility regulated by 42 C.F.R. Part 2 and California Health and Safety Code (HSC) § 11845.5 about a person who is reportedly a patient.

What patient information can be shared with the law enforcement official?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- SUD information is regulated by 42 C.F.R. Part 2 and HSC § 11845.5

Graphic - Law Enforcement Official Requesting Information from a Substance Use Disorder Treatment Facility

Scenario Guidance – Law Enforcement Official Requesting Information from a Substance Use Disorder Treatment Facility

Employees of a publicly-identified SUD treatment facility or component of a healthcare facility regulated by 42 C.F.R. Part 2 and HSC § 11845.5 are limited by law regarding the [SUD patient-identifying information](#) they can provide to a LEO (such as police officer, sheriff's deputy, district attorney, or detective). Without a valid authorization or a court order to release SUD patient-identifying information, generally no information may be released.

[42 C.F.R. § 2.13(c)(1) – (c)(2); Cal. Health & Safety Code § 11845.5(a) – (b).]

Employees of a non-publicly identified SUD treatment facility or component of a healthcare facility, not licensed by California Department of Health Care Services (DHCS) but regulated by 42 C.F.R. Part 2 may acknowledge the presence of an individual. However, 42 C.F.R. Part 2 regulations do not require entities to acknowledge that an individual is a patient. No other SUD patient-identifying information may be disclosed without a valid authorization or court order.

[42 C.F.R. § 2.13(c)(1) – (c)(2); Cal. Civ. Code § 56.10.]

In any case, with a valid patient or patient's representative authorization, the SUD treatment facility you may disclose the patient-identifying health information.

- Cal. Civ. Code § 56.10.
- Cal. Health & Safety Code § 11845.5(a) – (b).
- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Scenario 15 - Law Enforcement Official Requesting Information from Mental Health Facility

Description

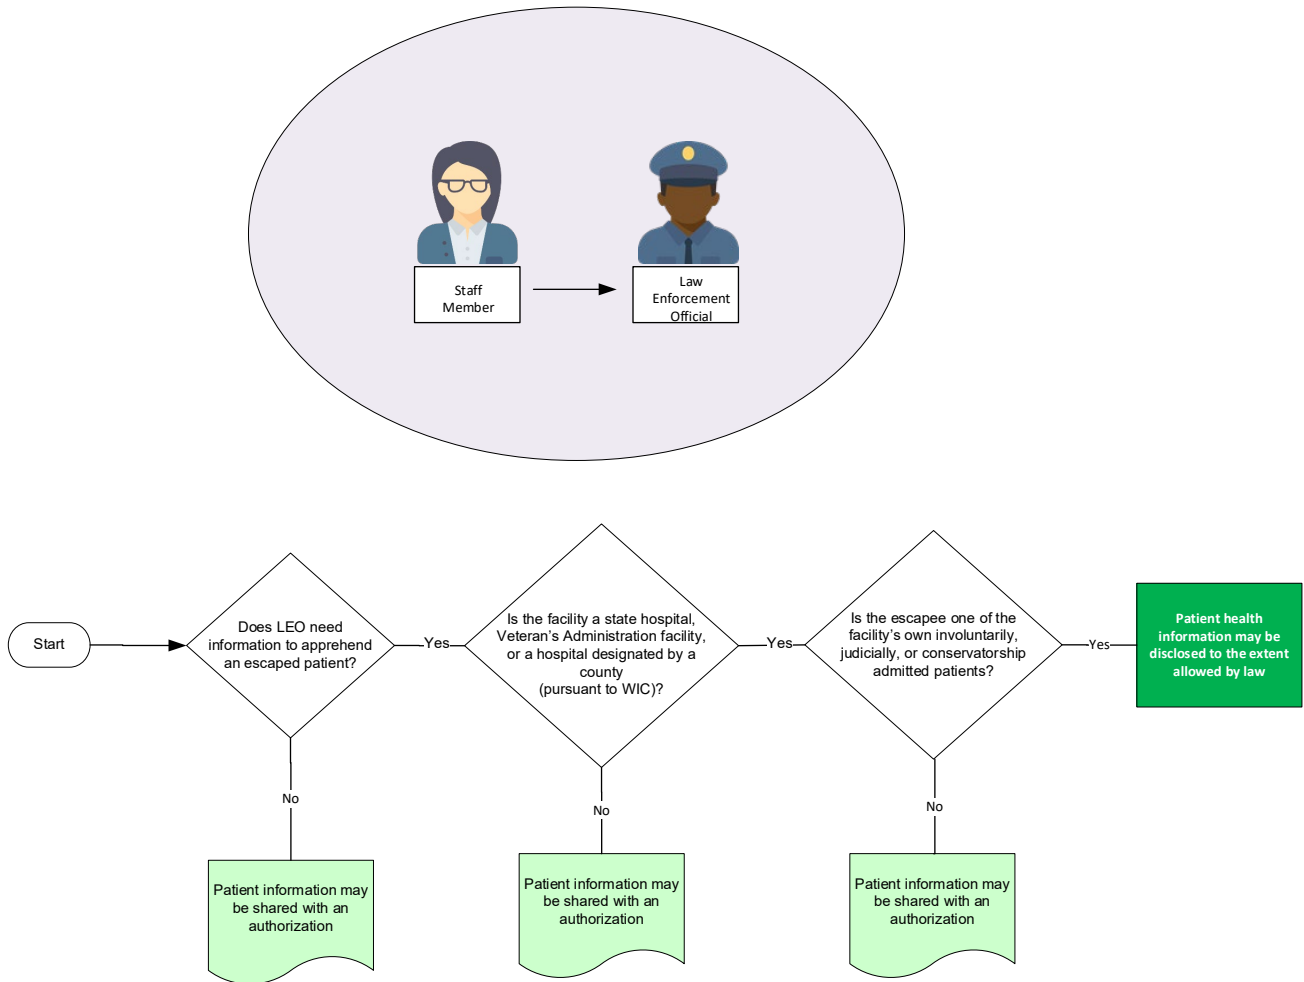

A [law enforcement official](#) (LEO) investigating a crime that did not occur on the premises of a mental health facility asks for patient information from an employee in the reception area of the facility, which is subject to the Lanterman-Petris-Short (LPS) Act.

What patient information can be shared with the law enforcement official?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult There is no patient or [patient's representative authorization](#)
- There is no court order or warrant
- Employee is authorized by the facility to access patient information
- [Mental health information](#) is regulated by LPS

Graphic - Law Enforcement Official Requesting Information from Mental Health Facility

Scenario Guidance – Law Enforcement Official Requesting Information from Mental Health Facility

Employees of a mental health facility regulated by the LPS are limited by law in the information they can provide to a LEO (such as police officer, sheriff’s deputy, or detective). Without a valid authorization or a court order to release patient-identifying information, generally no information may be released.

[Cal. Welf. & Inst. Code § 5328.]

However, to assist law enforcement with the apprehension of an escaped patient who is involuntarily, judicially, or conservatorship committed in a facility which is a state hospital, a Veteran’s Administration facility, or a hospital designated by a county pursuant to the Welfare and Institutions Code, patient information can be disclosed as needed to authorized LEO and agencies solely to help apprehend the patient. The information that can be disclosed includes, but limited to:

- Name and physical description of the patient
- Patient’s home address
- Degree of danger posed by the patient (including specific information about whether the patient is deemed likely to cause harm to himself or herself or to others)
- Any additional information necessary to apprehend and return the patient

[45 C.F.R. § 164.512(a) and (f); Cal. Welf. & Inst. Code §§ 7325, 7325.5.]

In any case, with a valid patient or patient’s representative authorization, the mental health facility may disclose the patient-identifying information.

Scenario 16 - Patient Being Released from Involuntary Hospitalization

Description

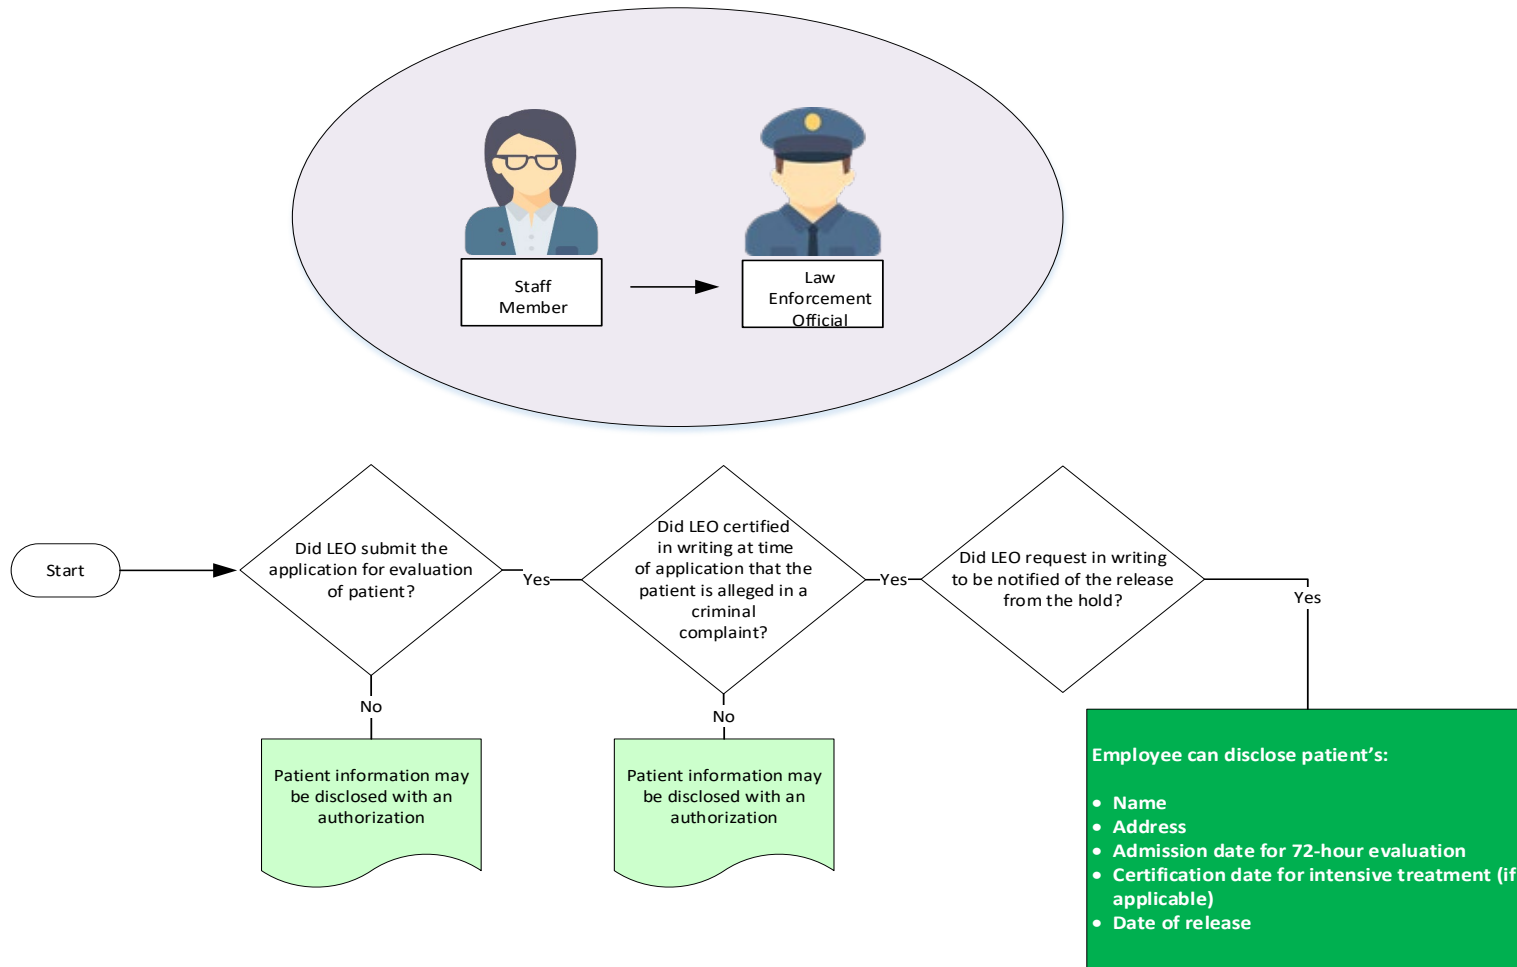

A [law enforcement official](#) (LEO) requests to be notified by an employee of a Lanterman-Petris-Short (LPS)-regulated mental health facility when an adult patient is released from an involuntary 72-hour evaluation and [treatment](#).

What patient information can be shared with the law enforcement official?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- Employee is authorized by the facility to access patient information
- [Mental health information](#) is regulated by LPS

Graphic - Patient Being Released from Involuntary Hospitalization

Scenario Guidance – Patient Being Released from Involuntary Hospitalization

Employees of a mental health facility regulated by LPS are limited by law in the information they can provide to a LEO (such as police officer, sheriff's deputy, or detective). Without a patient authorization or a court order to release information, an employee is allowed to [disclose](#) information to notify a LEO about release from a 72-hour (also applies to 14-day or 30-day) hold of a specific patient who is under criminal investigation.

The employee may notify the LEO about the release of a patient who was involuntarily detained if all of the following conditions are met:

- The LEO to whom the disclosure is to be made initiated the written request for the hold
- The LEO also requested in writing notification of release when the hold was initiated
- The LEO certified in writing that the patient is alleged to have committed a crime

The notice from the facility employee to the LEO is limited to:

- Person's name
- Address
- Admission date for evaluation
- Certification date for intensive treatment (if applicable, up to 14 or 30 additional days of treatment at the discretion of the facility's professional staff)
- Date of release

[45 C.F.R. § 164.512(f); Cal. Welf. & Inst. Code §§ 5152.1, 5250.1, 5270.15, 5328(a)(16).]

In any case, with a valid patient or patient's representative authorization, the mental health facility may disclose the patient-identifying information.

- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Public Safety and Public Health Policy

Federal regulations and state statutes allow for the [disclosure](#) of [health information](#) to safeguard individuals and the public from serious threats to their health and safety. Since such threats may be identified through mental health or substance use disorder (SUD) [treatment](#), privacy regulations and statutes address such situations.

In addition, public health departments and agencies create policies to fulfill their missions to protect the health and well-being of their constituents. Public health policy development often requires different types of patient data.

The extent [behavioral health information](#) can be shared to protect public safety and to contribute to the development of public health policy is determined by how the Health Insurance Portability and Accountability Act (HIPAA), the Confidentiality Medical Information Act (CMIA), the Lanterman-Petris-Short (LPS) Act, California Health and Safety Code (HSC) § 11845.5, and 42 C.F.R. Part 2 apply to the situational specifics.

Scenario 17 - Public Safety

Description

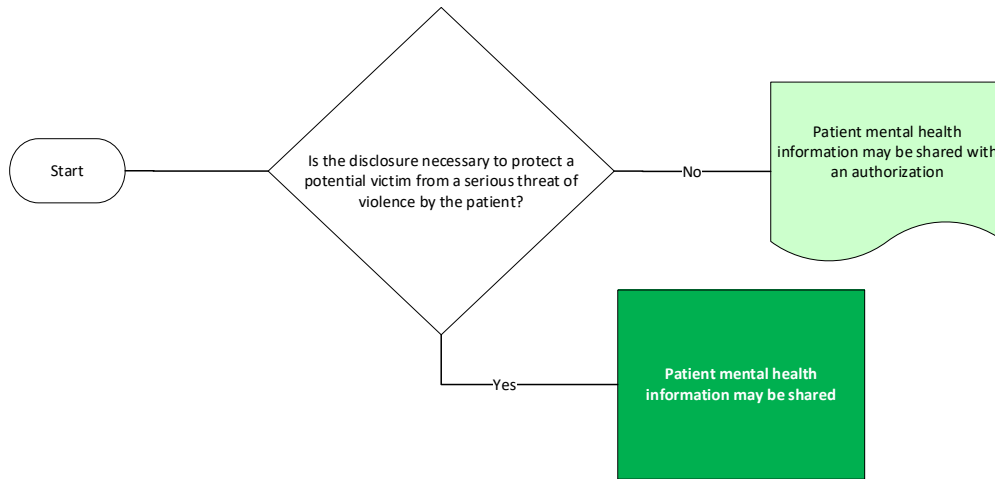

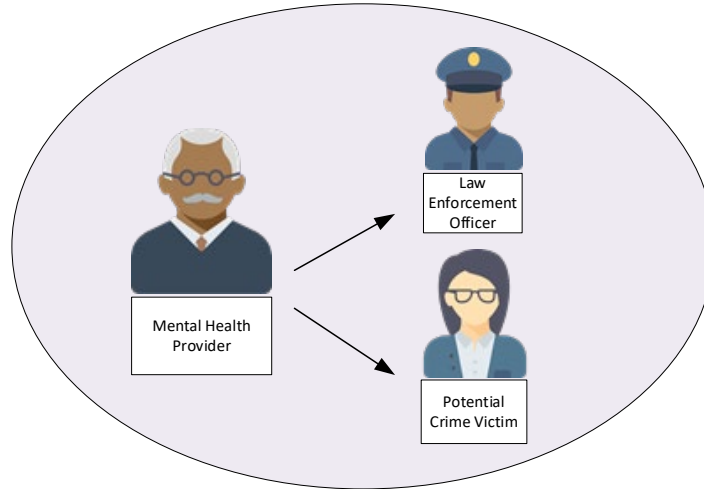

Under certain circumstances, federal and state [privacy](#) laws allow [health information](#) including patient [mental health information](#) or [substance use disorder \(SUD\) patient-identifying information](#) to be [disclosed](#) for the purpose of protecting public safety.

Under what circumstances can a behavioral health provider share patient health information to protect public safety?

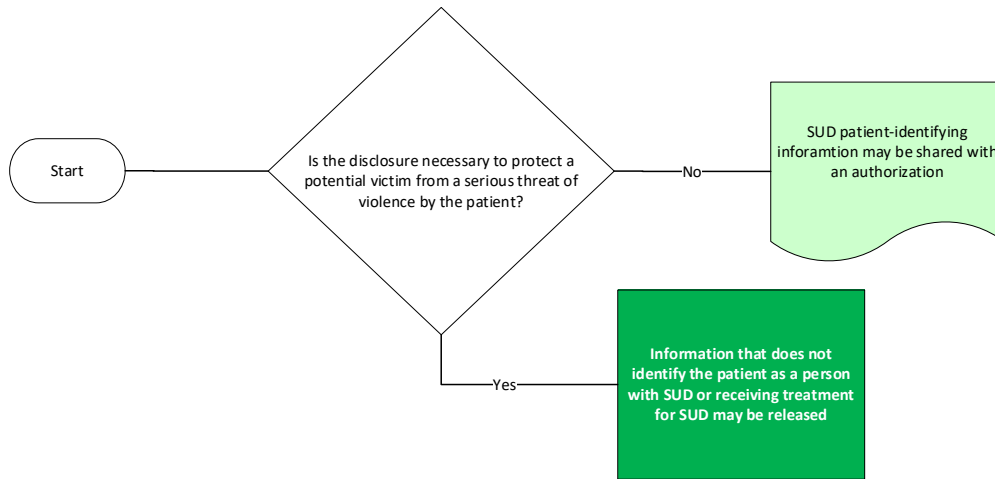

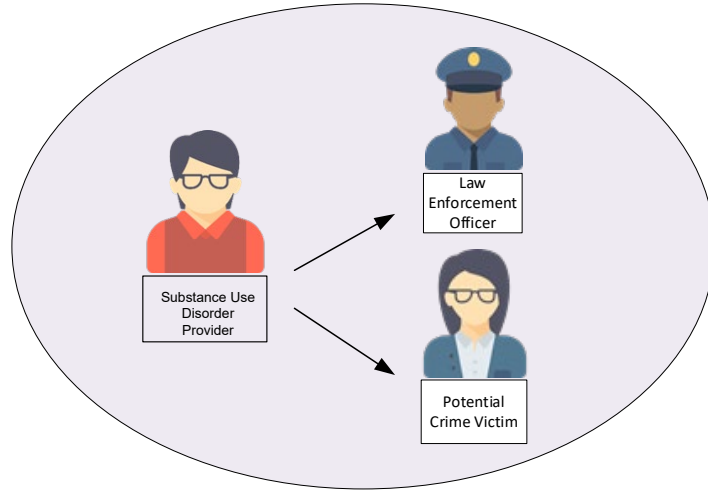

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- Mental health information is regulated by the Confidentiality Medical Information Act (CMIA) or Lanterman-Petris-Short (LPS) Act
- SUD health information is regulated by 42 C.F.R. Part 2

Graphic - Public Safety - Mental Health

Graphic - Public Safety - Substance Use Disorder

Scenario Guidance – Public Safety

A patient’s psychotherapist has a responsibility per all mental health information privacy laws to warn potential victims. If the psychotherapist believes a patient presents a serious danger of violence, he or she may release limited mental health information to potential victims, [law enforcement officials](#), or others when necessary if the psychotherapist determines the disclosure is needed to protect the health and safety of a person(s).

[45 C.F.R. § 164.512(j); Cal. Civ. Code § 56.10(c)(19); Cal. Welf. & Inst. Code § 5328(a)(18).]

A SUD treatment provider only regulated by 42 C.F.R. Part 2 may provide information that does not identify the patient as a person with a SUD or receiving treatment for a SUD in order to warn potential victims, law enforcement, or others.

[42 § C.F.R. 2.12(a); 45 C.F.R. § 164.512(j); Cal. Civ. Code § 56.10(c)(19).]

In any case, with a valid patient or patient’s representative authorization, the mental health or SUD treatment facility may disclose the patient-identifying information.

Citations and Related Guidance

- 42 C.F.R. § 2.12(a).
- 45 C.F.R. § 164.512(j).
- Cal. Civ. Code § 56.10(c)(19).
- Cal. Welf. & Inst. Code § 5328(a)(18).
- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Scenario 18 - Public Health Policy Development

Description

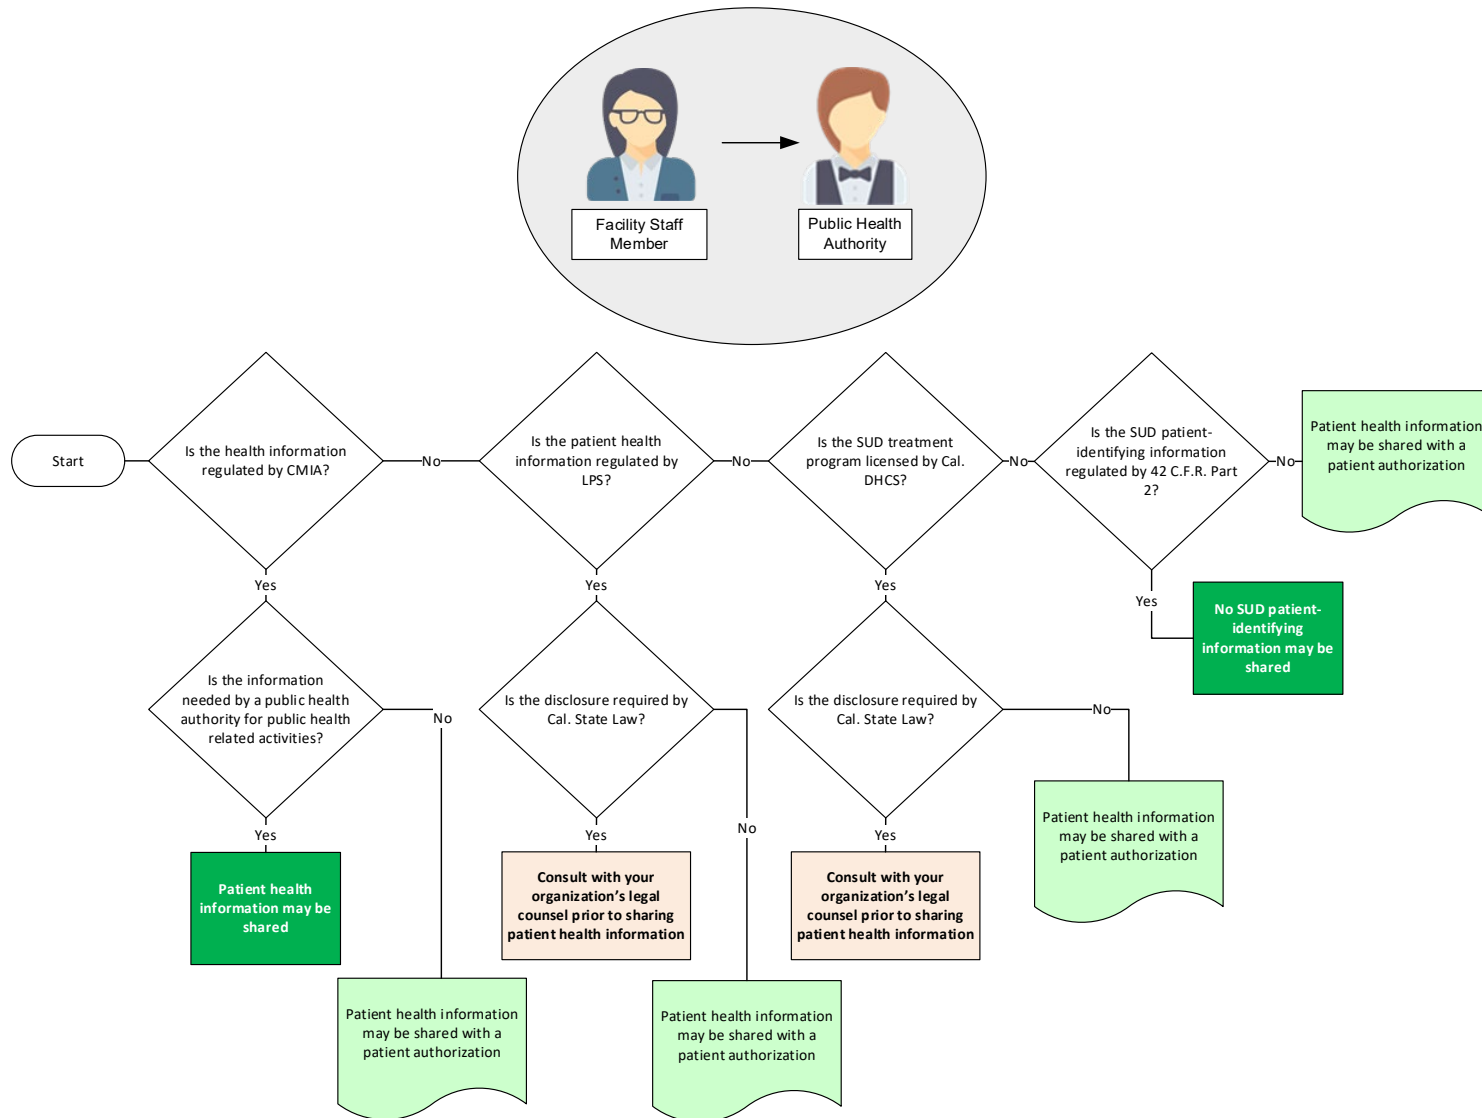

State and local health departments collect and assess the healthcare information of users of emergency department care in order to evaluate trends in emergency department use to develop strategies to achieve public health objectives (e.g., to prevent hospitalization, improve access to ambulatory care, perform surveillance for new or emerging trends in diseases and conditions). Such diagnoses and other information may include [mental health information](#) and [substance use disorder \(SUD\) patient-identifying information](#).

Under what circumstances can a provider share patient behavioral health information with public health departments for the purpose of developing public health programs?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- Exchange of information is for a purpose other than [treatment](#)

Graphic - Public Health Policy Development

Scenario Guidance – Public Health Policy Development

For purposes of determining and delivering the optimal types and locations of health programs, [behavioral health information](#) may be needed by public health authorities to achieve public health objectives. However, behavioral health information is specially-protected by federal and state laws and may be disclosed as described in the following paragraphs.

Mental Health Information

Mental health information regulated by the Health Insurance Portability and Accountability Act (HIPAA) and California Confidentiality of Medical Information Act (CMIA) permit [covered entities](#) to [disclose](#) health information without authorization to public health authorities for public health-related activities not related to direct treatment. However, mental health information regulated by Lanterman-Petris-Short Act (LPS) is more restrictive and does not allow disclosure without patient authorization for public health purposes.

[45 C.F.R. § 164.512(b); Cal. Civ. Code § 56.10(b), (c)(5) and (7); Cal. Welf. & Inst. Code § 5328.15.]

To further complicate LPS-regulated disclosures, other California state laws require disclosure for public health purposes. When a disclosure is required by California law and is contrary to LPS, an organization needs to determine whether the required reporting laws are more specific and later enacted. In such complex cases, it is recommended that organization work with their legal departments or counsel to determine which statutes take precedence. For example, the California law may supersede the older and more general LPS regulation (e.g., Cal. Health & Safety Code § 121022 requires reporting of cases of HIV infection to local health officers).

[45 C.F.R. § 164.512(b); Cal. Welf. & Inst. Code § 5328; State Department of Public Health v. Superior Court (2015) 60 Cal.4th 940, 954.]

Substance Use Disorder Information

SUD patient-identifying information regulated by California Health and Safety Code (HSC) § 11845.5 (but not 42 C.F.R. Part 2) is specially protected and does not allow disclosure without patient authorization for public health purposes. To further complicate these SUD patient-identifying information disclosures, other California state laws require disclosure for public health purposes. When a disclosure is required by California law and is contrary to HSC, an organization needs to determine whether the required reporting laws are specific and later enacted. In such complex cases, it is recommended that organization work with their legal departments or counsel to determine which statutes take precedence. For example, the California law may supersede the older and more general HSC (e.g., Cal. Health & Safety Code § 121022 requires reporting of cases of HIV infection to local health officers).

[45 C.F.R. § 164.512(b); Cal. Health & Safety Code § 11845.5; State Department of Public Health v. Superior Court (2015) 60 Cal.4th 940, 954.]

SUD patient-identifying information regulated by 42 C.F.R. Part 2 is specially protected under federal law. Without patient authorization, disclosures for public health are not permitted if the disclosures identify an individual directly or indirectly as having a current or past drug or alcohol problem, or as a participant in a [SUD treatment program](#). However, disclosure is permitted if the information is released in a way that does not identify the patient in any way as having a SUD or receiving SUD treatment.

[42 C.F.R. §§ 2.12, 2.33; 45 C.F.R. § 164.514(a) and (b); Cal. Civ. Code § 56.10(b), (c)(5) and (7).]

In any case, with a valid patient or patient’s representative authorization, disclosure of the SUD patient-identifying information is permitted.

[42 C.F.R. §§ 2.31, 2.33; Cal. Health & Safety Code 11845.5; Cal. Welf. & Inst. Code 5328(a)(2).]

- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Health Information Exchange

[Health information exchange \(HIE\)](#) is defined as the processes and methodologies to electronically move [health information](#) among different healthcare information systems while maintaining the [integrity](#) and [security](#) of the information moved. This type of electronic exchange is usually enabled by a [health information organization \(HIO\)](#) that oversees and governs the exchange of the health information among participants and stakeholders to improve healthcare, usually within a specific region or community.

While HIOs offer benefits to participants and patients, they also introduce unique challenges with respect to managing [privacy](#) and security practices and policies. The HIO and its participants are responsible to comply with the laws protecting the privacy of [mental health information](#) and [substance use disorder \(SUD\) patient-identifying information](#) as it moves within the HIO and participants' health information systems.

Some HIOs in California simply provide the services and infrastructure to pass information between HIO participants. Other HIOs maintain databases to store data and use security safeguards that appropriately controls participant access to the data. The HIO-based scenarios that follow assume the latter approach.

Note: Organizations participating in the CalHHS Data Exchange Framework (DxF) shall execute the DxF Data Sharing Agreement, and comply with the DxF policies and procedures.

[Cal. Health & Safety Code § 130290.]

Scenario 19 - Substance Use Disorder Provider to Health Information Organization

Description

A substance use disorder (SUD) provider plans to transmit [SUD patient-identifying information](#) to store it at a [health information organization](#) (HIO) in a secure environment.²⁰

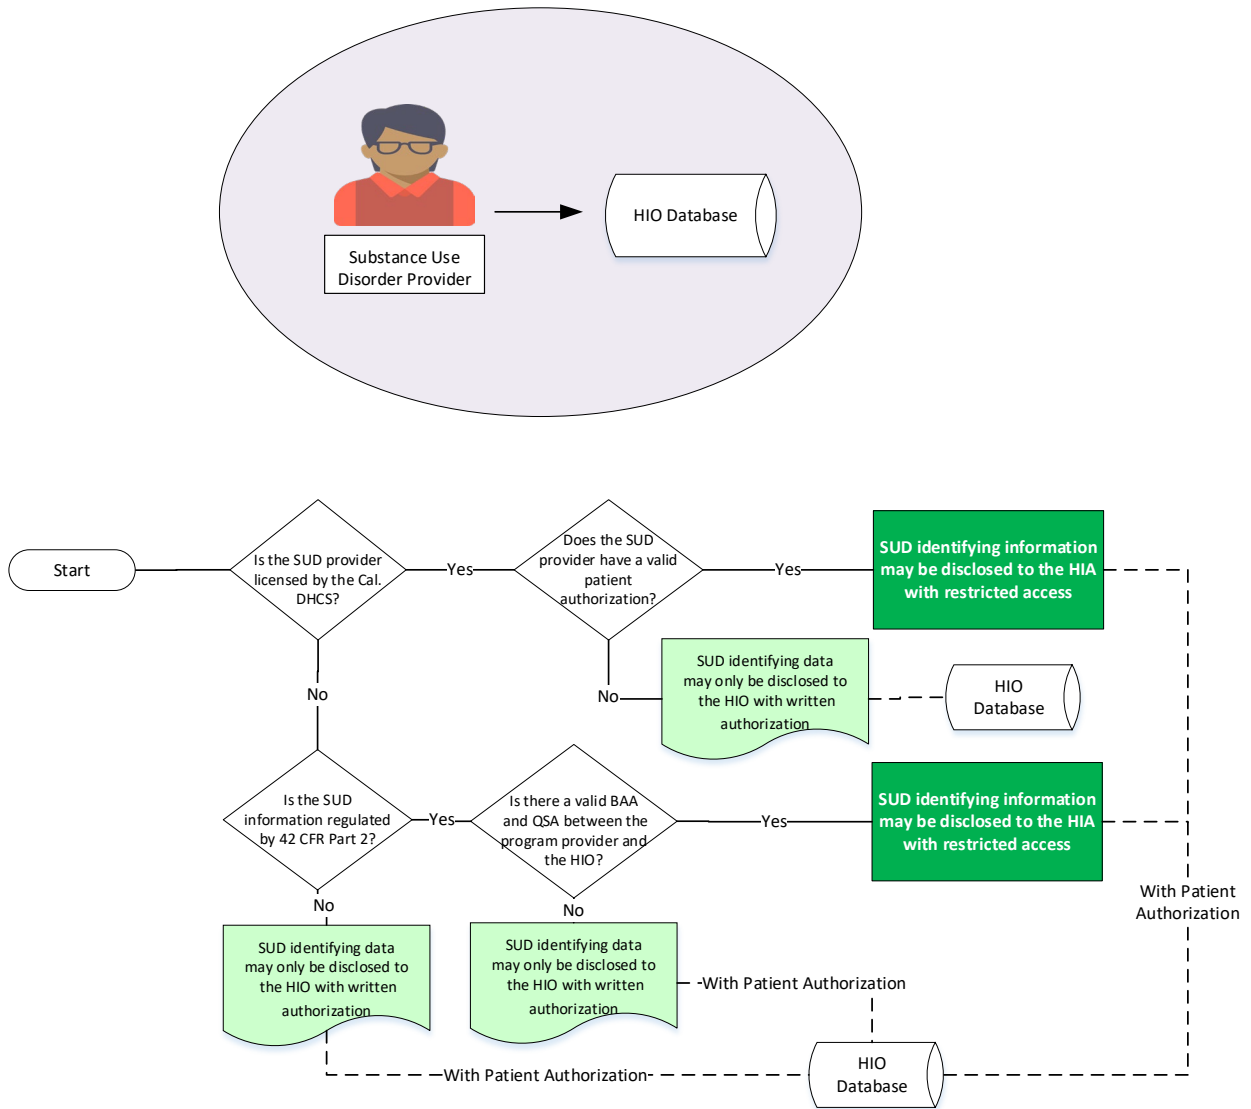

What SUD patient-identifying information can a SUD provider store at a HIO?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- SUD health information is regulated by 42 C.F.R. Part 2 and California Health and Safety Code (HSC) § 11845.5

²⁰ For more information, refer to <https://www.samhsa.gov/about-us/who-we-are/laws-regulations/confidentiality-regulations-faqs>, a website maintained by Substance Abuse and Mental Health Services Administration (SAMSHA) and the U.S. Department of Health and Human Services (HHS), and the imbedded link to [Frequently Asked Questions Applying the Substance Abuse Confidentiality Regulations to Health Information Exchange \(HIE\)](#), an educational document developed by SAMSHA and HHS in collaboration with the Office of the National Coordinator for Health Information Technology (2010).

Graphic - Substance Use Disorder Provider to Health Information Organization

Scenario Guidance – Substance Use Disorder Provider to Health Information Organization

42 C.F.R. Part 2 applies to facilities and providers that are [federally-assisted SUD treatment programs](#), which includes most [treatment](#) programs in California. SUD patient-identifying information is any information that would identify an individual as having a current or past SUD.

For SUD treatment providers that are licensed by the Department of Health Care Services (DHCS), [health information](#) shared with and to an HIO requires a patient or patient’s representative authorization. Unlike other health information [privacy](#) laws, HSC § 11845.5 allows an authorization to broadly define how the patient’s information can be shared. A valid HSC authorization must:

- Clearly state the purposes for sharing
- Be in writing and signed by the patient or patient’s representative

[Cal. Health & Safety Code § 11845.5.]

However if the SUD treatment provider works for a program/facility regulated by 42 C.F.R. Part 2 that is not licensed by DHCS, the SUD treatment provider can share SUD patient-identifying information to the HIO without patient authorization but with a valid [business associate agreement](#) (BAA) and [qualified service organization agreement](#) (QSOA).

[42 C.F.R. § 2.12(a)(1); 45 C.F.R. § 164.308(b); Cal. Civ. Code § 56.10 et seq.]

Patient authorization is required to allow an HIO to disclose the 42 C.F.R. Part 2 information to other HIO affiliated members, with certain exceptions (Refer to [Scenario 21 - Substance Use Disorder Information from Health Information Organization to Health Information Exchange User](#)).

If none of the above conditions are met, then SUD patient identifying information can be shared with a valid patient or patient’s representative authorization.

[42 C.F.R. § 2.31.]

When disclosing in response to a 42 C.F.R Part 2 patient authorization, the SUD treatment provider must submit a written statement indicating the information disclosed is protected by federal law and cannot be further disclosed unless permitted by regulations. This written statement must accompany each disclosure made with patient authorization. Information disclosed electronically must have an accompanying electronic notice prohibiting re-disclosure. Under 42 C.F.R. § 2.32, one of the following statements must be used:

(a)

“This record which has been disclosed to you is protected by Federal confidentiality rules (42 CFR part 2). These rules prohibit you from using or disclosing this record, or testimony that describes the information contained in this record, in any civil, criminal, administrative, or legislative proceedings by any Federal, State, or local authority, against the patient, unless authorized by the consent of the patient, except as provided at 42 CFR 2.12(c)(5) or as authorized by a court in accordance with 42 CFR 2.64 or 2.65. In addition, the Federal rules prohibit you from making any other use or disclosure of this record unless at least one of the following applies:

i. Further use or disclosure is expressly permitted by the written consent of the individual whose information is being disclosed in this record or as otherwise permitted by 42 CFR part 2

ii. You are a covered entity or business associate and have received the record for treatment, payment, or health care operations, or

iii. You have received the record from a covered entity or business associate as permitted by 45 CFR part 164, subparts A and E. A general authorization for the release of medical or other information is NOT sufficient to meet the required elements of written consent to further use or redisclose the record (see 42 CFR 2.31).”

- or -

(b)

“42 CFR part 2 prohibits unauthorized use or disclosure of these records.”

[42 C.F.R. § 2.32.]

Scenario 20 - Mental Health Provider to Health Information Organization

Description

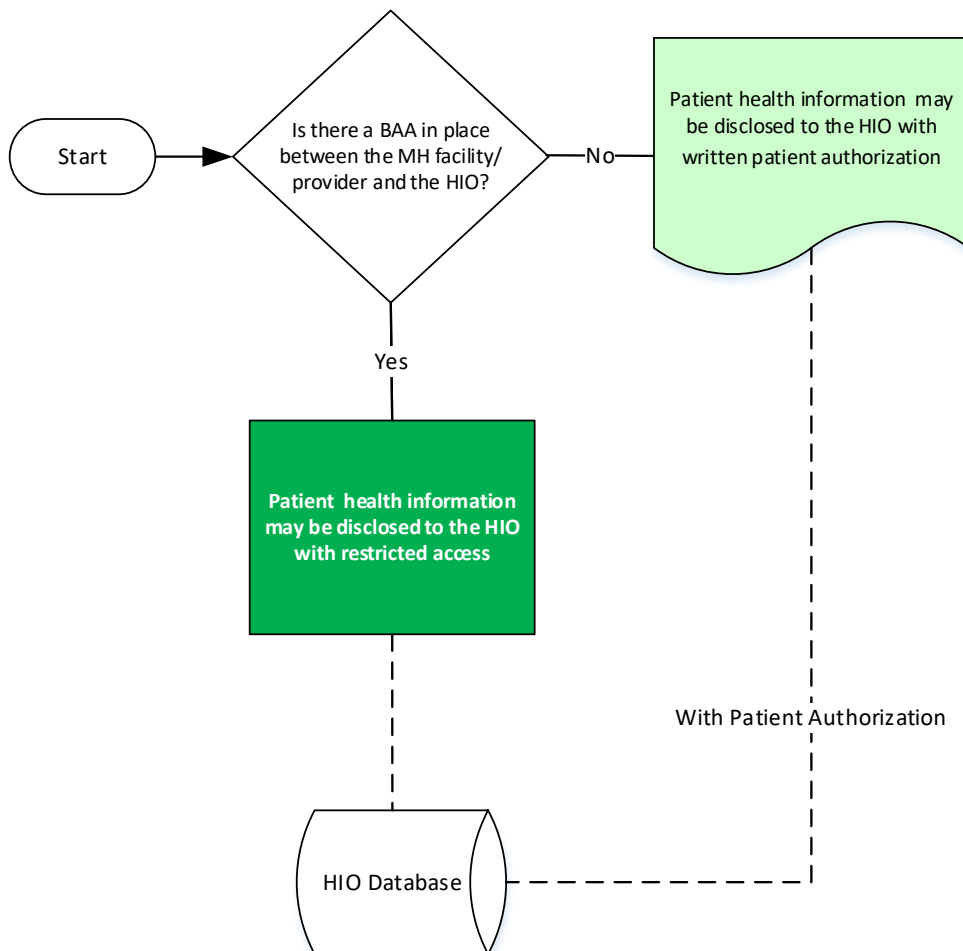

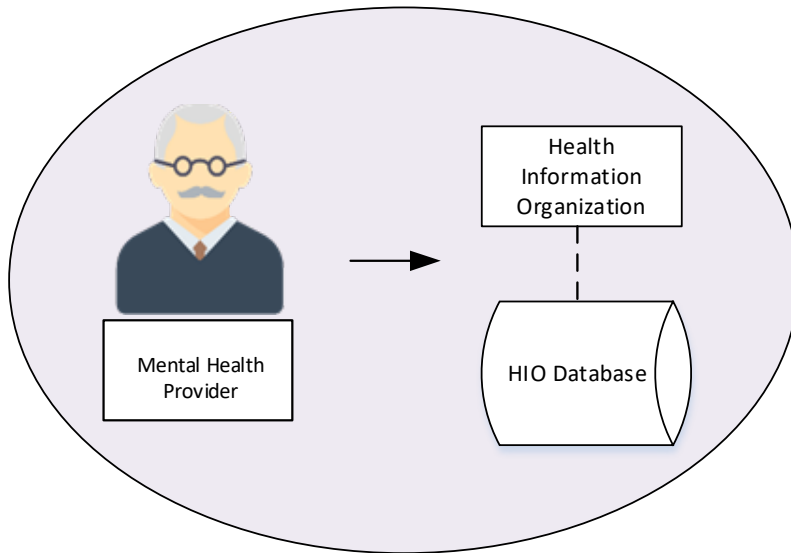

A mental health provider plans to transmit Lanterman-Petris-Short (LPS)-regulated [health information](#) to store it at a [health information organization](#) (HIO) in a secure environment.

What mental health information can a mental health provider store at a HIO?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- Mental health information is regulated by LPS

Graphic - Mental Health Provider to Health Information Organization

Scenario Guidance – Mental Health Provider to Health Information Organization

The HIO and its participants are responsible to comply with the laws protecting the [privacy](#) of mental health information as it moves within and across the health information exchange (HIE). Mental health information and related information are specially protected. In most circumstances, mental health information may only be shared with the authorization of the patient or patient’s representative.

[45 C.F.R. § 164.502(a); Cal. Welf. & Inst. Code § 5328.]

Despite the restrictions, facilities and providers subject to LPS may share information with an HIO provided a [business associate agreement](#) (BAA) is in place.

[42 U.S.C. § 17938; 45 C.F.R. §§ 164.308(b), 164.314(a); Cal. Welf. & Inst. Code § 5328(a)(25).]

The HIO must implement safeguards to protect the privacy and [security](#) of the health information as required by the Health Insurance Portability and Accountability Act (HIPAA) and California law.

[45 C.F.R. §§ 164.306, 164.308(a); Cal. Health & Safety Code § 1280.18.]

If the HIO does not have a BAA in place, the mental health information can be shared with a valid patient or patient’s representative authorization.

[C.F.R. § 164.508(b); Cal. Welf. & Inst. Code § 5328(a)(2).]

Scenario 21 - Substance Use Disorder Information from Health Information Organization to Health Information Exchange User

Description

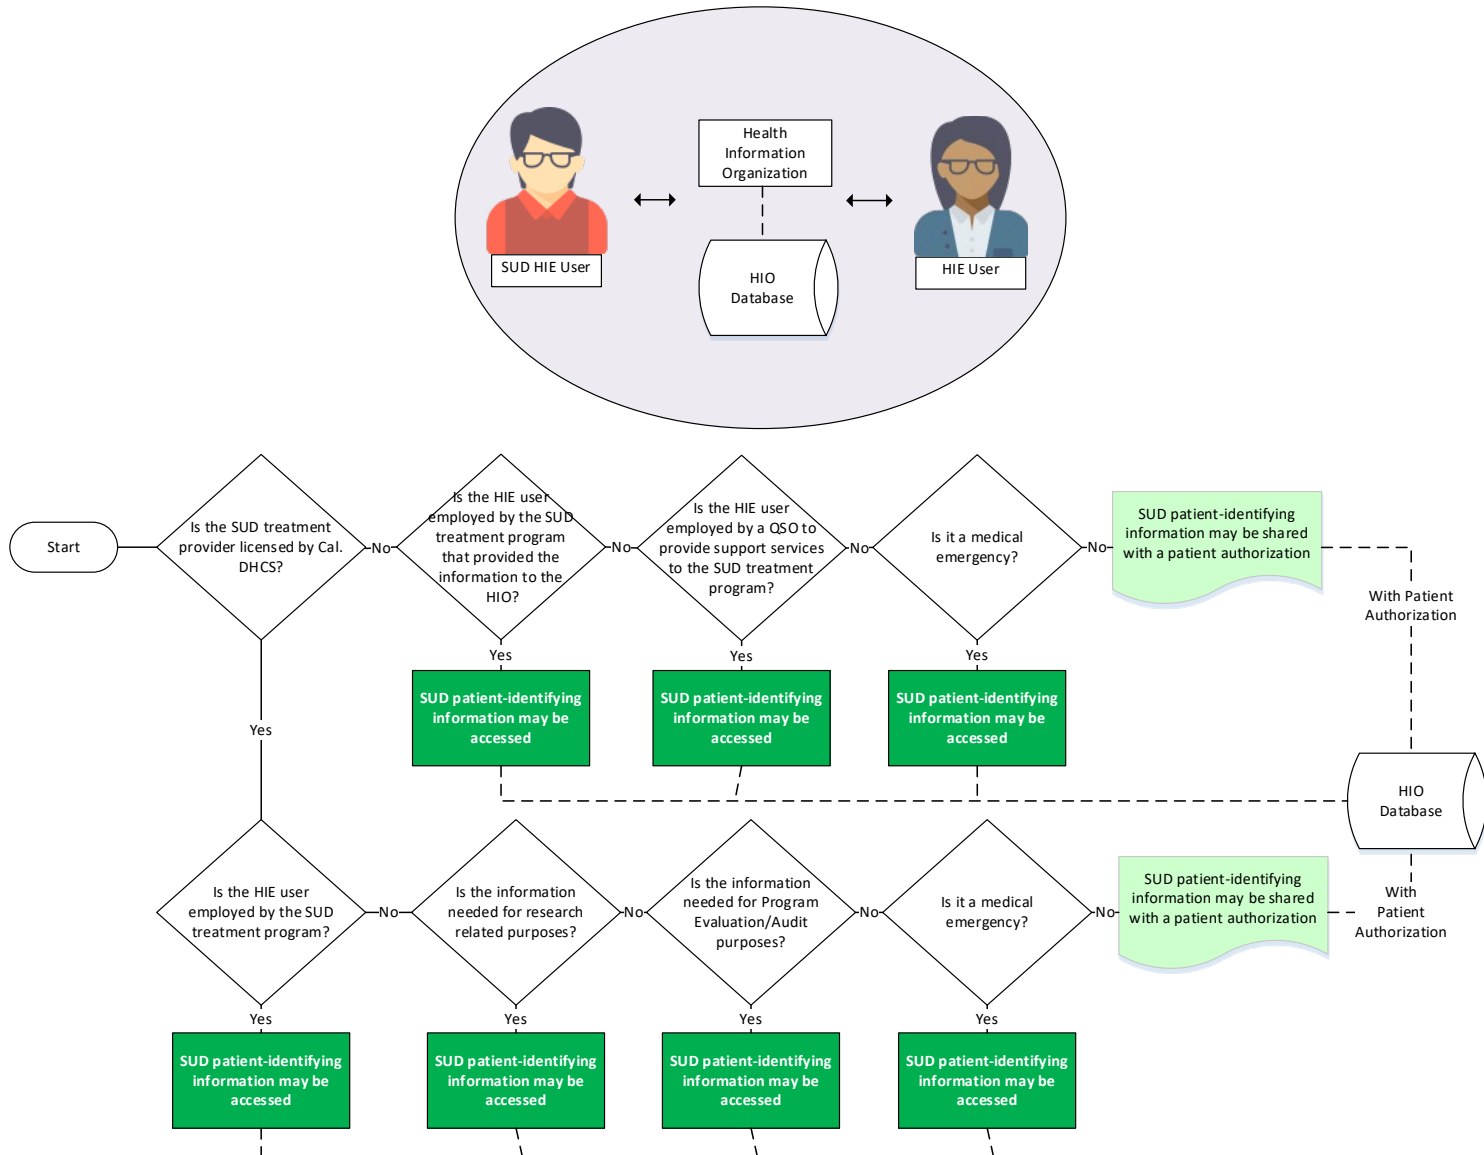

A [health information exchange \(HIE\)](#) user wants to access [substance use disorder \(SUD\) patient-identifying information](#) from a [health information organization \(HIO\)](#) database. The HIE user is a credentialed individual who has access to the information based on his or her roles and responsibilities. The HIO is in possession of and maintains secure [health information](#). The HIO governs access to patient information through permissions specific to user roles.

Can a HIE user access substance use disorder patient information from an HIO?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- There is no medical emergency
- The HIE user that provided the patient information to the HIO is a SUD health provider regulated by 42 C.F.R. Part 2

Graphic - Substance Use Disorder Information from Health Information Organization to Health Information Exchange User

Scenario Guidance – Substance Use Disorder Information from Health Information Organization to Health Information Exchange User

SUD patient-identifying information is specially protected. [Disclosure](#) without a patient authorization of any patient information that identifies an individual directly or indirectly as having a current or past drug or alcohol problem, or as a participant in a covered program, is strictly regulated for any [SUD treatment program](#) that receives [federal assistance](#). Since federal assistance is broadly defined in regulations and includes Medicare and Medicaid (Medi-Cal)²¹ [payments](#), a large part of SUD patient-identifying information falls under 42 C.F.R. Part 2 regulations.

[42 C.F.R. § 2.12; 45 C.F.R. § 164.508(b).]

A SUD treatment provider licensed by California Department of Health Care Services (DHCS) must also comply with Health and Safety Code (HSC) § 11845.5. HSC § 11845.5 strictly regulates access to SUD patient-identifying information. Without a patient authorization, SUD patient-identify information can be accessed for the following purposes:

- By employees to provider services within the SUD treatment program
- [Research](#)
- [Program evaluation](#) and audits
- By a provider to provide [treatment](#) in a medical emergency

A valid patient or patient’s representative authorization is needed to share SUD patient-identifying information for any other purpose.

[42 C.F.R. §§ 2.12(c), 2.51, 2.52, 2.53; 45 C.F.R. §§ 164.308(b), 164.506, 164.512; Cal. Health & Safety Code § 11845.5.]

If the facility or treatment program is not licensed by DHCS, a SUD treatment provider may share information with an HIO without a patient authorization under certain conditions (refer to [Scenario 19 – Substance Use Disorder Provider to Health Information Organization](#)).²² Once the patient’s information is stored within an HIO’s database, HIE users can access the SUD patient-identifying information without an authorization if at least one of the following conditions is met:

²¹ Medi-Cal is the State of California’s Medicaid program.

²² For more information, refer to <https://www.samhsa.gov/about-us/who-we-are/laws-regulations/confidentiality-regulations-faqs>, a website maintained by Substance Abuse and Mental Health Services Administration (SAMSHA) and the U.S. Department of Health and Human Services (HHS), and the imbedded link to [Frequently Asked Questions Applying the Substance Abuse Confidentiality Regulations to Health Information Exchange \(HIE\)](#), an educational document developed by SAMSHA and HHS in collaboration with the Office of the National Coordinator for Health Information Technology (2010).

- The HIE user accessing the SUD patient-identifying information is employed by the program (or an organization with direct administrative control of the program) that provided the SUD patient-identifying information to the HIO.
[42 C.F.R. § 2.12(c)(3); 45 C.F.R. § 164.506; Cal. Civ. Code § 56.10.]
- The HIE user accessing the SUD patient-identifying information is employed by a [qualified service organization \(QSO\)](#) to provide support services to the program. The QSO must have a [business associate agreement](#) (BAA) and a [qualified service organization agreement](#) (QSOA) in effect with the program. A QSO may not re-disclose SUD patient-identifying information without written patient authorization.
[42 C.F.R. §§ 2.11, 2.12(c)(4), 2.32; Cal. Civ. Code § 56.10.]
- The HIE user may access patient health information for purposes permitted by the Health Insurance Portability Accountability Act (HIPAA) if the information accessed does not identify the patient in any way as having a SUD or receiving SUD treatment.
[42 C.F.R. § 2.12(a)(1); 45 C.F.R. §§ 164.308(b), 164.506, 164.512; Cal. Civ. Code § 56.10.]
- The HIE user may access SUD patient-identifying information for purposes of responding to a medical emergency (refer to [Scenario 8 - In the Event of Emergency](#)).
[42 C.F.R. § 2.51(a); 45 C.F.R. § 164.506(a); Cal. Civ. Code § 56.10.]
- An HIO that is a QSO and has a QSOA and BAA with a program may disclose SUD patient identifying information with a second program when a patient authorization requests the disclosure.
[42 C.F.R. §§ 2.12(c)(4), 2.31; 45 C.F.R. §§ 164.308(b), 164.502(a), 164.506(a), 164.512; Cal. Civ. Code § 56.10.]

If none of the above conditions are met, the SUD patient-identifying information can be accessed by an HIE user with a valid patient or patient’s representative authorization that expressly allows further disclosure. For example, the patient authorization that permits the HIO to obtain the patient’s health information also expressly states that the HIO can disclose to the patient’s treating physicians.

The HIO can honor a SUD patient’s authorization for a general designation, such as “to all my current and past treating physicians,” assuming the HIO can determine which participants have a treating provider relationship with the patient (for more information about 42 C.F.R. Part 2 authorization requirements, refer to [Appendix 2 – Patient Authorizations for Use or Disclosure](#)).
[42 C.F.R. § 2.31; 45 C.F.R. § 164.508(b).]

A list of entities to whom disclosures of SUD patient-identifying information were made under a general designation must be provided to the patient upon request. In addition, the HIO must capture specific information for disclosures made for medical emergencies and notify the patient's SUD treatment program.²³

[42 C.F.R. §§ 2.13(d), 2.51(c).]

When an HIO discloses SUD patient-identifying information in response to a patient authorization, a written statement indicating the information disclosed is protected by federal law and cannot be further disclosed unless permitted by regulations must accompany each disclosure. Information disclosed electronically must have an accompanying electronic notice prohibiting re-disclosure. Under 42 C.F.R. § 2.32, one of the following statements must used:

(a)

"This record which has been disclosed to you is protected by Federal confidentiality rules (42 CFR part 2). These rules prohibit you from using or disclosing this record, or testimony that describes the information contained in this record, in any civil, criminal, administrative, or legislative proceedings by any Federal, State, or local authority, against the patient, unless authorized by the consent of the patient, except as provided at 42 CFR 2.12(c)(5) or as authorized by a court in accordance with 42 CFR 2.64 or 2.65. In addition, the Federal rules prohibit you from making any other use or disclosure of this record unless at least one of the following applies:

- i. Further use or disclosure is expressly permitted by the written consent of the individual whose information is being disclosed in this record or as otherwise permitted by 42 CFR part 2*
- ii. You are a covered entity or business associate and have received the record for treatment, payment, or health care operations, or*
- iii. You have received the record from a covered entity or business associate as permitted by 45 CFR part 164, subparts A and E. A general authorization for the release of medical or other information is NOT sufficient to meet the required*

²³ For more information, refer to <https://www.samhsa.gov/about-us/who-we-are/laws-regulations/confidentiality-regulations-faqs>, a website maintained by Substance Abuse and Mental Health Services Administration (SAMSHA) and the U.S. Department of Health and Human Services (HHS), and the imbedded link to [Frequently Asked Questions Applying the Substance Abuse Confidentiality Regulations to Health Information Exchange \(HIE\)](#), an educational document developed by SAMSHA and HHS in collaboration with the Office of the National Coordinator for Health Information Technology (2010).

elements of written consent to further use or redisclose the record (see 42 CFR 2.31).”

- or -

(b)

“42 CFR part 2 prohibits unauthorized use or disclosure of these records.”

[42 C.F.R. § 2.32.]

- [Appendix 2 - Patient Authorization for Use or Disclosure](#)

Scenario 22 - Mental Health Information from Health Information Organization to Health Information Exchange User

Description

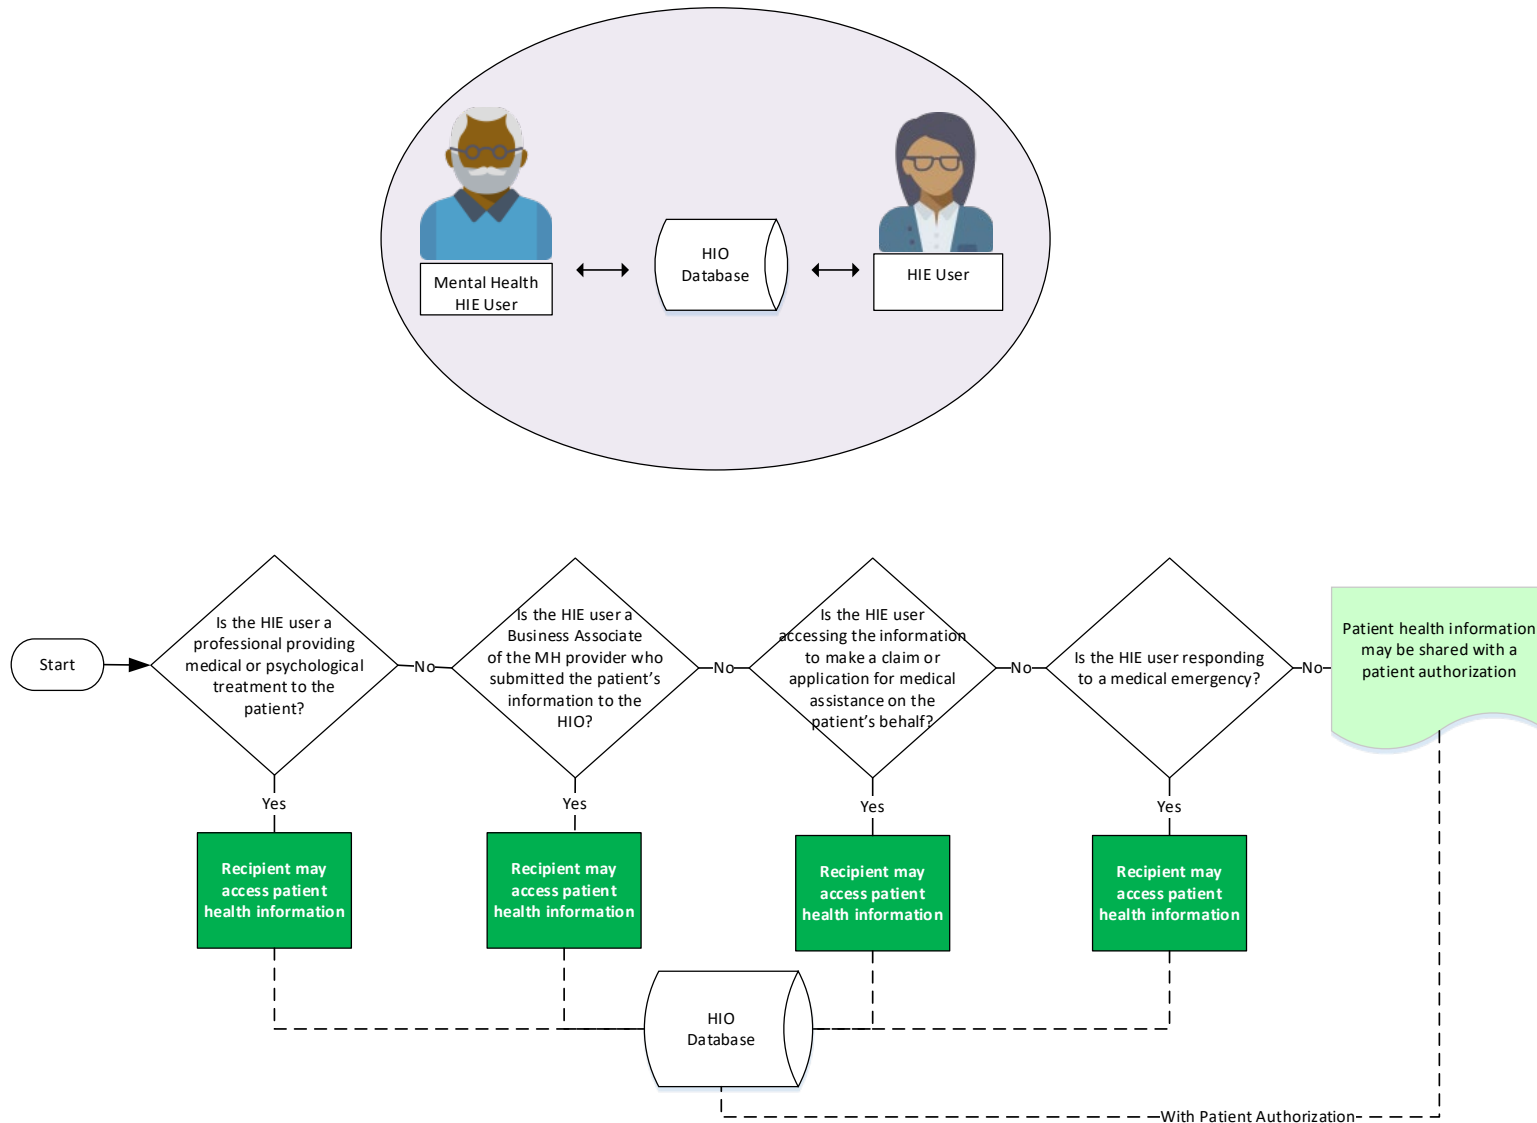

A [health information exchange \(HIE\)](#) user wants to access a patient's [mental health information](#) from a [health information organization \(HIO\)](#) database. The HIE user is a credentialed individual who has access to the information based on his or her roles and responsibilities. The HIO is in possession of and maintains secure [health information](#). The HIO governs access to patient information through permissions specific to user roles.

Can an HIE user access patient mental health information from an HIO?

Important Scenario Guidance Assumptions:

- Organizations participating in this information exchange are not subject to California Consumer Privacy Act
- Patient is an adult
- There is no patient or [patient's representative authorization](#)
- There is no court order
- The patient information the HIE user is seeking to access in the HIO data repository is regulated by the Lanterman-Petris-Short (LPS) Act

Graphic - Mental Health Information from Health Information Organization to Health Information Exchange User

Scenario Guidance – Mental Health Information from Health Information Organization to Health Information Exchange User

Mental health information is specially protected. In most circumstances in California, LPS-regulated mental health information may only be shared with the patient or patient’s representative authorization.

Despite the restrictions, a mental health provider may share information with an HIO without a patient authorization under certain conditions (refer to [Scenario 20 - Mental Health Provider to Health Information Organization](#)). Once the patient’s information is stored within an HIO’s database, however, HIE users can only access the mental health information regulated by LPS²⁴ without an authorization if at least one of the following conditions is met:

- The HIE user accessing the mental health information is a professional providing medical or psychological [treatment](#) to the patient.
[45 C.F.R. § 164.506; Cal. Welf. & Inst. Code § 5328(a)(1).]
- The HIE user accessing the mental health information has a valid [business associate agreement \(BAA\)](#) to perform a function or activity (e.g., financial audit, IT services, quality improvement activities) on behalf of the mental health provider who submitted the patient’s mental health information to the HIO. A [business associate \(BA\)](#) is permitted to use or disclose health information only in the manner specified in the executed BAA to protect health information per the Health Insurance Portability and Accountability Act (HIPAA) guidelines (refer to [Scenario 10 – Quality Improvement](#) and [Scenario 11 – Audits](#) for more information on [business associates](#)).
[45 C.F.R. §§ 160.103, 164.308(b)(1) – (b)(3), 164.504; Cal. Welf. & Inst. Code § 5328(a)(25).]
- The HIE user is accessing the mental health information because it is necessary to make a claim or application for medical assistance on the patient’s behalf.
[45 C.F.R. § 164.506; Cal. Welf. & Inst. Code § 5328(a)(3).]
- The HIE user is accessing the patient’s health information to respond to a medical emergency (refer to [Scenario 8 - In the Event of Emergency](#)).
[45 C.F.R. § 164.506; Cal. Welf. & Inst. Code § 5238(a).]

²⁴ Mental health information not regulated by LPS may be disclosed as permitted by HIPAA and CMIA.

When a [qualified professional person](#) accesses health information from the HIO to provide services within the treatment program that provided the information to the HIO, no patient authorization is needed.

[45 C.F.R. §§ 164.506, 164.512; Cal. Welf. & Inst. Code § 5328(a)(1).]

If none of the above conditions are met, the health information regulated by LPS can be accessed by the HIE user with a valid patient or patient’s representative authorization.

[45 C.F.R. § 164.508(b); Cal. Welf. & Inst. Code § 5328(a)(2).]

If mental health information regulated by LPS is shared for a variety of reasons including treatment and payment, the HIO must capture the [disclosure](#) to facilitate the documentation in the patient’s medical record. The documentation must include the date, circumstance, names of recipient, relationship to patient, and what information was disclosed.

[Cal. Welf. & Inst. Code § 5328.6.]

Concluding Thoughts

In conclusion, the State of California recognizes the value of sharing healthcare information when legally permissible and in the interests of the patient. Such sharing often improves coordination of care and health outcomes to the benefit of the patient. In the current complex regulatory environment, the State recognizes it can be challenging for providers to know with certainty when the sharing of healthcare information is permissible, particularly for specially protected health information such as mental health and substance use disorder patient information.

The State developed this State Health Information Guidance (SHIG) to help clarify conditions when behavioral health information may be shared without patient authorization and when disclosures are permitted by patient authorization. The SHIG is a resource to provide such clarification and encourages appropriate sharing of behavioral health patient information.

As the California healthcare landscape continues to evolve and the coordination of care for behavioral health patients continues to rise, the State's intent is to support behavioral health providers by clarifying state and federal law. As a result, the State wishes to contribute to the dialogue taking place among behavioral health stakeholders through this authoritative guidance so that patient-centric care solutions can continue to be developed in the behavioral health community.

Appendix 1 – SHIG Participants

SHIG Stakeholder Kickoff Participants

The following companies and organizations participated in the SHIG Stakeholder Kickoff held in Sacramento September 2016. The purpose of the event was to explain the project and to solicit input to the topics to be covered in the SHIG:

- Alameda County Health Care Agency
- Blue Shield of California
- California Association of Health Information Exchanges (CAHIE)
- California Association of Health Plans (CAHP)
- California Department of Health Care Services (DHCS)
- California Department of Public Health (CDPH)
- California Department of State Hospitals (DSH)
- California Health Information Partnership & Services Organization (CalHIPSO)
- California Health & Human Services (CHHS) Agency
- California Health Care Foundation (CHCF)
- California Hospital Association (CHA)
- California Center for Data Insights and Innovation (CDII)
- California Pan-Ethnic Health Network (CPEHN)
- City and County of San Francisco
- County Behavioral Health Directors Association of California (CBHDA)
- County of Santa Clara
- Dignity Health
- LeanMD
- Manifest MedEx (formerly Cal INDEX)
- Mental Health Services Oversight & Accountability Commission (MHSOAC)
- Orion Health
- San Diego Health Connect
- San Joaquin Community Health Information Exchange (SJCHIE)
- Sutter Health

SHIG Advisory Group Members

Advisory Group members were recruited to oversee and guide the SHIG project. Advisory Group members include the following individuals and organizations.

Name	Title	Organization Name
Jana Aagaard	Senior Counsel	Dignity Health
Angela Alton	Privacy Officer	Sutter Health
Michelle Befi	Customer Solutions Officer	Easter Seals Bay Area
Erin Bernstein	Deputy City Attorney	City and County of San Francisco
Karen Boruff	Project Manager	CAHIE
Robert Cothorn	Executive Director	CAHIE
Mark Elson	Executive Director	SJCHIE
Michael Freeman	Section Chief, Narcotic Treatment Program	DHCS
Steven Kite	Deputy Director	National Alliance of Mental Illness
Sara Kitterman	Privacy Officer	Sutter Health
Linnea Koopmans	Senior Policy Analyst	CBHDA
Michaela Lozano Lewis	Deputy County Counsel	County of Santa Clara
Martin Love	Chief Executive Officer	North Coast Health Improvement and Information Network
Lisa Matsubara	Privacy Attorney	California Medical Association
Arnulfo Medina	Deputy City Attorney	City and County of San Francisco
Marlies Perez	Chief, Substance Use Disorder Compliance Division	DHCS
Lois Richardson	Vice President and Counsel, Privacy and Legal Publications	CHA
Jonathan Rothman	Privacy Officer	DHCS
Jennifer Schwartz	Privacy Officer	DSH
Elaine Scordakis	Assistant Director	CDII
Linette Scott	Chief Medical Information Officer	DHCS
Alya Sulaiman	Legal Counsel and Privacy Director	Manifest MedEx (formerly Cal INDEX)
Catherine Teare	Associate Director	CHCF
Lee Tien	Senior Staff Attorney	Electronic Frontier Foundation
Josephine Wong	ACO Clinical Technical Senior Manager	Blue Shield of California

Advocacy Organizations Consulted

In addition to SHIG Advisory Group Members, CDII consulted select statewide and national advocacy organizations to inform the SHIG project. CDII had discussions and interviews with the following organizations and individuals.

Name	Title	Organization Name
Jack Dailey	Senior Attorney	Legal Aid Society of San Diego (Patient Advocacy)
Michelle De Mooy	Director, Privacy & Data	Center for Democracy and Technology (Privacy Advocacy)
Richard Holober	Executive Director	Consumer Federation of California (Privacy Advocacy)
Pamila Lew	Staff Attorney	Disability Rights California (Disability Advocacy)

SHIG Development Contributors

Under the direction of the Center for Data Insights and Innovation (CDII) and the SHIG Advisory Group, the following individuals contributed significantly to the development of the SHIG publication.

SHIG – Original Publication in 2018

Name	Title	Organization Name
Elaine Scordakis	Project Director	CDII
Jennifer Schwartz	Legal Subject Matter Expert	CDII
Daniel Glaze	Project Manager/ Scrum Master	Elyon Enterprise Strategies
Jeff Turk	Content Developer	Business Advantage Consulting
Jennifer Rider	Content Developer	Business Advantage Consulting
Rick Lytle	Content Editor/Team Lead	Business Advantage Consulting
Betsy Figueiro-Steinbrueck	Content Editor	Business Advantage Consulting
Rochelle Babb	Content Editor	Business Advantage Consulting

Additional Organizations Consulted

CDII and the SHIG Advisory Group greatly appreciate the services of individuals and organizations who also contributed to the development of the SHIG by consulting with the development team and/or reviewing sections of the document.

Name	Title	Organization Name
Lisa Ashton	Strategic Market Director	Johnson & Johnson Health Care Systems, Inc.
Lauren Block	Program Director, Health Division	National Governors Association Center for Best Practices
Allie Budenz	Associate Director of Quality Improvement	California Primary Care Association
Mary Ellyn Gormley	Assistant County Counsel	Office of the County Counsel, County of Alameda
Brian Hansen	Health Program Specialist	DHCS
Elana Lopez-Gusman	Executive Director	American College of Emergency Physicians
Ashley Mills	Senior Researcher	California Mental Health Services Oversight and Accountability Commission
Karen Morphy	Chief Strategy Officer	Elyon Enterprise Strategies
Cheri Silveira Moliere	Director, Risk Management	Xpio Group Health, LLC
Mark Wilson	Senior Consultant	Business Advantage Consulting

Appendix 2 - Patient Authorization for Use or Disclosure

Patient Authorization Summary

Although state statutes and federal regulations provide special protections for [behavioral health information](#), they also provide flexibility for [disclosing](#) and sharing the [health information](#) with a patient [authorization](#). If a patient has the capacity to provide explicit or implicit consent or instruction, he or she generally has the right to authorize to whom his or her behavioral health and general medical information can be disclosed. A legally competent adult patient may provide permission for a provider or organization to share his or her personal health information, including [mental health information](#) and [substance use disorder \(SUD\) patient-identifying information](#), for a wide range of purposes, including [coordination of care](#) and social services. [Health providers](#) are encouraged to discuss with patients why some forms of sharing might be in the patient's best interests. Informed disclosure decisions by patients may be beneficial to the therapeutic relationship.

As defined by health information [privacy](#) laws, a provider generally has responsibility to act on a patient's decision to authorize or not authorize disclosure of their health information in situations involving mental health or SUD. In some situations, questions may arise concerning whether the patient has the capacity to provide consent and if not, who is able to give informed consent for those individuals. Providers should seek legal counsel in such situations.

Depending upon the type of health information being released, authorization form requirements differ by law. The Health Insurance Portability and Accountability Act (HIPAA), Lanterman-Petris-Short (LPS) Act, Health and Safety Code (HSC) § 11845.5, Confidentiality of Medical Information Act (CMIA), and 42 C.F.R. Part 2 each define required (but not identical) elements of a consent form. The requirements for a compliant authorization form from each statute or regulation are described below. Keep in mind, valid authorizations must include HIPAA as well as the requirements associated with CMIA-, LPS- or SUD-regulated entities.

Authorization Form Requirements

HIPAA Authorization Form Requirements

The core elements of a valid HIPAA authorization must include:

- Meaningful description of the information to be disclosed
- Name of the person or entity authorized to make the disclosure
- Name of the person/class of persons/entity of the recipient of the information
- Description of the purpose of the disclosure
- Expiration date or an expiration event that relates to the individual
- Signature of the patient or their [patient's representative](#) (along with a description of each representative's authority to sign on behalf of the patient)

In addition, the authorization must include the following statements:

- The Notice of Privacy Practices provides instructions for me should I choose to revoke my authorization and includes limitations on my revocation.
- Treatment, payment, enrollment or eligibility for benefits will not be affected if the authorization is not signed
- If the organization or person I have authorized to receive the information is not a health plan or health care provider; the released information may no longer be protected by federal privacy regulations

[45 C.F.R. § 164.508(c).]

CMIA-Regulated Authorization Form Requirements

When a patient or patient's representative authorization for a disclosure of mental health information is required for CMIA-regulated entity, the form must include the HIPAA core elements (above) as well as the following (where different):

- No smaller than 14-point type
- Signed (handwritten or electronic) and dated by the patient or patient's representative, or spouse, or beneficiary/personal representative of a deceased person
- Specific uses and limitations on the types of medical information to be disclosed
- Name or functions of providers of health care, health care service plan, contractor, or pharmaceutical company that may disclose information
- Name or functions of persons or entities authorized to receive medical information
- Specific uses and limitations on the use of the medical information by persons or entities authorized to receive the information

- Specific date or event (within one year or less) after which the authorization is no longer valid
- Advises person signing of their right to receive a copy of the authorization

[*Cal. Civ. Code § 56.11.*]

LPS-Regulated Authorization Form Requirements

When a patient or patient’s representative authorization for a disclosure of mental health information is required for a LPS-regulated entity, the form must include the HIPAA core elements (above) as well as the following (where different):

- Purpose of the disclosure
- Information to be released
- Name of the agency or individual to whom information will be released
- Name of the responsible individual at the mental health facility who has authorization to release the information requested
- Signed by the patient or patient’s representative

[*Cal. Welf. & Inst. Code § 5328.7.*]

SUD- and HSC-Regulated Authorization Form Requirements

When a patient or patient’s representative authorization for a disclosure of SUD patient-identifying information is required for a 42 C.F.R. Part 2 regulated entity licensed by the California Department of Health Services, the form must include the HIPAA core elements (above) as well as the following elements (where different):

- Name of the patient
- Specific name or entity making the disclosure
- Name of the person or entity of the recipient of the information
- A description of each purpose of the requested use or disclosure
- How much and what kind of information will be released, including an explicit description of the substance use disorder information that may be disclosed
- Indicate that the patient understands he or she may revoke the authorization at any time, in writing, unless authorization has already been relied upon
- Date, event, or condition upon which the authorization expires, if not revoked earlier
- Date the authorization form was signed
- Signature of the patient or their representative

[*42 C.F.R. §§ 2.31, 2.33; Cal. Health & Safety § 11845.5.*]

Documentation Requirements for Authorized Disclosures

Specific documentation must be created and maintained for disclosures of mental health and SUD patient records, even when authorized by the patient.

Records Protected by LPS

When LPS-regulated (for more information refer to [Who is Subject to Lanterman-Petris-Short Act?](#)) mental health information is shared for treatment, elopement (meaning departs health care facility unsupervised or undetected), etc., the disclosure must be documented in the patient's medical record and include the following elements:

- Date
- Circumstance
- Names of recipients
- Relationship to patient
- Persons and agencies to whom such disclosure was made
- Specific information was disclosed

[Cal. Welf. & Inst. Code § 5328.6.]

Records Protected by 42 C.F.R. Part 2

Upon request, patients who have consented (using a general designation) to disclose their SUD patient-identifying health information must be provided a list of entities to whom their information has been disclosed. Under 42 C.F.R. Part 2 regulations, a patient may use the designation of an individual(s) and/or entity(ies) (e.g., "my past and current treating physicians"). Requests must be in writing and limited to disclosures within the past two years. Each document disclosure must include:

- Name(s) of the entity(ies)
- Date of the disclosure
- Brief description of the SUD patient-identifying information disclosed

[42 C.F.R. §§ 2.13(d), 2.31(a)(4)(ii)(B).]

Re-Disclosure of 42 C.F.R. Part 2 Regulated Patient Information

Behavioral health information regulated by 42 C.F.R. Part 2 is specially protected and, once received, may only be re-disclosed under specific conditions. SUD patient-identifying information that has been disclosed in response to a patient authorization must have a new patient authorization to be further disclosed except in certain circumstances.

[42 C.F.R. § 2.31(a).]

Each disclosure via an authorization must be accompanied by one of the following written statements :

(a)

“This record which has been disclosed to you is protected by Federal confidentiality rules (42 CFR part 2). These rules prohibit you from using or disclosing this record, or testimony that describes the information contained in this record, in any civil, criminal, administrative, or legislative proceedings by any Federal, State, or local authority, against the patient, unless authorized by the consent of the patient, except as provided at 42 CFR 2.12(c)(5) or as authorized by a court in accordance with 42 CFR 2.64 or 2.65. In addition, the Federal rules prohibit you from making any other use or disclosure of this record unless at least one of the following applies:

i. Further use or disclosure is expressly permitted by the written consent of the individual whose information is being disclosed in this record or as otherwise permitted by 42 CFR part 2

ii. You are a covered entity or business associate and have received the record for treatment, payment, or health care operations, or

iii. You have received the record from a covered entity or business associate as permitted by 45 CFR part 164, subparts A and E. A general authorization for the release of medical or other information is NOT sufficient to meet the required elements of written consent to further use or redisclose the record (see 42 CFR 2.31).”

- or -

(b)

“42 CFR part 2 prohibits unauthorized use or disclosure of these records.”

Each disclosure made with the patient’s written authorization must be accompanied by a copy of the consent or a clear explanation of the scope of the consent provided.

[42 C.F.R. § 2.32]

Appendix 3 – Special Documentation Requirements

Civil Code § 56.104 contains special documentation requirements related to requests for outpatient mental health records.

1. The specific information requested about the patient's participation in outpatient treatment with a psychotherapist and its specific intended use or uses.
2. The length of time the information will be kept before being destroyed or disposed of. The requestor can extend that timeframe, provided that they notify the provider, plan, or contractor of the extension. Any notification of an extension must include the specific reason for the extension, the intended use or uses of the information during the extended time, and the expected date of the destruction of the information.
3. A statement that the information will not be used for any purpose other than its intended use.
4. A statement that the requestor will destroy the information and all copies in their possession or control, will cause it to be destroyed, or will return the information and all copies of it before or immediately after the length of time specified has expired.

The requestor must provide a copy of the written request to the patient within 30 days of receipt of the information requested, unless the patient has signed a written waiver. The written waiver must be a letter signed and submitted by the health care provider or health care service plan waiving this notification.

This notification is limited to outpatient treatment with a psychotherapist. A “psychotherapist” is health care provider under the Confidentiality of Medical Information Act (CMIA), who is:

- (a) A person authorized to practice medicine in any state or nation who devotes, or is reasonably believed by the patient to devote, a substantial portion of his or her time to the practice of psychiatry.
- (b) A person licensed as a psychologist.
- (c) A person licensed as a clinical social worker, when he or she is engaged in applied psychotherapy of a nonmedical nature.
- (d) A person who is serving as a school psychologist and holds a credential authorizing that service issued by the state.
- (e) A person licensed as a marriage and family therapist.
- (f) A person registered as a psychological assistant who is under the supervision of a licensed psychologist or board certified psychiatrist, or a person registered as an associate marriage and family therapist who is under the supervision of a licensed marriage and

family therapist, a licensed clinical social worker, a licensed professional clinical counselor, a licensed psychologist, or a licensed physician and surgeon certified in psychiatry.

(g) A person registered as an associate clinical social worker who is under supervision.

(h) A person registered with the Board of Psychology as a registered psychologist who is under the supervision of a licensed psychologist or board certified psychiatrist.

(i) A psychological intern who is under the supervision of a licensed psychologist or board certified psychiatrist.

(j) A trainee, who is fulfilling his or her supervised practicum and is supervised by a licensed psychologist, a board certified psychiatrist, a licensed clinical social worker, a licensed marriage and family therapist, or a licensed professional clinical counselor.

(k) A person licensed as a registered nurse, who possesses a master's degree in psychiatric-mental health nursing and is listed as a psychiatric-mental health nurse by the Board of Registered Nursing.

(l) An advanced practice registered nurse who is certified as a clinical nurse specialist and who participates in expert clinical practice in the specialty of psychiatric-mental health nursing.

(m) A person rendering mental health treatment or counseling.

(n) A person licensed as a professional clinical counselor.

(o) A person registered as an associate professional clinical counselor who is under the supervision of a licensed professional clinical counselor, a licensed marriage and family therapist, a licensed clinical social worker, a licensed psychologist, or a licensed physician and surgeon certified in psychiatry.

(p) A clinical counselor trainee, who is fulfilling his or her supervised practicum and is supervised by a licensed psychologist, a board-certified psychiatrist, a licensed clinical social worker, a licensed marriage and family therapist, or a licensed professional clinical counselor.

[Cal. Evidence Code § 1010.]

Appendix 4 – Additional Resources

The State Health Information Guide (SHIG) has been posted on the Center for Data Insights and Innovation (CDII) website as a public resource.²⁵ The online SHIG will be available for as long as the public and the [behavioral health](#) community find it useful.

Issues and Subjects Not Addressed in SHIG

The current version of the SHIG only provides clarifications relating to [disclosure](#) and exchange of [behavioral health information](#). A significant number of issues and subjects relating to other specially-protected [health information](#) were identified as complex and at times confusing for providers. Fortunately, the SHIG is designed to be a virtual binder that can be expanded to include other topics. Should funding and resources become available, useful future topics for clarification could include, but are not limited to, any or all of the following:

- HIV/AIDS
- Minors' Health Information
- Foster Children Health Information
- Developmental Services
- Criminal Justice and Corrections Patient Health Information
- Genetic Information
- Sharing within and between [Health Plans](#), [Health Information Exchanges](#), [Health Information Organizations](#), Health Care Organizations, Accountable Care Organizations (ACO)
- Privacy and Electronic Health Records
- Electronic Signatures

Appendix 5 – Definitions

Term	Definition
Access	<p><i>IT related:</i> The ability or the means necessary to read, write, modify, or communicate data/information or otherwise use any system resource. [source: 45 C.F.R. § 134.304.]</p> <p><i>Non-IT related:</i> The right of an individual, or his or her patient’s representative, to inspect and/or obtain a copy of the individual’s health information. [source: 45 C.F.R. § 164.524.]</p>
Authorization	<p>A detailed document that gives covered entities permission to use health information for specified purposes which are generally other than treatment, payment or healthcare operations, or to disclosed health information to a third party specified by the individual. Relates to past, present, or future physical or mental conditions. [source: 42 C.F.R. §§ 2.31, 2.33; 45 C.F.R. § 164.508; Cal. Civ. Code § 56.11; Cal. Health & Safety Code § 11845.5(b); Cal. Welf. & Inst. Code § 5328.7.]</p>
Availability	<p>The reliability and accessibility of information assets to authorized personnel in a timely manner. [source: California Department of Technology website https://cdt.ca.gov/security/technical-definitions/.]</p>
Behavioral Health	<p>For purposes of the State Health Information Guidance (SHIG), behavioral health includes mental health and substance use disorder (SUD) information. [source: Created by the SHIG team.]</p>
Behavioral Health Information	<p>SUD patient-identifying information regulated by 42 C.F.R. Part 2 and/or California Health and Safety Code § 11845.5 and/or mental health information regulated by Lanterman-Petris-Short (LPS) or Confidentiality of Medical Information (CMIA). [source: 42 C.F.R. Part 2; Cal. Civ. Code § 56.30; Cal. Health & Safety Code § 11845.5; Cal. Welf. & Inst. Code § 5328.]</p>

Term	Definition
Business Associate (BA)	<p>A person or entity that performs certain functions or activities that involve the use or disclosure of health information on behalf of, or provides services to, a covered entity. Business associates may include, but not limited to:</p> <ul style="list-style-type: none"> • organizations that provide services (e.g., claims processing, clearing houses, data analysis, utilization review, quality assurance, billing, legal) on behalf of a covered entity where access to health information is required • a person or organization “that offers a personal health record to one or more individuals on behalf of a covered entity...” • “subcontractor that creates, receives, maintains, or transmits protected health information on behalf of the business associate...” <p>A member of the covered entity’s workforce is not a business associate. <i>[source: 45 C.F.R. § 160.103 (paraphrased).]</i></p>
Business Associate Agreement (BAA)	<p>A contract between a HIPAA-covered entity and a HIPAA business associate. The contract protects health information in accordance with HIPAA guidelines. <i>[source: 45 C.F.R. § 164.504(e) (paraphrased).]</i></p>
Confidentiality	<p>A security and privacy principle that works to ensure that information is not disclosed to unauthorized persons. <i>[source: 45 C.F.R. §164.304; California Department of Technology website https://cdt.ca.gov/security/technical-definitions/.]</i></p>
Coordination of Care	<p>The deliberate organization of healthcare and related services between two or more providers to facilitate the appropriate delivery of healthcare services. <i>[source: Agency for Healthcare Research and Quality website https://www.ahrq.gov/professionals/prevention-chronic-care/improve/coordination/index.html (paraphrased).]</i></p>
Covered Entity	<p>The following individuals or organizations that directly handle health information:</p> <ul style="list-style-type: none"> • a health plan • a healthcare clearinghouse • a health provider who transmits any health information in electronic form in connection with a standard transaction covered by HIPAA <p><i>[source: 45 C.F.R. § 160.103.]</i></p>

Term	Definition
Data Use Agreement (DUA)	<p>An agreement required by HIPAA, which must be entered into before there is any use or disclosure of a limited data set to a third party. A DUA must:</p> <ul style="list-style-type: none"> • establish the permitted uses and disclosures of the limited data set; • establish who is permitted to use or receive the limited data set; and • provide that the recipient will: <ul style="list-style-type: none"> ○ not use or disclose the information other than as permitted by the DUA or as otherwise required by law; ○ use appropriate safeguards to prevent uses or disclosures of the information that are inconsistent with the DUA; ○ report to the covered entity any use or disclosure of the information, in violation of the DUA, of which it becomes aware; ○ ensure that any agents to whom it provides the limited data set agree to the same restrictions and conditions; and ○ not attempt to identify or contact the individual. <p><i>[source: 45 C.F.R. § 164.514(e)(4).]</i></p>
De-identified Information	<p>Information redacted to remove any identifying information and prevent the information from being used to re-identify the patient.</p> <p>This process of de-identification mitigates privacy risks to patients and thereby supports the secondary use of data for comparative effectiveness studies, policy assessment, life sciences research and other endeavors.</p> <p><i>[source: 45 C.F.R. § 164.514(a); HHS website https://www.hhs.gov/hipaa/for-professionals/privacy/special-topics/de-identification (paraphrased).]</i></p>
Disclose	<p>The release, transfer, dissemination, or to otherwise communicate all or any part of any record orally, in writing, or by electronic or any other means to any person or entity.</p> <p><i>[source: 45 C.F.R. § 160.103 (paraphrased).]</i></p>

Term	Definition
Federal Assistance	<p>A program is considered to be federally assisted if:</p> <p>(1) It is conducted in whole or in part, whether directly or by contract or otherwise by any department or agency of the United States (but see paragraphs (c)(1) and (2) of this section relating to the Department of Veterans Affairs and the Armed Forces);</p> <p>(2) It is being carried out under a license, certification, registration, or other authorization granted by any department or agency of the United States including but not limited to:</p> <ul style="list-style-type: none"> (i) Participating provider in the Medicare program; (ii) Authorization to conduct maintenance treatment or withdrawal management; or (iii) Registration to dispense a substance under the Controlled Substances Act to the extent the controlled substance is used in the treatment of substance use disorders; <p>(3) It is supported by funds provided by any department or agency of the United States by being:</p> <ul style="list-style-type: none"> (i) A recipient of federal financial assistance in any form, including financial assistance which does not directly pay for the substance use disorder diagnosis, treatment, or referral for treatment; or (ii) Conducted by a state or local government unit which, through general or special revenue sharing or other forms of assistance, receives federal funds which could be (but are not necessarily) spent for the substance use disorder program; or <p>(4) It is assisted by the Internal Revenue Service of the Department of the Treasury through the allowance of income tax deductions for contributions to the program or through the granting of tax exempt status to the program.</p> <p><i>[source: 42 C.F.R. § 2.12.]</i></p>
Federally Qualified Health Center (FQHC)	<p>Community-based and patient-directed organization that serves a population that is medically underserved by providing comprehensive primary health services. These organizations must qualify for funding under Section 330 of the Public Health Service Act.</p> <p><i>[source: Created by the SHIG team.]</i></p>
Health Information	<p>Any name in combination with any other information related to the provision of health care that can lead a person to reasonably identify the patient.</p> <p>This definition incorporates and synthesizes State of CA and federal definitions, including:</p> <ul style="list-style-type: none"> ● Protected Health Information ● Electronic Health Information

Term	Definition
	<ul style="list-style-type: none"> • Individually Identifiable Health Information • Medical Information • Confidential and Private Information <p>Special note: Health Information as used in the SHIG does not include information and records covered by other federal or state laws regarding substance use disorder treatment records, mental/behavioral health records, developmental services records, HIV, genetic information. [source: <i>Statewide Health Information Policy Manual (SHIPM)</i>.]</p>
<p>Health Information Exchange (HIE)</p>	<p>The capability to electronically move health information among disparate healthcare information systems, and maintain the meaning of the information being exchanged.</p> <p>The goal of HIE is to facilitate access to, and retrieval of, clinical data to provide safe, timely, efficient, effective, equitable and patient-centered care.</p> <p>[source: <i>Health Information and Management Systems Society (HIMSS) website</i> http://www.himss.org/library/health-information-exchange.]</p>
<p>Health Information Organization (HIO)</p>	<p>An organization that oversees and governs the exchange of health information among stakeholders within a defined geographic area, for improving health and care in that community.</p> <p>[source: <i>HIMSS website</i> http://www.himss.org/library/health-information-exchange.]</p>
<p>Health Oversight Activities</p>	<p>The oversight of the healthcare system (public or private), as well as government benefit programs, entities subject to government regulatory programs and entities subject to civil rights laws. These oversight activities include:</p> <ul style="list-style-type: none"> • audits • civil, administrative or criminal investigations • inspections • licensure or disciplinary action • civil, administrative or criminal proceedings or actions <p>[source: <i>45 C.F.R. § 164.512(d)(1) (paraphrased)</i>.]</p>

Term	Definition
Health Oversight Agency	<p>A person, or entity, at any level of the federal, state, local, or tribal government that oversees the healthcare system or requires health information to determine eligibility, or compliance, or to enforce civil rights laws. Examples include:</p> <ul style="list-style-type: none"> • State and County licensing agencies • Department of Justice and their civil rights enforcement activities • State Medicaid fraud control units • Food and Drug Administration <p><i>[source: 45 C.F.R. § 164.501 (paraphrased).]</i></p>
Health Plan	<p>An individual or group plan that provides, or pays the costs of, healthcare and includes the following, singly or in:</p> <ul style="list-style-type: none"> • a group plan, a health insurance issuer, a healthcare service plan • an HMO • Part A, B or D of the Medicare program, or a supplemental policy thereof • a long-term care policy excluding a nursing home fixed indemnity policy • an employee welfare benefit plan • a healthcare program for uniformed services • a veterans healthcare program • an Indian Health Services program • the Federal Employees Health Benefits Program • an approved state child health plan • a Medicare Advantage program • a high risk pool established under state law to provide health insurance coverage or comparable coverage • any other individual or group plan or combination of individual or group plans that provides or pays for the cost of medical care <p><i>[source: 42 U.S.C. 300gg-91(a)(2); 45 C.F.R. § 160.103; Cal. Civ. Code § 56.05.]</i></p>

Term	Definition
Health Provider	<p>Any person or organization that furnishes, bills, or is paid for healthcare in the normal course of business. Examples include, but not limited to:</p> <ul style="list-style-type: none"> • doctors • clinics • psychologists • dentists • chiropractors • nursing homes • pharmacies <p><i>[source: 45 C.F.R. §§ 160.102, 160.103.]</i></p>
Healthcare Operations	<p>Activities relating to covered functions of a business associate, healthcare clearinghouse, health plan, health provider or hybrid entity. Including, but not limited to:</p> <ul style="list-style-type: none"> • conducting quality assessment and improvement activities; patient safety activities; population-based activities relating to improving health or reducing healthcare costs, protocol development, case management and care coordination, contacting of health providers and patients with information about treatment alternatives; and related functions that do not include treatment • licensing and accreditation • reviewing the competence or qualifications of healthcare professionals, evaluating practitioner and provider performance, health plan performance, training of non-healthcare professionals, accreditation, certification, licensing, or credentialing activities • underwriting, enrollment, premium rating, and other activities related to the creation, renewal, or replacement of a contract of health insurance or health benefits, and ceding, securing, or placing a contract for reinsurance of risk relating to claims for healthcare • conducting or arranging for medical review, legal services, and auditing functions, including fraud and abuse detection and compliance programs • business planning and development • business management and general administrative activities of the entity <p><i>[source: 45 C.F.R. § 164.501; Cal. Civ. Code §56.10(c).]</i></p>
Integrity	<p>The property that data or information have not been altered or destroyed in an unauthorized manner.</p> <p><i>[source: 45 C.F.R. § 164.304.]</i></p>

Term	Definition
Law Enforcement Official	<p>An officer or employee of any agency or authority of the United States, a state, a territory, a political subdivision or a state or territory, or an Indian tribe, who has arrest powers. Examples include, but not limited to:</p> <ul style="list-style-type: none"> • peace officers • district attorneys • sheriffs <p><i>[source: 45 C.F.R. § 164.103; Cal. Penal Code §§ 830, 834.]</i></p>
Limited Data Set	<p>Health information that excludes the following direct identifiers of the patient, or of relatives, employers, or household members of the patient:</p> <ul style="list-style-type: none"> • names • postal address information, other than town or city, state, and zip code • telephone and fax numbers • electronic mail addresses • Social Security Numbers • medical record numbers • health plan beneficiary numbers • account numbers • certificate / license numbers • vehicle identifiers and serial numbers, including license plate numbers • device identifiers and serial numbers • web universal resource locators (URLs) • internet protocol (IP) address numbers • biometric identifiers, including finger and voice prints • full face photographic images and any comparable images <p><i>[source: 45 C.F.R. § 164.514(e)(2).]</i></p>
Mental Health Information	<p>Patient records, or discrete portions thereof, specifically relating to evaluation or treatment of a mental disorder. Mental health records include, but is not limited to, all alcohol and drug abuse records.</p> <p><i>[source: Cal. Civ. Code § 56.30; Cal. Health & Safety Code § 123105(b); Cal. Welf. & Inst. Code § 5328.]</i></p>
Minimum Necessary	<p>The amount of information, to the extent necessary, to accomplish the intended purpose of a use, disclosure, or request.</p> <p><i>[source: 45 C.F.R. §§ 164.502(b), 164.514(d).]</i></p>
Organized Health Care Arrangement	<p>A clinically integrated care setting in which individuals typically receive healthcare from more than one health provider.</p> <p><i>[source: 45 C.F.R. § 160.103 (paraphrased).]</i></p>

Term	Definition
Patient's Representative	<p>A person who:</p> <ul style="list-style-type: none"> • has the authority under law to make healthcare decisions for another person, or • has the authority to administer the estate of a deceased person (including executor) <p>A provider using clinical judgment may choose not to deal with an individual as the patient's representative, if there is a reasonable belief that:</p> <ul style="list-style-type: none"> • the individual has or will abuse/neglect the patient with violence, or • may endanger the patient if the information is provided to the individual; and • it would not be in the best interest of the patient to deal with the individual as the patient's representative. <p><i>[source: 45 C.F.R. § 164.502(g) and HHS website http://www.hhs.gov/ocr/privacy/hipaa/understanding/coveredentities/personalreps.html.]</i></p>
Payment	<p>The activities undertaken to obtain or provide reimbursement for the provision of healthcare (including billing, claims management, determination of eligibility for health benefits, justification of charges, utilization review).</p> <p><i>[source: 45 C.F.R. § 164.501 (paraphrased).]</i></p>
Physical Health Provider	<p>A healthcare practitioner who provides services for the prevention, diagnosis, treatment and rehabilitation of physical illnesses and injuries. Examples include, but are not limited to:</p> <ul style="list-style-type: none"> • general practice physician • internist • surgeon • oncologist • radiologist • physical therapist <p><i>[source: Created by the SHIG team.]</i></p>
Privacy	<p>The right of individuals and organizations to control the collection, storage, and dissemination of information about themselves.</p> <p><i>[source: California Department of Technology website https://cdt.ca.gov/security/technical-definitions/.]</i></p>

Term	Definition
Program Evaluation	<p>A systematic way to improve and account for health actions by ensuring specific goals are defined as well as a description of the program, definition and measurement of outcome, assessment of goals and outcomes, analysis of data and implementing findings.</p> <p><i>[source: National Institutes of Health website https://www.ncbi.nlm.nih.gov/pubmed/281768.]</i></p>
Psychotherapy Notes	<p>Notes recorded (in any medium) by a mental health provider documenting or analyzing the contents of conversation during a private or group, joint or family counseling session <u>and that are separated from the rest of the individual's medical record</u>.</p> <p><i>Note: Medication prescription and monitoring, counseling session start and stop times, the modalities and frequencies of treatment furnished, results of clinical tests, and summary information (diagnosis, functional status, the treatment plan, symptoms, prognosis, and progress to date) are NOT considered psychotherapy notes.</i></p> <p><i>[source: 45 C.F.R. § 164.501 (paraphrased).]</i></p>
Qualified Professional Persons	<p>Persons whose training and experience are appropriate to the nature and level of work in which they are engaged. May be a physician, psychologist, or non-clinician professional.</p> <p><i>[source: Created by the SHIG team.]</i></p>
Qualified Service Organization (QSO)	<p>An individual or entity who:</p> <ol style="list-style-type: none"> 1) provides services to a 42 C.F.R. Part 2 program, such as data processing, bill collecting, dosage preparation, laboratory analyses, or legal, accounting, population health management, medical staffing, or other professional services, or services to prevent or treat child abuse or neglect, including training on nutrition and child care and individual and group therapy, and 2) has entered into a written agreement with a 42 C.F.R. Part 2 program under which that individual or entity: <ol style="list-style-type: none"> (i) acknowledges that in receiving, storing, processing, or otherwise dealing with any patient records from the 42 C.F.R. Part 2 program, it is fully bound by the regulations in this part; and (ii) if necessary, will resist in judicial proceedings any efforts to obtain access to SUD patient-identifying information. <p><i>[source: 42 C.F.R. § 2.11 (paraphrased).]</i></p>

Term	Definition
<p>Qualified Service Organization Agreement (QSOA)</p>	<p>A written agreement between a 42 C.F.R. Part 2 program and a QSO that permits the exchange of patient-identifying information without consent. Under the QSOA, the QSO agrees to:</p> <ul style="list-style-type: none"> • comply with 42 C.F.R. Part 2 regulations • resist any judicial efforts to obtain access to patient records except as permitted by law <p><i>[source: 42 C.F.R. § 2.11 (paraphrased).]</i></p>
<p>Research</p>	<p>A systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge. Activities that meet this definition constitute research for purposes of this policy, whether or not they are conducted or supported under a program that is considered research for other purposes.</p> <p><i>[source: 45 C.F.R. § 46.102(l).]</i></p>
<p>Security</p>	<p>The administrative, physical, and technical safeguards in, or protecting, an information system.</p> <p><i>[source: 45 C.F.R. § 164.304; Cal. Health & Safety Code § 1280.18.]</i></p>
<p>Social Services Case Manager (SCCM)</p>	<p>Social work patient often have multiple and complex needs. Social workers who specialize in assessing complex patient needs assist patients and their families accessing needed services (examples include but are not limited to....), and coordinating care (examples include...) among multiple service providers.</p> <p>For more information refer to the National Association of Social Workers site: www.socialworkers.org</p> <p><i>[Source: Created by the SHIG team.]</i></p>
<p>Substance Use Disorder Regulations</p>	<p>Federal regulations found in 42 C.F.R. Part 2.</p> <p><i>[source: Created by the SHIG team.]</i></p>
<p>Substance Use Disorder (SUD) Treatment Program</p>	<p>Synonymous with “Program” - An individual, entity, or identified unit within a general medical facility providing, or publicly claiming to provide, substance use disorder diagnosis, treatment or referral for treatment; or medical personnel or other staff in a general medical care facility whose primary function is to provide substance use disorder diagnosis, treatment or referral for treatment.</p> <p><i>[source: 42 C.F.R. § 2.11 (paraphrased).]</i></p>
<p>Substance Use Disorder (SUD) Patient-Identifying Information</p>	<p>Health information related to the diagnosis or treatment (including referral for treatment) of a SUD, such as patient’s name, address, SSN, biometrics, or similar information by which the identity of the patient can be established with reasonable accuracy.</p> <p><i>[source: Created by the SHIG team, based on 42 C.F.R. § 2.11.]</i></p>

Term	Definition
Treatment	<p>The provision, coordination, or management of healthcare and related services by one or more health providers, including the coordination or management of healthcare by a health provider with a third party; consultation between health providers relating to a patient; or the referral of a patient for healthcare from one health provider to another.</p> <p><i>[source: 45 C.F.R. § 164.501.]</i></p>
Whole Person Care (WPC)	<p>The coordination of physical health, behavioral health, and social services, as applicable, in a patient-centered manner with the goals of improved health and well-being through more efficient and effective use of resources.</p> <p><i>[source: Created by the SHIG team, based on DHCS website</i> http://www.dhcs.ca.gov/services/Pages/WholePersonCarePilots.aspx.]</p>

Appendix 6 – Acronyms

Acronym	Meaning
42 C.F.R. Part 2	Part 2 of Title 42 of the Code of Federal Regulations
ACO	Accountable Care Organization
BA	Business Associate
BAA	Business Associate Agreement
BH	Behavioral Health
CA	Two-letter abbreviation for California
CalHHS	California Health & Human Services
CAHIE	California Association of Health Information Exchanges
CAHP	California Association of Health Plans
CalHIPSO	California Health Information Partnership & Services Organization
CBHDA	County Behavioral Health Directors Association of California
CCPA	California Consumer Protection Act
CDII	Center for Data Insights and Innovation
CDPH	California Department of Public Health
C.F.R.	Code of Federal Regulations
CHA	California Hospital Association
CHCF	California Health Care Foundation
CMIA	Confidentiality of Medical Information Act
CPEHN	California Pan-Ethnic Health Network
DEA	Drug Enforcement Agency
DHCS	Department of Health Care Services
DSH	Department of State Hospitals
DUA	Data Use Agreement
EMS	Emergency Medical Services
FQHC	Federally Qualified Health Center
HIE	Health Information Exchange
